BURBANK LORE TO BE GIVEN WORLD

SOCIETY IS ORGANIZED TO FORESTALL "CORNER."

Aim of Founders Is to Place Wizard's Great Knowledge Within Every Farmer's Reach.

SAN FRANCISCO, May 22.—(Special.)—To prevent the "commercializing" of the life work of Luther Burbank, the famous horticulturist, a Luther Burbank society has been organized and chartered by the State of California, with the definite purpose of seeing that the work of the great scientist is given to posterity without entail.

The society has no capital stock and no power to incur debts or to earn profits. Its purpose is solely to assist Luther Burbank in the dissemination of his teachings, so that the greatest number may profit in the greatest degree. It has an extensive membership, with names of Nation-wide fame on the roll.

Burbank is the honorary president and the name of Mrs. Phoebe Hearst immediately follows. The list, so far as it is prepared, concludes with Dr. Nicholas Murray Butler, of Columbia University. The membership is limited to 500 and by means of the moderate membership fee the society will make possible the production of books of a quality which will do honor to their author and the matter which they contain.

The aim is to place the wizard's knowledge in convenient book form at nominal cost before every farmer, gardener or horticulturist in the world. The home of the organization is situated at Burbank's grounds at Santa Rosa and its activities will have his personal guidance and co-operation.

CHIEF BARS FAMILY WOES

Tacoma Patrolman Suspended 30 Days for Troubling Department.

TACOMA, Wash., May 22.—(Special.)—Unique in police annals was the suspension of Patrolman D. P. Richards today for 30 days without pay.

Patrolman Richards Friday appeared before the detective department and said a man had been forcing attentions on Mrs. Richards. He said a note had been sent by the man to Mrs. Richards. Detectives McKay and Thompson told Mrs. Richards to agree to meet the man. Instead of Mrs. Richards the man was met by the detectives. He gave the chief his name and said he had had a wife and family living in the city. In Police Court he was fined \$120 and costs, but later turned loose by the department pending good behavior.

Chief Loomis was exasperated at the idea of Richards bringing the police department into his family troubles when he himself was an officer and in a position to force Manning to cease his attentions, hence the suspension. The chief believes it all could have been settled quietly.

COFFEE SUIT EXPEDITED

Federal Prosecutor Takes Measures to Prevent Delay.

NEW YORK, May 22.—There is to be no delay in the prosecution of the Government suit against Herman Sienken and other members of the Brazilian coffee "valorization combine." To prevent any dilatory tactics that may be resorted to, District Attorney Wise filed today what is known as an expediting certificate.

This action will have the effect of removing the monetary action from the Federal District Court and placing it within the jurisdiction of the four Circuit Courts.

ROBBERS TAKE SAFE ALONG

Iiwaco Saloonkeeper Loses Strong Box as Well as Contents.

ASTORIA, Or., May 22.—(Special.)—A peculiar robbery took place at Iiwaco last night, when thieves broke into Ed North's saloon. They took the safe, which was a small one, carried it some distance up the railroad track, where it was broken open and rifled of its \$142 in money and two watches. The robbers escaped. Two strangers who were seen there yesterday are suspected of having committed the crime.

M'COURT IS REAPPOINTED

Taft Also Agrees to Renominate Bramwell for Land Office.

OREGONIAN NEWS BUREAU, Wash., May 22.—President Taft, in compliance with the recommendation of National Committeeman Williams and Representative Hawley, today agreed to reappoint John McCourt as United States District Attorney for Oregon and to reappoint Frank C. Bramwell as registrar of the La Grande land office.

The terms of both officials expired some time ago. It is expected that the nominations of both McCourt and Bramwell will be sent to the Senate tomorrow.

COLFAX CROPS LOOK FINE

Heavy Rains Assure Record Yields in Fruit and Grains.

COLFAX, Wash., May 22.—(Special.)—An inch and one-tenth of rain has fallen at Colfax in the past two days. Farmers from all parts of Whitman County report that crops never looked better and ground was never in better condition at this time of year. Frank Lee, a large orchardist, of Pennawawa, on Snake River, states that the fruit prospects are the best along the Snake River in history.

