

# MORE TO SEE ON ROSE FESTIVAL

### Visitors to Gala Event Will Dash by Auto and Train to City Next Week.

### REX LANDS MONDAY, 12 M.

### Great Plans for Receiving His Floral Majesty Are Moulded—Bombardment of Flowers Included—London Experts Comes.

Residents of Vancouver, B. C., led by L. H. Rose, Mayor, and H. S. Ralston, manager of the Midwinter Carnival, will come to the Rose Festival next week in automobiles. They will leave home late this week, arriving here for the opening festivities on Monday and will participate in the automobile parade on Tuesday.

The activity of the Vancouver party, however, does not exceed in enthusiasm and manifestation of good will that already manifested by the people of Pasadena, Cal., who have sent Mrs. R. C. Bartow to Portland to enter a float in the horse and vehicle parade on Thursday.

This section is in recognition of the courtesy extended to the management of the Rose Festival last winter in entering a handsome prize-winning float in the principal parade of the Pasadena Carnival of Roses.

Mrs. Bartow arrived in Portland yesterday and is personally superintending the construction of the Pasadena float. She is eager to have the assistance of former residents of the city and will communicate with them if they will address her in care of the Rose Festival headquarters in the Sweetland building.

### California Crowd Comes.

A large delegation of California residents will be here, John M. Scott, general passenger agent for the Southern Pacific, returned yesterday from San Francisco and reports that travel to the festival from that city to Portland next week will be unusually heavy.

A meeting of the executive committee of the Pacific Coast Carnival Association, of which George I. Hutchin, manager of the Rose Festival, is organizer and chairman, will be held at 10 A. M. Wednesday, June 13, and a large delegation of Californians as well as representatives from other coast carnivals will attend.

Use of a team of riding school horses and tally-ho has been offered to the festival management by Kramer's Riding Academy, Directors of the Panama-Pacific Exposition, of San Francisco, will ride in this attractive turnout in the horse and vehicle parade on Thursday.

### London Rose Grower is Guest.

A distinguished visitor will be Hugh Dickson, of London, of the world's noted rose growers. Mr. Dickson, in a communication received by Manager Hutchin yesterday, declared that he has heard of Portland's roses and of the Rose Festival for several years and that he has crossed the Atlantic and the American continent for the purpose of being here. He is now in Los Angeles. Mr. Dickson will be given every courtesy of the festival and of the rose show of the Armory. Thousands of his plants have been procured by Portland people and are being in Portland gardens. He has originated probably more varieties of roses than any other man.

Commander Elliott, of the cruiser Maryland, which will act as the escort of honor to Rex Gregson on his triumphant entrance to the city at noon on Monday, yesterday wired the festival management that he is about to start with his magnificent vessel for Portland. The Maryland will anchor below the G. W. R. & N. bridge and there will follow a salute, firing a salute of 21 guns as the Steadfast, H. C. Wortman's palatial private yacht—with the king on board passes by.

### Roses Shower His Floral Majesty.

As last year, a formidable fleet of river and ocean vessels will accompany the jolly monarch on his entrance to the city. C. V. Cooper, admiral of the fleet, has arranged for three divisions, A, B, and C, which will be composed of Portland and other vessels of pleasure craft, respectively. W. I. Beyer, of the tugboat Dix, and C. B. Brown, of the Betsy B., will be captain of A and C divisions, respectively. The commander of B division will be appointed later. Each division will be assigned a separate place along the river for mobilization and will fall in line behind the royal craft. The steamer Bear will have on board a party of Portland people who will be admitted on invitation issued by the Rose Festival managers, while the Bally Gatzert will carry members of the Portland Ad Club and their friends.

As his floral majesty passes these vessels he will be bombarded with bouquets of roses. The procession will move up the river past the Stark-street dock, where the king will land, then will circle around a buoy above the Hawthorne bridge, thence back around the piers of the new Broadway bridge. Between the hours of 11:15 and 12 noon the draws on all the bridges will be open.

### Draws to Stay Open for Time.

Admiral Cooper and Manager Hutchin called on the County Court yesterday morning and received the hearty assurance that surface traffic will be suspended pending passage through the draws of the festival fleet. Again, from 8:30 to 9:15 P. M., on Thursday, when the illuminated river parade takes place, the draws will remain open regardless of the movement of vehicle, streetcar and pedestrian traffic.

