Laborers Are Lany. The one town, laborers were digging a ditch, one of the simpleat and safest forms of labor I know of. The pay was ten shillings (say \$2.45) a day of eight hours. If the place were damp they got an additional shilling (say 24 cents). So far as I could judge, the laborers were doing about half the work which would be required in a like time in America, England or Can-ada. Similar conditions prevailed all over the country. Election Is Probable.

Election is Probable. "But this was so close, and was, in fact, a repudiation, that the Premier resigned. It was then up to the op-position to form a new Cabinet. But not having a working majority, with-out which it can do nothing, it is likely that the opposition will call a general election. Then the people will have an opportunity to express their approval or disapproval of the Government's course."

Twelfth Round.

LOS ANGELES, May 10 .- Jack White, the Chicago featherweight, was an easy victor over Frankie Conley, of Kenosha, Wis., at the Vernon arena this afternoon. After the first round, which was fairly even. White started battering Conley with rights and lefts to body and face, never ceasing until at the end of the 12th round, when Conley's manager. Tom Jones, threw up

the sponge. He announced that Conley had broken his wrist in the sixth round. From the beginning Conley employed

the Chicago boy. He was hopelessly outclassed and it was next to impossible for him to land on White. Only the Kenosha boy's gameness kept him in the fight for a dozen rounds. White
