

SHRINERS CONCERT ENTHRALLS THROUG

Thousands Hear Tuneful Music by Lu Lu Temple Band of Philadelphia.

VISITORS IN JOLLY MOOD

Winnipeg Tex Wearer Wins Bet by Robbing Policemen in Four Cities of Handcuffs, Pistol, Club and Gilt Button.

To the tunes of "Everybody's Doing It," "Oh, You Great Big Beautiful Doll," "In the Shadow" and "Alexander's Rag-Time Band," dispensed by Lu Lu Temple band in the park of the Portland Hotel, nearly 1000 Nobles of the Mystic Shrine in Portland joined last night with their guests from Philadelphia, Cleveland, Pittsburgh, Richmond, Fargo, Minneapolis, Duluth and other cities in the gayest and most brilliant function connected with the festivities attending Shrine week in Portland.

The park, verandas and windows of the hotel were crowded. Other hundreds stood on the sidewalk, and the streets and other crowds stood almost uncomfortably close together around the Federal building so that they might be near enough to hear the tuneful strains of the orchestra that had traveled all the way from Philadelphia to the Coast to participate in the festivities of the annual Shrine convalescence of Los Angeles. It was what has been termed a "pop" concert in other cities. The band played nothing but popular airs and the crowd would not have permitted anything else.

Visiting Shriners Joke. The good-natured Shriners here from distant cities were in a jolly mood. They joined into the spirit created by the lively air that wafted up from the satiny uniformed organization seated beneath the canopy of palms and incandescent lights. Whenever a particularly catchy air floated up through the windows into the corridors of the hotel several dozen couples could be seen dancing the turkey trot on the tile floors. "Everybody's Doing It" they shouted in high glee as they glided happily back and forth through the groups of red-fezzed merry makers.

The happy crowds that had been honored through the day by the presence of J. Frank Treat and P. C. Shaffer, past imperial potatoes, were given additional cause for joy last night with the arrival of Ethelbert F. Allen, of Kansas City, also a former imperial potatoes. Mr. Allen is accompanied by his wife. They declare that the pleasures of the entertainment in Portland have not been equaled anywhere on the trip.

City's Growth Amazed. Mr. Shaffer had not been in Portland for ten years until yesterday. "I could hardly believe my eyes," he said last night. "I never saw a city grow so wonderfully and so rapidly. He recalled to other members of Lu Lu Temple that of the set of officers elected when the Temple was organized in 1882 he is the only one still living.

Dr. William Black, of Kharum Temple, Winnipeg, is returning home with a collection of trophies, including a pair of handcuffs, a pistol and club taken from policemen in three different cities visited on his present trip. He added a policeman's watch to his collection while in Portland yesterday. Dr. Black says that he could make a good living by becoming a pickpocket any time he felt in a malicious mood.

BANKS MUST OBEY LAW

NATIONAL CHARTER DOES NOT EXEMPT FROM LEGISLATION.

Supreme Court Hands Down Several Decisions—Peninsula Lumber Co. Wins Damage Suit on Appeal.

SALEM, Or., May 14.—(Special.)—Holding that National banks are only exempt from state legislation to the extent that such legislation impairs their efficiency to perform the functions which they were designed to perform, the Oregon Supreme Court in the case of the State of Oregon versus the First National Bank of Portland, the Oregon Supreme Court, in an opinion by Justice McEldrie, upheld the constitutionality of the act which provides for escheat of certain deposits in banks in this state.

It was contended that the statute in question invades the jurisdiction of the probate courts to administer upon the estate of decedents, which jurisdiction, as has often been held by the Supreme Court of this state, is primary and exclusive.

Lower Court is Sustained. "But the preceding question," answers the court, "while in the nature of an escheat procedure, does not assume the death of a depositor and is in no way an attempt to administer upon his estate. In such a proceeding proof of death would be necessary to give jurisdiction, but in this proceeding the property is not held for the benefit of the owner who may, or may not, be dead. It stands to reason, and requires no citation of authorities to show, that unless the proceeding operates to release the bank from liability to the depositor the statute is inoperative. We think such a discharge must naturally result." The higher court affirms the lower court.