Promptly at 12 o'clock Monday noon the king will step ashore and take possession of the city. His appearance will be greeted with blowing of whistles, ringing of bells and booming of cannons, to say nothing of the joyous shouts of his loyal subjects. The cruiser Bonon will be anchored on the east shore of the river, directly opposite the point of landing, and will flash forth her fiery salute from her heler-trimmed, flag-covered guns.

Late advices were received yesterday from Seattle Postlatch Association that the Postlatch will be well represented in both the automobile parade on Wednesday and the horse and vehicle parade on Thursday. Seattle probably will send 5000 people to the festival. Several special trains will carry some of them. Others will move on the regular trains.

### CHILDREN TO BE GUARDED

### Tots Will Be Cared for After Parade on Grand Avenue.

Arrangements were made yesterday by which every child who enters the children's parade on Grand avenue during the Rose Festival will be taken care of before and after the conclusion of the parade. C. A. Bigelow, L. M. Lepper and C. C. Hall, of the

### FAIR DELEGATION WILL NOT RECEDE

### Eight Oregon Suffragists Refuse to Give Up Trip to Chicago.

### ALL PLAN TO USE TICKETS

After Republican Convention Party Will Tour Principal Cities—Literature Advertising State to Be Distributed Through East.

Eight young women from this state who have obtained tickets of admission to the Republican National convention intend not only to retain the tickets, but also to make use of them. It matters not what "those men delegates" may say, the militant young suffragists declare they will not recede from their determination to attend the Chicago convention and see everything that is to be seen.

"Fully two months ago I arranged with Ralph E. Williams, National committeeman, for a ticket to the convention for each of the eight young women," said Philip S. Bates, editor of the Pacific Northwest, under whose auspices the party will make a tour of the United States this month. "Mr. Williams gave me his assurance that the tickets would be forthcoming and that each of the young women could count on witnessing a real, live Republican National convention. And that is all there is to it so far as the tickets are concerned. The young women have the tickets and they will attend the convention. I am surprised that any one of the delegates would offer any objection to

Mrs. R. C. Bartow, of Pasadena, Who Will Enter Float in Rose Festival Parade.

### TRIP NO. 2 ARRANGED

### ANOTHER EXCURSION TO TILLAMOOK JUNE 25-27.

Semi-Pleasure and Industrial Jaunt Planned for 75 Portland Men and Women by Commercial Club.

Responsive to the enthusiasm attending the recent successful excursion of Portland business men to Tillamook and surrounding country, a second excursion is planned for June 25-27 inclusive. The proposed pilgrimage will be in the nature of a beach excursion and will lack some of the industrial features that marked the first excursion. The party will be limited to 75, including women, railroad officials and newspaper men.

A special train of best available equipment will be provided, and it is estimated that the expense of the trip will be about \$20 a person. Those whose names were on the "waiting" list of the first excursion will be the first to be accommodated. Reservations should be made through the publicity department of the Portland Commercial Club. Each reservation must be accompanied by the requisite \$20.

Leaving Portland at 8 o'clock Tuesday morning, June 25, the train will proceed direct to Garibaldi Beach, arriving at 2:30 P. M. The only stop en route will be made at scenic points. After witnessing a drill by the life-saving crew at Garibaldi Beach, the excursionists will be taken to Bayocean in launches.

Early Wednesday morning, the excursionists will leave Bayocean in launches for Tillamook, spending the forenoon in an inspection of the dairy country and cheese factories surrounding that city. At noon a formal lunch will be served at the Tillamook Commercial Club. In the early afternoon the party will return to Garibaldi and be treated to a trip over the bar with some deep-sea fishing on the yacht Bayocean. Wednesday night a banquet will be served at Bayocean.

Thursday morning, at an early hour, the excursionists will leave Bayocean for Wheeler, whence they will be conveyed in launches to Nehalem. There in vehicles they will be driven to the home of Mr. and Mrs. S. G. Reed at Neakahnie Beach, where they will partake of a picnic lunch. After making the ascent of the Neakahnie Mountains in the afternoon, the excursionists at 5 P. M. will return to their train and start for Portland, arriving in the city at 10:30 o'clock Thursday night.

### BOULEVARD TO BE WORKED

### Park Board to Start Terwilliger Road Completion at Once.

Bids for the completion of the Terwilliger boulevard from its present terminus near Seymour street in South Portland to Sixth street near Hamilton avenue will be advertised for at once. At a meeting yesterday of the Park Board, Superintendent Mischo was requested to prepare plans and specifications for the work at once. It was estimated that the cost will be about \$55,000. The extension of the thoroughfare will require extensive cuts and fills and considerable rock work.