Fruit throughout the county is reported in the best of condition.

FEDERALS STRIKE; BIG BATTLE OPENS

Rebels Under Terrific Artillery Fire.

FORGES CLASH AT RELLANO

Insurrectos Number 4000, Government Army 3500.

OROZCO TAKES COMMAND

Shells Burst Over Heads of Rebel Cavalry Executing Flank Move, but Casualties in Mexican Conflict Are Small.

AT THE REBEL FRONT, Rellano, Mex., May 22, 9 P. M.—The main columns of the rebels fortified here were attacked last today by the federal army under General Rabago. The fighting is still in progress.

In 13 troop trains the federalists moved up to within one mile and a half of Rellano and began a terrific shelling. The first few shells exploded within a few feet of the rebel troops, but killed only a few horses. One woman was killed in the town.

General Orozco is in charge.

General Orozco came down from Jimenez to take personal charge of the fight just before the federalists attacked. General Salazar was in command of the first rebel line. The federal commands of Generals Trucey, Rabago and Tellez and Colonels Villa and Urbina are engaged.

The federal forces are estimated at 3500 and the rebels at 4000, with the advantage in fortified positions being in favor of the insurrectos.

Rebel Cavalry Turn Flank.

While the federal artillery poured shell after shell into the rebel positions, the rebel cavalry moved to one side in a flank movement, at the same time running a heavy fire into the federal columns.

Casualties up to 8 o'clock tonight were remarkably few. There is every prospect that the battle which has so long been awaited will not be decided until tomorrow.

There was no change in positions at nightfall. The infantry fire after dark was desultory, but that of the federal artillery was almost continuous.

POLE ORDINANCE FAULTY

Hood River Measure Fails to Make Specific Provisions.

HOOD RIVER, Or., May 22.—(Special.)—Because of a failure of the recently enacted ordinance here to make provisions as to which company should make the change of its lines from one side of the street to the other, the Hood River Gas and Electric Company and the Hood River Gas & Electric Company are in a quandary.

In a communication to the Council last night, Albert S. Hall, manager of the Hood River Gas & Electric Company, stated that his company had been assembling materials and making surveys to comply with the ordinance, but declared that it was impossible to follow the line. The ordinance requires that the lines of the telephone companies and the electric companies be on opposite sides of the street. They now occupy the same side of the streets in numerous places. Because of the fact that the ordinance does not say which of the companies shall move its lines, neither company feels like making the move first.

The Gas & Electric Company submitted to the Council a blue print of the changes it will make to its distributing lines to conform with the city laws.

WOMEN FIGHT WITH MACHETES

West Coast Described as in Terror of Guerrilla Warfare.

LOS ANGELES, Cal., May 22.—A letter received today by Dr. George A. Scroggs, of this city, from an American newspaperman in Mazatlan, describes the entire population of the west coast of Mexico as in a state of terror and in the midst of bloody guerrilla warfare.

At Esquinapa, the writer says, the (Continued on Page 7)

SPECIAL ACT HELD A VALID MEASURE

BILL PROTECTING UNION TREASURER HOLDS.

John Frawley, County Officer, Had \$21,000 of Public Money on Deposit When Bank Falls.

SALEM, Or., May 22.—(Special.)—That an act passed by the Legislature in 1911, authorizing and directing the County Court of Union County to cancel any claim against the Treasurer or his bondsmen on account of liability, is constitutional, is the opinion of the Supreme Court in a decision handed down yesterday in the case of George Miller, appellant, vs. J. C. Henry, County Judge, J. M. Felter and G. A. Galloway, County Commissioners, Ed Wright, County Clerk, and John Frawley, County Treasurer, and John Frawley, respondents. This was an appeal from Union County and the findings of the lower court were affirmed by Justice McBride.

