## A "White Mountain" Will Mean Perfect Refrigeration This Summer!

TO the manufacturers of White Mountain Refrigerators, probably above all others, is due the credit for the wonderful advancement made in refrigeration the past half century. Inventive and constructive ingenuity has established the standard known as "White Mountain" quality.

Insulation is one of the vital elements of economic refrigeration. The production of cold dry air by the unrivaled "White Mountain" ice compartment would be a waste of energy without absolutely air-tight walls to keep this cold, pure, refrigerating air within the chambers. The strong currents of this purified and chilled dry air sweep constantly into every nook and corner of the provision storage.

**"White Mountain" Refrigerators Are Sold Here Only, in Portland**

White Mountain Ice Boxes and White Lined Refrigerators—A beautiful white enamel, mirror-like surface is obtained by the White Mountain Baking process—lining is baked and rebaked by tremendous heat.
