That there will be a 15 per cent prune crop in the Eosedale district this year and that the prospects for prunes never looked better, was the assertion made today by A. L. There are over 6000 acres of prunes in the district in bearing and as many more acres set bearing and as many more acres set into trees not quite in bearing. While many of the prunes are dropping—the trees are so heartly laden — this is taken as favorable by the growers.

There is direct conflict between the State primary law and the rule of the Republican National committee regard-ing the selection of delegates. The state law, enacted at a special session of the Legislature last December, provides for the nomination of delegates from Congressional districts and their congressional districts and their elec-tion by the state at large, while the rule of the National committee is that delegates must be selected by Con-gressional districts.

There was nothing on the ballot to indicate from which Congressional district the 26 delegates were elected, all being delegates-at-large.

So far the returns show that Taft earried only one county, Calaveras, La Follette carried San Joaquin County, Roosevejt headquarters were ubillant.

The vote throughout the state was much lighter than the heated campaign, especially of the Republicans, led the political managers to expect. In San Francisco, in spite of perfect weather, only \$8,000 votes were cast out of a registration of 108,000.

One of the surprises in the count was the fact that from 10,000 to 20,000 ballots aboved no recess in the Proceedings.

the fact that from 10,000 to 20,000 bal-lots showed no cross in the Presiden-tial space at the top of the ballot, the voters evidently having been satisfied to vote for the delegates pledged to the man of their choice.

The Real Secret of Rejuvenating the Face

(From The Clubwoman.)

She holds the true secret of facial rejuvenation who has learned how to re-move the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored possess. The aged, faded or discolored surface skin may be gradually ab-sorbed, in an entirely safe and rational sorbed in an entirely safe and rational manner, by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any drugatore, (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water, it's the best thing known for freckles, blackheais, pimples, moth patches, it's tree deeper wrinkles an excellent recipe is: Powdered saxolite, i ordinalized in he pit, witch hazel. The Oxypathor has overcome these conditions and I can new work in the garden setting out plants, etc., and the stooping does not bother me any more at all. There is no dizziness nor rushing of blood to the head as there used to be.

The pain in the small of my back used to be very bad, causing me much suffering and distress. This, I believe, and distress. This, I believe, was kidney trouble: but whatever it was, the Oxypathor has cured it. There is no more pain in my back—I's all gone, and I feel fine. I have nothing but praise for the Oxypathor. I commenced to use one of your Oxypathors March 28th, 1912, and can say that it has done more good than any-thing I ever used in the same length of time.

My trouble is from a scald of hot water and steam on the lower part of my left leg. and has been a running sore for nine years. The Oxypathor has given me more relief in the four weeks I have used it than anything I have ever tried.
