# SUMMER SEASON ON

First Crate of Cantaloupes Arrives From California.

CROP WILL BE LARGE ONE

Watermelon Yield of the Southern State Will Also Be Heavy. Brisk Local Demand for Strawberries.

The Summer fruit season is now here in earnest. The first Isin crate of California cantaloupes arrived yesterday morning. They came from Reber, in the Imperial Val-

ley, and were of excellent quality. T. Pear-son, who received the initial crats, and who recently visited that section, said: "The Imperial Valley crop has a fine stand and the output of cantaloupes will be large. Carlot shipments will start from that section in 10 days. The crop is in arrang hands this year and the bulk of it will be distributed by Alex Strachan, of Los

around Turlock and a good acreage at Din-uba and Munson, which will come in ahead of the Turlock section. Three local firms will handle the Imperial Valley crop for this

tle into this season. The first important shipments to come on the market will be from Presne County. Carlot shipments will start about July 1. There is a big acrease around Dinuba, which is closely controlled by the Dinuba Association."

The strawberry supply yesterday was not equal to the demand and the market roled

firm at \$1.50@2 a crais.

Cherry receipts were large and many of the shipments arrived in bad order. Bulk cherries sold at \$67% cents a pound and baxes at 50 cents to \$1.23, according to

calved and offered at 35@4 cents. Call-fornia red onions were lower at \$1.50 a sack. Tellow and crystal was onions held firm.

### VARN SPINNERS BUYERS OF MORAIR Bidding Reenly for New Clip Arriving in the East.

elip 'mehair, according to the New York Journal of Commerce of May 15, which

Journal of Commerce of May 25, which says:

Varn apinners showed a keen interest in mainly during the week. On this market there has been comparatively better huying of mobair recently because of the small smount of did stock on hand. With the servival of new elip mohair from Texas, the inquiry revived in a remarkable way. This was due to the faut that there is a good demand for yards in which mohair is used and that spinners have comparatively little mohair to complete their orders.

It was estimated that between 160,000 and 150,000 nounds of new clip Texas mixials was lying on the docks in this city yesterday. Samples of the fibre wers sent on request in various directions and it was expected that the best part of the available simply would be placed under contract before another week had slapsed.

Recent advices from the Southwest stated that the heavy buying reported a couple of weeks ago was done by dealers. At first it was believed that mills had bought direct. It will be resulted that the price paid for spring mohair in Texas was 30c a pound for combing. Had the mills been the hayers the market price would have been fluid at 31 gazle a pound, but as the buyers were dealers the quotations prevailing are from 320 upward to a fraction above 35c.

### AMERICAN APPLES IN GREAT BRITAIN Best Price Was Obtained for Fruit From

Reviewing the fruit trade of Great Brit-L. Griffith of London, writes:

"The great bulk of the imports of Amerof apples the receipts of which amounted to shout 1,250,000 barrels (three boxes of California or Oregon apples being regarded said, to the hot weather of the Summer and early Autumn ripening the fruit a month or six works earlier than naust. Prices of \$3.40 to \$4.56 per barrel. The Newtown pippine from Virginia, which were excep-tionally fine, realized \$4.56 to \$3.75 per bar-The California Newtowns commanded great, varied in price from \$3.40 to \$4.13 per American apples are popular in the United Kingdom, although they have for-midable rivals in the Canadian and Tas-manian products."

### INQUIRIES FOR WHEAT ARE FEW ements to California in the Past Month Unusually Large.

The wheat market was quiet yesterday with but few inquiries and no pressure to sell. Prices were quoted unchanged. The only demand at present is from California. In the past month shipments of wheat could were 608,154 hushels from Portland and 194,253 bushels from Puget Sound. The total, 802,437 hushels, compares with 485,-964 bushels shipped from all parts to Call-forsia in the corresponding month last year.

the demand and as a consequence prices are without fluctuation.

