HANFORD REFUSES **OLSSON REHEARING**

Federal Judge 'Stands Pat' on Case That Brought Impeachment Threat.

CITIZEN RIGHTS REVOKED

Court Says Naturalization Papers Taken Because Socialist Would Overthrow Government and Laws of United States.

TACOMA, June 19.—C. H. Hanford, United States Judge, late this afternoon denied the motion for a rehearing in the case of Leonard Olsson, the Socialist whose naturalization papers were revoked on the ground that they had been obtained by fraud.
Olsson's motion was supported by District Attorney McLaren on orders from Attorney General Wickersham. The case figured prominently in the charges presented by Representative Berger in asking Congress to begin impeachment proceedings against Judge Hanford.

Judge Hanford ruled that the facts Judge Hanford ruled that the facts stated in the petition were not sufficient for a reopening of the case. He set forth that the Supreme Court of the United States had, in what he styled the Johanson case, held that it was the power and duty of the courts to revoke citizenship papers where fraud was practiced upon the court at the time of the issuance of the papers. He declared that the evidence in the Olsson hearing had shown that such fraud had hearing had shown that such fraud had been practiced

Court Explains Stand.

"According to Mr. Olsson's statement to the court," said Judge Hanford, "he was not content to do away with everybody's property, but he looked to an object beyond and that was the complete and entire setting aside of the Government of the United States as it now exists under the Constitution of the United States.

"Could a man without deceiving the court swear to the court that he was attached to the Constitution of the United States and bring witnesses there to prove it, when in fact he intended to use his ballot when he got the right to use it to establish a monarchy in this country?

"In principle the idea is not different, whether he proposes to establish a mon-

whether he proposes to establish a mon-archy or to overthrow the courts of law and executive power of the Gov-ernment, and have it all managed by a mass of people according to individual ideas, or antagonistic ideas of every-

ody.

"It is fraud perpetrated upon the Superior Court to represent, as Mr. Olsson admitted he had represented, that he was attached to the principles of the Constitution of the United States, when for a time previous to that his propaganda was to create tumult and to end in chaos."

Burns, appointed Chief of Police by Mayor Dimick, against the city. The City Council, by a vote of eight to one, refused to approve the appointment of Burns and has made a fight for the retention of E. L. Shaw. Burns acted as chief for four months and Shaw is still acting, but neither has received any salary.

Friends of Shaw say the decision is a victory for him, while friends of Burns declare that nothing is settled except that he cannot obtain his salary until he proves through some other legal action than the suit for salary that he is the chief.

Judge Eakin dismissed the counter claim of the city against Burns for

District Attorney McLaren made no argument, merely stating that by order of Attorney-General Wickersham he supported the motion for dismissal of the case. Attorney Nichols, in arguing the motion in behalf of Olsson, severely criticised the court.

ors ever receiving diplomas from the university.

The address of the day was delivered by Dr. W. T. Foster, of Reed College, Portland, on the subject "A Liberal Education." It was a masterful address, President Foster pleaded for higher education combined with morality which would produce men for intelligent leadership, so lacking at the present time.

"The dominant trend is toward prac-

ent time.

"The dominant trend is toward practical education," he said. "It is true that the majority of the men must be engaged in routine work, but the world today lacks intelligent and enlightened moral leadership. This is our most crying need—trustful leadership. There is no such a thing as a short cut to a liberal education. A liberal education is based upon a broad foundation, and nothing else. It is vision we need. Leadership is the result of a highly specialized education and cannot be done on a wholesale basis."

State Schools Are Hit. Foster believes that it is the small

Dr. Foster believes that it is the small private institutions that are fully qualified for this intensive education. He said that the schools that are contributing to the highest types of education are the private schools. He also said that all education is of no avail unless it has a moral stimulus. On this point he attacked the state schools by saying: "When it comes to religion, without which no nation ever endured, the state schools let it go by default."

Busy Season in Idaho Timber.

LEWISTON. Idaho, June 19.—(Special.)—The most vigorous campaign against forest fires ever made in this state will be conducted this year, according to Charles Fisher, supervisor of the Clearwater National forest reserve. Owing to the great loss of life and property in past years, the State Land Board has been prompted to early action for preventing fires in the mountains this year.

Approximately \$100,000 will be expended by the state and the large timber interests in patrolling the timber belts. About 300 men will be used in the forests and on telephone lines now being constructed to insure close communication when fires break out. Trails and roads have been made into the heart of the timber districts and firefighting apparatus can be taken into the field more easily.

State and Individual Owners Plan be expected to develop in the future under proper management. Precaution will be taken to make the information will be taken to the span turb plain truth regarding solls, crops. transportation and labor conditions, transportation and labor conditions, etc.,—uncolored by the enthusiastic local advertisers. Each county will receive not less than 50 interviews nor more than 100, in proportion to the population. For comparative purposes the interviews will be equally divided, as nearly as possible, between the operators of large and small ranches. All interviews will be made on the farms and whenever possible the Information will be taken from actual records.

> Summer Aids to Beauty (Esther in Household Helps.)

"Face powder helps that 'shiny' look only a few minutes, and then, when rubbed off, a woman's appearance is worse than ever. A true complexion beautifier is made by dissolving an original package of mayatone in a half pint witch hazel. Gently rub this lotion over face, neck and arms every morning. It 'holds' all day long, and your complexion soon is clear, smooth, actiny and free from blemish.

"Short-sleeved waists sometimes prove embarrassing to a woman never troubled with superfluous hair on her face. Delations will remove wild hairs. Just mix powdered delatione with enough water to cover the hairs; apply, and after two or three minutes rub off, wash the skin and the hairs will be gone.

"A great advantage of a dry shampoo is that one is not compelled to devote hours to drying the hair. The best shampoo of orris root and an original package of therox. Sprinkle a little on the head, brush through the hair, and it removes dust, oil and dandruff, leaving the scalp clean, cool and refreshed, and the hair light, fluffy and lustrous.

"To make thin, short eyelashes grow in long, thick and silky with a beautiful curl, apply plain pyroxin to the lash roots with thumb and forefinger daily, Rubbing pyroxin on atraggly eyebrows will make them long and silky."—Adv.