In 1908 John Frawley, Treasurer of the county, had on deposit in the Farmers & Traders National Bank of La Grande the sum of \$21,463.31 of county funds. The bank failed and a receiver was appointed by the Controller of the Currency to wind up its affairs. In the end depositors, including Frawley, received 85 per cent of their claims, leaving \$3618.86 of the county deposit unpaid and for which Frawley and his bondsmen were liable to the county. The Legislature then passed the act referred to, which would cancel any claim against the Treasurer or his bondsmen, and to refund any amount paid by him to the county. The receiver of the bank, however, sued Frawley and the depositors, claiming that the receiver of the bank, and not the county, was liable for the failure of the bank. The receiver brought by a taxpayer to enjoin the cancellation of the claim on the ground that the statute is unconstitutional. A demurrer to the suit was sustained and an order entered dismissing the suit, from which order the plaintiff took an appeal. The decision is a second act involving the same point, and an order entered dismissing the suit, from which order the plaintiff took an appeal. The decision is a second act involving the same point, and an order entered dismissing the suit, from which order the plaintiff took an appeal. The decision is a second act involving the same point, and an order entered dismissing the suit, from which order the plaintiff took an appeal.

MAGIC OF CHEESE COUNTY REVEALED

Portland Business Men Tour Tillamook.

BY ADDISON BENNETT.

BAY CITY, Or., May 22.—(Special.)—Under blue skies and a benign sun we have spent the day in Tillamook County. And the word Tillamook has been exemplified to us, for its means the gathering of the waters, the Indian name first applied to the bay, later to the county and town of Tillamook. For we have seen where the Wilson, the Traak, the Tillamook, the Miami and the Kitches flow from the Coast Range into the bay.

After a part of a night's rest, for we were kept up at the banquet until a late hour last night, our party was divided this morning about half going around the valley in automobiles and the other half taking launches for trips around the bay. Our automobile trip took us to the east, up the Wilson and Traak to several cheese factories, among them being the Maple Leaf, the Fairview, the Tillamook and the South Prairie. We saw the methods of cheese making, the system of weighing and receiving milk, and all such demonstrations as could be given to visitors.

Cheese Industry Revealed.

It is well known that the cheese industry is at present the foremost of this county and that the Tillamook cheese is as fine of the kind as any made in the world, commanding the highest price wherever marketed. And the marketing is done in the most scientific and systematic manner, all of the factories being banded together after the manner of a trust or syndicate. One selling agent markets the entire product of the 42 cheese factories of the county.

The output in the county now is about 3,600,000 pounds annually, bringing in some thing over \$600,000, and the producers realize about \$2.05 a hundred pounds for their milk. But the factories belong to the farmers who send in the milk, so whatever profit is made is also returned to them.

We had a most enjoyable trip. At noon we returned to the Commercial Club rooms, where we had what was called a lunch, but it was in reality another banquet, for a splendid repast was followed by speakeasting and music and song. One of the best, if not the best speech of the whole (Continued on Page 7)

FACTORIES ARE INSPECTED

Industry Which Returns \$550,000 Annually Grows Apace.

EARLY BUYER GETS WHOLE WOOL CROP

SCHEDULE SALE AT LAKEVIEW IS FORESTALLED.

Fleece Taken on Sheep's Backs at Average of 14 1-2 Cents—Fort Bidwell Repeats Experience.

LAKEVIEW, Or., May 22.—Because Frank E. Rickey came to town and bought up more than a million pounds of the season's wool crop, continuing to buy until there was not enough of the season's wool on hand to make a suit of clothes, there will be no wool sale here in July, as had been announced.

Rickey bought the wool on the sheep's backs, as shearing has not yet taken place here. He is conversant with local conditions through long experience, and took advantage of the fact to beat his competitors to the wool. He paid an average of 14 1/2 cents, some lots being taken at 15 cents.

FOR BIDWELL, Cal., May 22.—Frank Rickey, of Reno, has bought a large quantity of the wool of Surprise Valley in the past few days, coming in ahead of other buyers and contracting for the output before shearing time, which will not be until about June 1. He paid 14 1/2 cents a pound, or about one and one-half cents better than the growers received last year, and he secured most of the output. A million pounds of wool will be produced in this valley this season.