There was a good supply of positry on the street yeserday, meet of which cleaned up at the old quotations. Receipts of dressed meets were small and the tone of the mar-

### HOP-CONTRACTING IN VAKIMA SECTION McNeff Secures 80,000 Pounds on Three-

Year Terms. Hop contracting on an active scale is re-ported from the Yakima section. McNeff Bros. have closed on 80,000 pounds for three years from the White Swan Land Company, which takes in all the hope grown in the White Swan district. They also made three-year contracts with Don McAlpin for 40,000 pounds and with E. C. Campbell for 20,000 pounds. Four hundred bales of onsyear Vakima contracts have been secured by Chicago dealers. A lot of 180 bales of Vakima 1911a has been bought by McNeff

cent hasis.

It was reported yesterday that the remainder of the Al Jerman lots at Silverton had been sold to George Dorcas, 66 bales of 1911 fuggles going at 23 cents and 95 bales of old fuggles at 27 cents.

IONE CROP CONDITIONS ARE PINE

tirowers Look for Record Yield of Wheat
This Year.

IONE, Or., May 30.—(Special.)—Ione's
most consorvative farmers are very optimistic over the present crop prospects and
every one of them is predicting the largest
crop ever harvested in Morrow County.
Owing to the September rains, seeding was
begin early and finished in good season and
the weeds were almost entirely destroyed.
The stand is the best and with perfect growing weather throughout the entire season,
grain made great growth. Much of the
early grain is in full head, while many
fields are shedding the bloom.

There has been 11; inches of rain since Saturday evening, with an all-night rain on the
28th.

The acreage is very large and with a few weeks of favorable weather Ione will make a record enipment of wheat this year.

Some of the large farmers and their acreage of Pail wheat are. Ben Buschke. 2100; Mat Halversen, 2000; Jako Bortzer, 1200; F. H. Wilson, 1100; L. McMurray, 1500; F. E. Mason, 150; Paul Reitman, 1100; H. V. Smouss, 1000; J. A. Williams, 500; Ulark Brox. 500; F. E. Everson, 500.

Good Quotations for April Delivery to Cheese Factories.

Till.AMOOK. Or., May 11.—(Special.)—The following prices will be paid next week for April butter fat at several of the factories for which Carl Haberlach acts as secretary:

South Prairie
Maple Leaf
Cold Springs
Three Rivers
Clover Leaf
Tillamook Creamery
East Heaver
Mohler factory
Central Co-operative
Fairview Dairy Association
Frices of milk range from \$1.50 to \$1.70 per 109 pounds, depending upon the yield and price charged for making. There is an unusually heavy flow of milk this year, owing to the enormous amount of green feed, causing some of the oheese factories to run to their full capacity.

Grain Ready for Headers July 1. HEPPNER, Or., May 31.—(Special.)— With a rainfall of three luches this morn-ing and a total of 14% inches since Sep-tember 1, nothing but an unusual hot wind could keep Morrow County from harvesting could keep Morrow County from narvesting the largest crop in the history of the county. There is the largest acreage of Fall grain ever sown before and fully twice the usual amount of Spring grain, all of which is in first-class condition, and much of the Fall grain will be ready for the headers by July I.

Wool Buyers Meet High Views of Growers.

**EXPECT TO SELL AT PROFIT** 

Excitement Continues in the West ern Sections-Fair Volume of Trade in the Old Clip on the Boston Market.

BOSTON, May 11 .- The Commercial Bul

Notwithstanding the intervention of the heliday, there has been a fair volume of business transacted in the Boston wool market this week. Transactions have included almost all grades, the greater demand having been for medium to coarse wools. There is a strong demand for new Utah and Arisona wools at \$12.55 cents clean basis.

In the West considerable excitement has been in evidence and prices have shown a tendency higher both in the Par West and the fleeces sections. Some dealers are not ready to pay the prices which are being demanded by the growers, but others apparantly have been willing to take the risks involved in the hopes of quick sales after the wool arrives on market.