The Board yesterday pigeonholed a number of petitions of residents of various parts of the city for the purchase of playground sites. The list included number of written offers of real estate companies and others for "real bargains."

One piece of ground which a local company would sell cheap is located on the water front in South Portland. The agent mentioned all the desirable features of the plot, but forgot to mention that at present it is under several feet of water. Residents of Mt. Tabor were on hand with a petition for a playground there. This petition was rejected.

It was explained by Mayor Rushlight that there is no money available at present for the purchase of park or playground sites and probably will not be until the people vote another bond issue for such purpose.

### Vancouver Is Gretna Green.

VANCOUVER, Wash., June 3.—(Special.)—J. T. Sullivan and Beesie H. Sturgill, accompanied by George Sturgill, of Salem, today secured a marriage license. Peter William MacDuff, of Long Beach, Cal., and Hazel May Mills, of Camas, Wash., were married here today.

# FAIR DELEGATION WILL NOT RECEDE

### Eight Oregon Suffragists Refuse to Give Up Trip to Chicago.

### ALL PLAN TO USE TICKETS

### After Republican Convention Party Will Tour Principal Cities—Literature Advertising State to Be Distributed Through East.

Eight young women from this state who have obtained tickets of admission to the Republican National convention intend not only to retain the tickets, but also to make use of them. It matters not what "those men delegates" may say, the militant young suffragists declare they will not recede from their determination to attend the Chicago convention and see everything that is to be seen.

"Fully two months ago I arranged with Ralph E. Williams, National committeeman, for a ticket to the convention for each of the eight young women," said Philip S. Bates, editor of the Pacific Northwest, under whose auspices the party will make a tour of the United States this month. "Mr. Williams gave me his assurance that the tickets would be forthcoming and that each of the young women could count on witnessing a real, live Republican National convention. And that is all there is to it so far as the tickets are concerned. The young women have the tickets and they will attend the convention. I am surprised that any one of the delegates would offer any objection to

this use of eight convention tickets. It is a courtesy kindly extended by Mr. Williams and fully appreciated by the beneficiaries. Oregon women, as they are demonstrating by the active campaign conducted for woman suffrage, are taking a keen interest in political affairs. Young women are especially interested in this subject and should be entitled to attend the convention.

"The eight young women in the party will represent more than 3000 voters of Oregon. It will be impossible for any considerable number of those voters to attend the convention, even if they were supplied with tickets. Besides, the members of the party are young women of exceptional intelligence and fully qualified to attend the convention, understand and appreciate its proceedings and profit therefrom."

These Oregon young women will be treated to a trip throughout the United States that will include a few days in Chicago at the time the Republican National convention is in session.

The party will be in charge of Mr. Bates and the chaperone will be Mrs. H. A. Hartshorn, of London. The other members of the party will be Della M. Harold, of Seaside; Beetha Wilkerson, of The Dalles; Mabel Pittman, of Condon; Charlotte Jones, of La Grande; Anne Markel, of Bend; Alice Emminger, of Haines; Agnes Miller, of Burns, and Gertrude Pollon, of Dallas.

They will be guests of the Ad Club at luncheon at the Multnomah Hotel tomorrow, leaving in a special Pullman Thursday morning for the East. Their itinerary includes the following important cities: Detroit, Niagara Falls, East Aurora, New York, Washington, D. C.; Cincinnati, Indianapolis, Chicago, Madison, St. Paul and Minneapolis.

En route and in each of the cities visited they will distribute quantities of literature advertising Oregon. In this connection, Mr. Bates will give an illustrated stereoscopic lecture on "Seeing America First" in all of the large cities visited.

### MURPHY SUSPENDED TO AWAIT CHARGES

### Specific Case Against Meter Chief Is Promised to Water Board.

### SUBURBS ASK FOR MAINS

### Pipes May Be Extended to Milwaukee and Linnton—Accountants Recommend Substitutions for Convenience of Customers.

Pending the preparation and filing of definite charges of graft and mismanagement against Cornelius G. Murphy, chief of the meter division of the City Water Department, the Water Board yesterday voted unanimously to suspend Murphy from the service. The order of suspension was made when Frank W. Winn, a member of the Board, announced that as a member of a subcommittee appointed to investigate the Murphy case, he was authorized to say that the committee would have charges to warrant the suspension.

