Sage Advice Is Sought. The advisory board was created part-ly because the directors desired to hon-or the men who have taken such a prominent part in its upbuilding and

also because the advice of men so ex-perienced in Y. M. C. A. affairs will be of great value. The advisory board will not meet with the directors but will be called together by Mr. Quack-enbush as occasion may arise. It is the desire of the directors to take the advisory body into consultation, es-pecially when consideration is given the important steps that are constantly being taken to meet the growth of the city and the extension of Y. M. C. A. activities.

The board at its meeting yesterday afternoon also received reports of the various departments during the asso-ciation year that ended May 1. These various reports were the most favor-able that have yet been recorded, both as to membership gains and the ef-fectiveness and scope of the work. It was shown that there are now 5307 members and that on May 1, 1911 there were 5025 members. The increase was shared by both the senior and junior departments. The great progress of the Y. M. C. A. is indicated by the fact that in 1906 the association had only 1507 members.

He said that men's business and political interests have become so involved that they are afraid to deal with those moral problems that have to with women and children. "Women voters will give us the backbone we heed," said Mr. Ehrgott, "in cleaning

up these things." Answering a man in the crowd who did not know he was exceeding asked the question: "Does the average woman want the ballot?" Dr. Chapman replied with emphasis that she does. "The average 'society' woman," he said, "does not want it for the same eason that her husband does not want romen to have it, because their eco nomic interests are opposed." The speaker pointed out that the wo

LOSS OF LICENSE IMPENDS

Saloon Case Under Advisement by

provided Municipal Judge Tazwell decides that the two offenses may be committed concurrently. The issue is under advisement in the case of Ferretti Bros., proprietors of a saloon at Union avenue and East Madison street. They were convicted on one charge yesterday and another is under consideration of the court, to be decided to day. Complaints were filed that the oration of the court, to be decided to-day. Complaints were filed that the Ferretis sold liquor on Sunday, and had their place of business open.

Attorneys for the defense contended that these two were one transaction, but the court held differently. It was shown that the saloon connects with a dancehall, and policemen testified that there was a constant movement of patrons of the dance toward the saloon last Sunday. When the police entered they found a lot of wet beer glasses on the ber and saw the proprietor be-hind it, with his coat off. When interrupted he ran away, and was over-taken after a hot chase.

Though there have been many con-

victions of violating the liquor ordi-nance, there has been no forfeiture under the clause providing for the voiding of a license upon conviction of three violations, or two in the case of the Sunday closing clause. This is due to the recently discovered fact that the offenses do not attach to the license after it has been transferred, and of-fenders who have been convicted once or twice place the license in another

POLICE WORK IS PRAISED

Two Citizens Express Appreciation of Vigilance of Officers.

Frequently letters from frate citizens and "taxpayers," in which offi-cers are inveighed against for alleged unofficerlike acts, find their way to the office of Chief Slover, but very seldom does a citizen take the trouble to express his appreciation for the "cop" on the beat who has saved his property or otherwise served his in-erests. In the light of this it is highly graffying to the men of the second night relief yesterday to re-ceive two expressions of appreciation for the work they are doing with re-gard to clecking reckless automobile driving and automobile thefts.
