CARRIER OF BRIBE SAID TO BE FOUND

Baty Collects More Evidence in Graft Charge Against Patrolman and Two.

WOMAN GIVES HER VERSION

Marjorie Morgan Declares Maddux and Reed Demanded \$50 and She Gave \$10 and Later Sent \$40 by Messenger.

Collateral testimony, tending greatly to strengthen the charges of beibery under which Patrelman Cliff Maddux and two others are under arrest, was collected yesterday by Captain of Detectives Baty and will be used against the accused wen at a preliminary bearthe accused men at a preliminary hear-ing which may be held today. A messenger boy who was called by a man said to be Frank Reed, one of

the accused, to bring from Marjorle Morann \$10, a bribe to ward off her Morgin \$10, a brice to ward on sea arrest for selling liquor, has been found and will be used as a witness to boister the charges of David Ma-jor, the dissatisfied conspirator who remiled the alleged plot. The records of the messenger

pany show that on the data of the oc-currence a boy was sent to the Bruns-wick saloon and was ordered to go from there to the woman's rooms and bring back a package, which he did. Handwritting Is Similar.

Reed also will face the fact that a note, which said "put the money in an envelope and give it to the kid." Is in script strikingly similar to writings of his, left in police records at the time when he was a member of the force. in addition to this, the detectives see significance in the fact that be de-nies all knowledge of the woman, hough she, Maddux and Major tell dentical stories up to the point where the says the bribe was solicited, and

all agree that Reed was present.

"I would have given \$1000 if I had
to waid Miss Morgan, yesterday. "I
knew I was guilty of nothing, but they
said I would have to go to jail.

"Maddux and Reed came to my of-

fice and Reed pretended that he wanted massage. Then they called for beer and I told them I had none, but that they could order it by telephone from across the street. They said it would be better for me to order it, and Maddaw save me II. The peer came and I dux gave me \$1. The beer came, and l he waiter the dollar and handed the change back to Maddux. HISTORIC WOOD IS SAVED

Fork of Witness Tree Rescued From Garbage Fire at Vancouver.

VANCOUVER, Wash., May 12.—(Special.)—A large fork of the historic witness tree, from which the surveys of the Northwest started in 1846, and which was undermined by the water and destroyed in 1909, was saved from fire last week, when A. A. Quarnberg discovered that it had been taken to the city dump to be disposed of as garbage.

The Woodmen of the World procured the fork of the tree when it fell to have a Woodmen's stump made of it for work in the lodge. It was taken The nineteenth annual convention of the Oregon State Dental Association will be held at the North Pacific Dental Woodmen had saved the fork, so he went to the carpenter. He was in-formed that it had been taken to the city dump. Quarnberg reached the place as the fork was being burned. The fire was extinguished and the re-mainder of the wood saved.

Although the terms of a number of Federal officeholders in this state have expired, it is not probable that their successors will be appointed before final adjournment of the present ses-sion of Congress, which is scheduled for the second week in June, and possibly not until after the Republican National convention at Chicago. However, there will be three excep-

The reappointment of John McCourt, United States District Attorney: F. S. United States District Attorney: F. S. Bramwell and Frank Davey, Registers, respectively, of the La Grande and Burns general land offices, has been recommended and their names probably will be sent to the Senate by President Taft this week.

In the case of United States Attorney McCourt, no other candidate has filed an application for the appointment. Besides, Mr. McCourt, just before he applied for reaspointment, was

fore he applied for reappointment, was asked by the Department of Justice if he would accept a renewal of the com-mission that had expired. It is not beby the Attorney-General.

Others Have Expired.

In addition to those already enumer ated, the terms of the following offi-cers have expired: G. A. Westgate, Surveyor-General; William F. Mc-Gregor, Collector of Customs at As-toria; Register Moore and Receiver Arneson, of The Dalles Land Office.

It is understood that National Com-mitteeman Williams will not recom-mend the reappointment of Westgate, although it is not known whose name will be proposed for this job. McGregor is seeking reappointment as Collector of Customs at Astoria but he is being actively opposed by three candidates. They are J. S. Dellinger, editor of the Astorian: Charles Brown and G. A. Wingate, all residents of the Clatsop County metropolis. The strife for this place is keen and may result in retaining McGregor, incumbent, in his berth

Delay Is to Be Expected.

There is a reason why a delay may expected in the distribution of these be expected in the distribution of these Federal plums. The rupture between President Taft and Senator Bourne re-garding the award of Federal patron-age in this state has not been healed. Consequently, there is slight chance that they would be able to agree on a candidate for any of the places to be filled.

Should the President, on the recom mendation of National Committeeman Williams, send to the Senate the nomi-nation of a candidate for any of the offices, it is a certainty that Bourne would oppose confirmation by the Sen-ate. Bourne raid as much in his recent letter withdrawing further oppo-sition to confirmation of the appoint-ment of Leslie M. Scott as United States Marshal. On the other hand, it is just as certain that any candidate Bourne might recommend would not only be distasteful to the President, but would be opposed vigorously by Williams, as National committeeman.