POOR FOOD STRIKE CAUSE

Washington State College Students Refuse to Eat at Dormitory.

WASHINGTON STATE COLLEGE, Pullman, May 22.—(Special.)—By a unanimous vote of the 100 students living in Ferry Hall, Washington State College, the boys' dormitory, it was decided at a meeting Monday night that they would refuse to eat longer at the dormitory dining hall. Following up the resolutions, many of the students sought other boarding places and the rest will find them this week.

The cause of the resolution, say the students, is the poor quality of the food which they have been compelled to eat and the high price which they have had to pay. Under the present management of the dining hall, by a hired stewardess, the boys complain that they have had scarcely a decent meal during the year.

The action was the outgrowth of the formation of the Sphinx Club by the dormitory students some time ago. The club took the matter of the dining hall into their own hands and have decided that they will take over the dining hall management in the future and run it through a students' committee.

BALDWIN HEIRS GET MONEY

\$700,000 of \$20,000,000 Estate Is First Paid Since Turfman's Death.

LOS ANGELES, May 22.—Judge Rives today ordered the distribution of \$700,000 of the \$20,000,000 estate of E. J. Baldwin to the two residuary heirs named in the Baldwin will, Clara Baldwin Stocker and Anita Baldwin McClaughery. Each will receive \$350,000. This is the first distribution to these heirs since the death of the turfman, although all other bequests have been paid. According to a statement made to the court by Bradner W. Lee, attorney for H. A. Urush, executor of the will, only one claim against the estate remains to be settled and that is only \$250.

The money distributed today represents the proceeds from sales of real estate and mortgages, but is only a portion of the funds now held by the executor.

The estate will soon be closed.

BRIDE ISSUES OWN LICENSE

Female Deputy Clerk Writes Document Permitting Her to Wed.

HILLSBORO, Or., May 22.—(Special.)—Miss Florence Maud Hamel, for several years Deputy County Clerk, last Saturday wrote a marriage license for herself and, with her fiancé, went to Portland, where the two were united in marriage by Rev. Delmar H. Trimble, of the Centenary Methodist Episcopal Church of Portland. The bridegroom is Paul V. Gunther, well known in the Northwest as a contractor in structural steel.

Miss Hamel kept the license off the record until after the wedding, which took place Sunday.

The bride is the daughter of Fred Hamel and wife, of West Union, this county. Mr. and Mrs. Gunther leave Monday for a trip to Honolulu.

CLAIM AGENTS IN SESSION

LOS ANGELES, Cal., May 22.—(Special.)—The Pacific Claim Agents' Association assembled in convention at the Hotel Alexander today. President Boynton, of Portland, opened the meeting and papers were read by Thomas G. Newman, E. H. O'Dell, George Carson, J. H. Hamilton and A. J. Fulkner. The principal subject of discussion was on the formation of an index bureau for the recording of names and addresses of claimants. The Pacific Coast delegates were guests of the Los Angeles Railway Company at luncheon at the Los Angeles Athletic Club.

The session was almost entirely taken up by business of the association. Consideration of the Federal accident compensation act was taken up, and resolutions were adopted on the death of President Hays, of the Grand Trunk, and Vice-President Thayer, of the Pennsylvania road, both victims of the Titanic disaster.

EPISCOPAL BISHOPS SCORED BY RECTOR

Clergyman Objects to Pay of Prelates.

CASTIC CRITICISM was heaped upon the bishops of the Protestant Episcopal Church by Rev. J. N. Barry, of Baker, at yesterday afternoon's session of the United Clericus in St. Mark's Parish House. Mr. Barry, who is an Episcopalian minister, complained that the bishops are answerable to nobody that they observe the church laws or not as they see fit, and that it costs two-thirds as much to maintain the six missionary bishops on the Pacific Coast as it does to maintain all other missionaries combined, including the ordinary clergy and deacons.

He told of one clergyman being compelled by hunger to observe the church laws or not as they see fit, and that it costs two-thirds as much to maintain the six missionary bishops on the Pacific Coast as it does to maintain all other missionaries combined, including the ordinary clergy and deacons.