The charges will be carefully prepared under the direction of City Attorney Grant and, it is said, will meet the objection made against former charges that they were not specific. Murphy will be accused, among other things, of selling \$250 worth of junk that belonged to the city, intending to convert the money to his own use.

Appeal Brings Reinstatement. Murphy originally was discharged by the Water Board "for the good of the service." An appeal was made to the Civil Service Commission and that body

reinstated him on the ground that the statement in the charges, "for the good of the service," was not specific. The suspension of Murphy yesterday was to prevent him from returning to work in the Water Department by reason of his reinstatement by the Civil Service Commission. The grand jury last week exonerated Murphy.

The Water Board ordered Engineer Clarke, of the Water Department, to rush the work of extending mains into Fulton Park district. A large delegation of Fulton Park residents, led by Councilman Montag, was on hand to protest against any further delay in the work.

Engineer Clarke reported that the residents can expect water by the middle of July. Recommendations of a subcommittee that a concrete tank be put in the place of the wooden tanks on Mount Tabor Heights, were adopted and the Engineer instructed to prepare plans and specifications at once.

Suburbs May Get Water. A subcommittee was appointed to investigate the feasibility of furnishing city water to a number of small suburban towns about Portland including Linnton and Milwaukie. Mayor Shafter, of Linnton, was on hand and reported that his town is willing to pay for the piping and extension of mains if the city grants the use of the water at the regular rates for residents beyond the city limits.

In a report submitted to Mayor Rushlight and members of the Water Board yesterday, William Whitfield & Company, accountants checking the books of the City Water Department, recommend that several water substations be established about the city at which consumers can pay their bills. The plan is suggested to reduce the delinquency. It is also suggested that bills be sent out to all consumers each month.

Complaint is made about the practice of property owners along the water front using the water from fire pipes to sprinkle docks and fill vessels without paying the city for the water.

### POISON SQUAD MEMBER COLLAPSES UNDER TEST

### Philadelphia Student in Serious Condition for a Time, but Has Recovered.

### COMPANIONS ARE SICK

### Every Member of Band Suffers Nausea as Result of Caffeine Experiments.

Philadelphia, May 11.—Serious results have followed the feeding of caffeine, a drug lurking in chocolate as well as coffee, to the eight student members of the "poison squad" of the Hahnemann Medical College here. All have been subject to severe headaches and serious attacks of nausea, while one member of the squad was in such a serious condition after taking the caffeine-laden water for the first twenty days that he had to be placed in a special ward in the hospital. His recovery required constant attention, but he recovered and at the college is said to have rejoined the squad.

The "poison squad" at the Hahnemann college was formed very quietly. It came into existence on March 1 and is under the direct supervision of Dr. Edmund T. Nesbit, director of the Hering laboratory of the college.

Dr. Nesbit called for volunteers from among the students. He said he wanted men who were willing to do something for the benefit of humanity at large, even though it might be to their own discomfort. Twenty-five students volunteered. Of these fourteen of the most perfect physically were chosen, eleven as regular members of the squad and three as alternates.

For thirty days the members of the squad were given doses of caffeine while Dr. Nesbit and his assistants made personal observations, taking the pulse and temperature of the members of the squad and making notes on their general physical condition. It was not until within the last few days that one member of the squad weakened under the experiment to such an extent that it was necessary to send him to the hospital. Dr. Nesbit refuses to reveal the name of the student who collapsed, but declares that through proper treatment immediately he soon recovered.

The caffeine was administered in a solution and was mixed with the water the squad drank. The students do not know when they were getting the caffeine. There were no stated times for giving it in order to keep the minds of the student free from worry in order that the physical condition might not be changed materially through the action of the brain.

Before joining the "poison squad" each student had to sign a release against any action for damages against the college.

The laboratory was organized about fifteen months ago with Dr. Nesbit as director, and almost an exhaustive and exhaustive study was started to ascertain the destructive qualities of caffeine as used in food stuffs.

The students continued to live at the dormitories or at boarding houses, but they were required to take their meals at the training table located in the hospital near the diet kitchen. Before each meal the temperature was recorded, the pulse and respiration were taken and the blood pressure was tested. During the period the drug was administered only Dr. Nesbit knew the amount apportioned to each man and when and in what quantity it was administered.—New York Sun, May 11, 1912.