Williams May Have Plan. The result is that incumbents of these offices, by virtue of an expired commission, in all probability will continue on the Federal payroll for another month at least, and possibly longer. Appointment of their successors will be made during the recess of Congress. This will enable the appointees to qualify and hold the office

pending confirmation by the Senate at its regular session next December. National Committeeman Williams de-parts for Chicago Wednesday, where, parts for Chicago Wednesday, where, as a member of the sub-committee on arrangements, he will assist in the preparation for the big convention of June 18. Incidentally, it is rumored that Williams will not be kept so unceasingly employed in the convention city for the month preceding the convention that he will not have time to the convention of the co slip away to Washington and confer with President Taft and Secretary Hilles relative to the situation in this state, more particularly concern those candidates to whom availa Federal jobs should be handed out.

VETERAN CONQUERS RHEUMATISM PANGS

Comrades at Napa Talking of Remarkable Quick Cure by New Method.

Jacob Hausman Comes to San Francisco to Tell How He Won Speedy Recovery.

Jacob Hausman, who lives at the Veterans' home in Napa came to San Francisco the other day to add his stery to those of many score local people who have found wonderful benefit from a new form of treatment for rheuma-tism which is being introduced here.

Mr. Hausman was practically crip-pled with rheumatism. The dread dis-case came on him many years are as a result of the exposure and hard life he led in the Nation's service, and crept slowly into his system until it got so bad he could not lift his arm even to put on his haf. The sharp, shooting pains and dull aching muscles which always clutch a victim of this disease made his life a continual round of torment. He could not sleep nights from the pain, and during the days the suf-fering from his rheumatism and the nervousness that followed his loss of sleep made him feel he was one of the earth's condemned. Then he read in a San Francisco paper about a new "uric and of course of freatment for rheuma-tism, and of how many people were coming out to say they had been cured, and be determined to come in to the city and try it.

That was several weeks ago. Yes terday he waved his hat around his head with his good right arm, made well again by the magic of scientific

medicines, and said:
"All the people out at the home know
that what I say about my condition
before I took this treatment—this
wonderful treatment of Professor Munyon's—and my condition now that I have taken it, is true. They are all talking about it. It cured me in almost no time. The medicines seemed to take right hold and oil up the stiff joints, and they healed and soothed the pain until now I don't have any. I am a well man, and I am proud to say that Munyon's medicines did it."

Munyon maintains offices in Port-and, rooms 4 and 5, 362 Washington

Mr. Kiddle came to Portland to aid the Masonic bodies in laying the cor-nerstone for the first building erected on Reed College campus, and remained at the new Imperial Hotel over Sunday. There is a great diversity of opinlon in Eastern Oregon as to the most available candidate for the Presidency," said Mr. Kiddle, "but there is none of that bitterness of feeling reported from other sections of the West. Eastern Oregon Republicans have come to that point where they find it afrisable to stand for the nominees of the party. Under our primary system the people make their selections for the different offices and our people are willing to abide by them.

"We are going to give the ticket, from Ben Selling to the smallest of-ficer, our loyal support. We are for the ticket just as the people named it."

REPUBLICAN DELEGATES BUSY Successful Candidates Aspire to Places on Committees.

These are busy days for the 10 dele gates from this state to the Republi-can National convention. There are not to exceed two or three members of the delegation who are not candi-dates for something. With two or three seeking election as National comdelegation and as many more hoping to be selected as Oregon's representa-tive on at least one of the half dozen committees that will be named during the progress of the convention, the lot of the two or three remaining delegates who do not covet anything is a lone-

For several days following the re-cent election, the principal interest turned to the choice of a National committeeman for Oregon. Ralph E. Wil-liams, incumbent, wants to be re-elected, but he has two or three opponents. The delegates are now giv-ing some thought to the organization ing some thought to the organization of the delegation, particularly the se-

lection of chairman.

Charles W. Ackerson, of this city, who received the largest vote in the election, is a candidate for chairman. He takes the position that the vote he received entitles him to serious condelegation. Other members of the delegation, however, maintain that the big vote Ackerson received was due to the alphabetical arrangement of the names of the delegates, his name head-ing the list of candidates. Some of the delegates entertaining this view of the situation are talking of supporting H. C. Campbell, also of Port-land, for chairman.

The committeeship most eagerly

sought in the organization of the consought in the organization of the convention is that of a place on the platform committee. Friends of Charles H. Carey will insist that he either be elected National committeeman or appointed a member of the platform committee. Other committees on which Oregon will be entitled to representation are as follows: Credentials, notify President and Vice-President of their

GOLD DUST

More clothes are rubbed out than worn out

saves rubbing and saves your clothes

Do not use Soap, Naphtha, Borax, Soda, Ammonia or Kerosene with Gold Dust. Gold Dust has all of their desirable cleansing qualities in a perfectly harmless and lasting form. The Gold Dust Twins

need no outside help-just direct them with your brains. Gold Dust lathers instantly in hot or cold, hard or soft water-converts itself instantly into thick, vigorous suds that remove grease, grime and settled stains and clear out

impurities and germs. Gold Dust spares you and protects your clothes from washboard wear.

Save yourself long hours of weary, dreary toil, and double the life of your clothes, by buying and trying a package of Gold Dust next wash-day.

Do not use soap, naphtha, borax, soda, ammonia or kerosene with Gold Dust. Gold Dust has all desirable cleansing qualities in a perfectly harmless and lasting form.

Made by THE N. K. FAIRBANK COMPANY, Chicago Makers of Fairy Soup (the oval cake)