Other decisions handed down today besides the case of Clark versus the City of Portland were as follows: George F. Brice, appellant, versus C. G. Younger, respondent, and George F. Brice, appellant, versus Lee Collins, respondent, appeals from Multnomah County. C. T. Gastenbergh judge; motion for restraining order denied in an opinion by Chief Justice Eakin. This case involves the same question as to an action for damages on a contract alleged to have been induced by fraud.

John A. Sanderson, respondent, versus the Peninsula Lumber Company, appellant, appealed from Multnomah County. W. N. Gastenbergh judge; reversed and remanded in an opinion by Chief Justice Eakin. This was an action for personal injuries sustained by the plaintiff while working in the lumber yard of the defendants.

Sea breezes put to flight Portland's hot wave yesterday afternoon, nipping away the heat that promised to be a record-breaker day for warmth.

At 1 o'clock the mercury was making a fast run up the tube and Portland people were beginning to believe that they were in for another scorching day. But shortly after 1 o'clock the sea breeze sprang up and the mercury dropped rapidly to a more comfortable zone. After 1 o'clock the afternoon was cool, as compared with the two preceding afternoons.

Continued cooler weather is promised by the local office of the United States Weather Bureau.

WOODLAND HAS WARM DAY.

WOODLAND, Wash., May 14.—(Special.)—Sunday's record-breaking weather was a very warm day, the thermometer going to 90 on Sunday and 88 yesterday, but it is much cooler today, the mercury standing at 78.

TWINS NEED MORE AID

Orphans Afflicted With White Plague Show Recovery—\$100 Needed Yet for Treatments.

FUNDS FOR TUBERCULAR BOYS STILL IN ARREARS.

Out at the Open Air Sanitarium are two bright little boys, Earl and Everett Johnson, for whom medical science and the restorative powers of nature are working to overcome the scourge of tuberculosis, with which the lads are afflicted and from which they have never been free.

To enable these boys to have the care they require in order to grow strong and well, funds must be provided. Since their condition was made known a short time ago, generous contributions have been received. But money must be forthcoming to settle the account which is now in arrears. This indebtedness has been reduced to date to something less than \$100. This should easily be raised and a sum provided sufficient to guarantee the cost of treatment at the sanitarium so long as it shall be necessary for the youngsters to remain there.

The mother of Earl and Everett died several months ago from tuberculosis. About a year ago it was discovered that the twin boys were also afflicted with glandular tuberculosis. Through the Visiting Nurse Association their case was brought before the "Knock-out" table, a company of men who lunch at the Portland Commercial Club. For several months the boys were able to receive treatment at the Open Air Sanitarium. Then the expenses ran behind. Through this treatment the disease has been arrested and there is every reason to believe that with continued care the little boys will be completely restored. Everett has had a bad ankle and foot and is obliged to use crutches, but the physicians who are treating him think that he is gradually overcoming this and will some day be able to go without these aids.

Subscriptions to the fund for the care of these little boys may be sent to the Oregonian office and will be transmitted to the committee in charge. Philanthropically disposed persons could hardly find a worthier cause than that of these two children who are being saved from suffering and death.

Speeding Autos Endanger Lives. That lives, especially of women and children, are constantly in danger on account of speeding automobiles on Upper Washington street, is asserted

Don't Drink Common Beer in Light Bottles Drink Schlitz in BROWN BOTTLES

You wouldn't think of drinking impure water. Why not be sure you get pure beer? If you drink beer from a light bottle that has been exposed to light, you are not sure. Light starts decay, even in pure beer. Schlitz is brewed in the dark, aged in glass-lined steel-enameled tanks. Every tub, vat and tank is scalded every time used. Every bottle is sterilized after it is sealed. Even the windows in our bottling plant are of brown glass. The Brown Bottle protects Schlitz purity from the brewery to your glass.

ROTECHILD BROS., DISTRIBUTORS, 20-22-24-26 N. First Street, Portland, Oregon. Phones, Main 153, A 4666.

See that crown or cork is branded "Schlitz"