ST. LOUIS, May 31.—Wool—Steady. Ter-ritory and Western mediums, 164 15c; fine mediums, 156 17c; fine, 104 18c.

SHORTS TAKE ADVANTAGE OF NEW YORK CENTRAL REPORT.

Shows Decrease in Net Earnings for April-Bond Prices Also Decline.

the operations on the stock exchange loday. Among the first leaves to manifest pronounced weakness were those which comprise the Rock Island group, even the collateral bonds going lower on rumors that the next interest payment might go by default. Pressure was greatest against the hard coal shares, which have a more or less intimate market relation to Rock Ist-land. Reading lost 5% points on the day

land. Reading lost 5% points on the day and Lebigh Valley 4%.

The market opened with some display of strength, Canadian Pacific almost immediately recovering its quarterly 2% per cent dividend, while other high-priced issues were up a point. The rise was soon effaced, but by noon recoveries were general. The improvement was most notable in United States Steel, Amaigamated Copper, to the accompaniment of another rise in copper metal, American Simelting and Union Pacific. In the afterhoon the market relayed into its habitual duliness until the final hour, when the unfavorable statement of New York Central's net operating revenue for another selling movement which sent prices down precipitately.

New York Central's net operating revenue for April decreased by \$505,000, Lackarwanna's decrease was \$50,000 and that of Lebigh Valley almost \$1,200,000.

London was a buyer here to the extent of about 15,000 shares.

The end of the month brought some hardening of rates for call money, much of which loaned at 3-per cent, but with no change in time accommodations.

According to an authority, bank exchanges for the week are about 2% percent under the same week last year.

The bond market topened with some sharp declines were registered. Total sales, par value, \$1.000,000. United States Government bonds were unchanged on call.

Under the provisions of the will of William H. Harris, which was filed in the County Court yesterday for probate, Lloyd Francis Harris, 11 years of age, a resident of Los Angeles, is made heir to property and other belongings of the deceased worth \$150,000.

The deceased was a pioneer ice man-ufacturer of Portland and died May 22, leaving a large amount of property in this city and other parts of Oregon and California.
In the will, which was executed No-

In the will, which was executed November 14, 1910. William E. Harris, an old employe, is given \$1000 in cash and all the wearing apparel of the deceased. He is intrusted with an assortment of lodge emblems, trinkets and jewelry to keep for Lloyd Francis Harris until he becomes 21 years of age. The remainder of the property is bequeathed to the son. William C. Holman and Lawrence A. McNary are named executors of the estate in the will and are given power to appoint a trustee to take care of the property of the son until he reaches 21.

ASTORIA, Or., May 31.—(Special.)—
Matt Alanen, a bucker, employed in the Olson logging camp on Deep River, Wash. was instantly killed while at work there this afternoon. He had just cut a log on a steep sidehill, when the log slid down on top of him, crushing him almost to a pulp. The deceased was a native of Fisland, to years of age, and left a widow and five young children.

Liberal Arrivals of Early Grain Counted Upon.

LEADS TO CHICAGO SELLING

Crop Advices From the Growing Districts Are More Pavorable-Good Prospects in the Northwest. Deliveries Are Small.

CHICAGO. May 31.—Much selling today by traders, who counted on liberal arrival of new wheat in July, made the market chiefly responsive to advices that favored the bear side. The close was weak.

First reports today from the Texas harvest fields told of excellent conditions and turned the market downward. Later news of less favorable prospects in the state appeared to have far less effect. Persistent rumers of rain aprinkins in Kanasa and Nebraska, though almost invariably denied, counted for decidedly more than drouth damage advices that would admarly have been deemed semastional. An auspicious outlook for the growing wheat in the Northwest, Montana included, tended further to deal the hopes of traders also had been working to raise prices. Deliveries this afternoon were small, 100,000 husbels.

Marketing of nors that reached Chicago too late to apply on May contracts had a depressing effect on futures.

May liquidation carried down cats.

A moderate amount of selling pressure on pork arted as a drag on provisions.

The leading futures ranged as fellows:
