SENATE VOTES FOR TWO BATTLESHIPS

Alabamian Proposes to Deny Canal to Nations With Big Armament Plans.

BILL NOW GOES TO HOUSE

Proposal to Revive Grades of Admiral and Vice-Admiral Voted Down—Eight-Hour Provision Is Adopted.

WASHINGTON, July 5.—The Naval appropriation bill, carrying \$133,609,674 and the two-battleship provision, was passed today by the Senate. It now goes to conference with the House to thresh out the Naval increase program and other Senate amendments. Senator Johnston, of Alabama, proposed a substitution provision for one battleship and gave notice he would propose, when the Panama Canal administration is considered, to deny the use of the canal to all nations, which do not agree to build only one battleship a year.

Armament Limit Proposed.

He said the United States should end the wasteful battleship competition with Europe by entering into treaties with them to cease building such vessels.

The Johnston one-battleship provision was rejected, 12 to 43. Senators Bacon, Fletcher, Johnston, Kern, Pomrenne, Smith of Arizona, Tillman and Williams (Democrats), and Bristow, Burton, Clapp and Gronna (Republicans), voted for it.

An amendment was adopted to make the recently enacted eight-hour law applicable to work on new ships, which Senators Gallinger and Heyburn contended would increase the Government expense by \$4,000,000 or \$5,000,000.

Council of Defense Defeated.

A committee amendment to provide for the creation of a National council for defense was defeated on a point of order, made by Senator Overman, of North Carolina (Democrat), who did not withdraw his point, notwithstanding a whispered suggestion that the plan was endorsed by the new Democratic platform. Senator Bacon, of Georgia (Democrat), in the chair, sustained the point of order.

SELLING HOME IS BURNED

Residence Built by Uncle of Portland Merchant Destroyed.

PENDLETON, Or., July 5.—(Special.)—At a late hour last night the residence of W. R. Graham, furniture dealer of this city, caught fire and was beyond control when the volunteer department arrived. Only through the excellent work of the firemen were adjoining buildings saved. Several times the barn on the Graham premises, which are kept some valuable horses, caught fire, but each time the flames were quenched. With the exception of some dining-room furniture

and china, the Graham residence was a total loss. The value of the dwelling was \$5000, partially covered by insurance. The destruction of the house marks the going of one of Pendleton's landmarks. The house was erected more than 25 years ago by Ben Selling, an uncle of the Portland merchant and candidate for United States Senator. The lumber used in the construction of the dwelling was pitch pine, which made a furious fire when once ignited, and was hand dressed, in accordance with the methods employed in the early days.

FIRE ENDS FOURTH EVENTS

Hillsboro Newlyweds Routed Shortly After Night Programme.

HILLSBORO, Or., July 5.—(Special.)—Hillsboro's Fourth of July celebration did not close until 1 o'clock this morning and the finale was the accidental burning of the residence of William Hays, who lived within a block of the City Park, where the celebration was held. Whether the house caught from the fireworks or from the interior cannot be ascertained. It was with difficulty that firemen helped Mr. Hays from the house, a few minutes after his bride of a few days was taken from her room. Hays was married recently at Portland, the bride coming from Louisiana.

The Independence day celebration scored a success in point of attendance. About 10,000 people thronged the city all day long. Mayor J. T. Bagley and W. N. Barrett were the speakers. Miss Ruby Galloway read the Declaration of Independence.

WOMAN MUST PAY HER FINE

Working Employees Overtime, Contrary to Law—Rehearing Denied.

OLYMPIA, Wash., July 5.—(Special.)—Henrietta Sommersville, convicted in King County Superior Court of working her female employees for more than eight hours, contrary to the eight-hour law for women, will have to pay her fine, as the Supreme Court today denied a rehearing in her case. The court held previously that the statute was not an undue extension of the police powers of the state, and that the law is, therefore, constitutional. The defendant tried to reopen the case on a petition for a rehearing, but the court today affirms its former ruling, declares the law constitutional once more and dismisses the petition. The only way now for the defendant to get a further hearing is to appeal to the United States Supreme Court.

ACCIDENT VICTIM DIES

Lloyd Chapman, Bicyclist, Succumbs to Injuries at Ashland.

ASHLAND, Or., July 5.—(Special.)—Lloyd Chapman, victim of an accident here yesterday, when a racing motorcycle collided with a bicycle, is dead, and Young Smith, who was speeding the motorcycle, is still in a serious condition. His father, ex-Senator William Tyler Smith, of the Willamette Valley, is here with his son and the latter will be removed to his home as soon as recovery will permit.

Another "Trusty" Runs Away.

SALEM, Or., July 5.—Despite the fact that he had but two months left to serve, prison life became so unbearable to Earl Blair, a trusty at the penitentiary, last night, that he took advantage of the privileges granted him and fled. He was serving 20 months for forgery, from Union County.

BLAME IS DENIED FOR FATAL SLIDE

L. R. Fields Says His Auto Did Not Crowd Ruedy Machine From Sandy Road.

HELP FURNISHED VICTIMS

Superintendent of Southern Pacific Declares He Was Not Speeding at Time of Accident—Other Car Is Held at Fault.

L. R. Fields, superintendent of the Southern Pacific Company, who was in the automobile that was alleged to have crowded the machine driven by John Ruedy down an embankment on the Sandy Road last Tuesday, denies that the car in which he rode was to blame for the accident that cost the life of Ruedy and resulted in serious injury to Mrs. David E. Steele. The Ruedy automobile, Mr. Fields says, was at fault.

In the Fields automobile were Mr. and Mrs. Fields, their son Arthur, 25 years of age, who was driving, and Frank Howell. The party had visited the home of Mrs. Dressell, an aged woman, formerly in the employ of Mrs. Fields. The account of what happened is given by Mr. Fields as follows: "We had been at Mrs. Dressell's house 15 or 20 minutes, getting eggs and chickens. We started home between 2 and 3:20 P. M., but had gone only a short distance when the accident happened.

Horn Not Blown, Says Fields.

"The automobile was coming up from behind, on the left hand side, and the first that we saw or heard of it was when it was actually alongside. If we had heard them coming or had any idea whatever of the presence of another car we would most certainly have given them the road. At the time we were right in the middle, going slowly, and there was no horn blown or any warning at all given by them.

"The road there is being improved, in the middle, and I imagine that the driver must have thought the side, which was covered with ferns, was hard ground. He got on the side of the wheel went down, causing the machine to topple over.

Witnesses Are Named.

"Mr. Howell took our machine, and in it drove Mrs. Ruedy and the two children to the clubhouse. "Then he came back with our machine and took Mrs. Fields and myself to the Automobile clubhouse. We remained there about 40 minutes, during which time I talked to Dr. Whiting, told him it was our machine Mr. Ruedy had tried to pass, and made inquiries as to whether there was anything I could do.

CHIEF GOES AFTER SPEEDERS

Slover Issues Orders He Hopes Will Reduce Automobile Accidents.

Stirred by the excessive number of automobile accidents occurring recently, Chief of Police Slover issued orders yesterday which, he hopes, will result in greater caution. Basis for the order is found in the oft-repeated ruling of Municipal Judge Taxwell that the speed limits formerly fixed by city ordinance are not obsolete. The court arrives at this view by construing the recent statute, which says that the rate of speed "shall be a reasonable speed, up to and not exceeding 25 miles an hour." It is held that the court, under this wording, has discretion to determine what is a reasonable speed, and he has done so by raising tentatively the limits at 10 miles in the fire limits and 15 in the city at large.

In this view, says the court, even four miles an hour might be held to be an unreasonable speed under some circumstances. Policemen and automobile drivers have held to the notion that the new statute legalizes speed up to 25 miles an hour in every case, and for this reason few speeders have been arrested.

AMATEUR PRESS CONVENS

La Grande Is Convention Place. Election Is Under Way.

LA GRANDE, Or., July 5.—(Special.)—Committees of the National Amateur Press Association now in session here are tonight counting the mail proxies, casting votes for National officers. There are about 25 delegates

FAMILY IS KILLED

Infatuated Man Slays Brother as He Sleeps.

FIVE DIE IN SAME ROOM

Dawson, Yukon Territory, Is Scene of Deaths—Uncle in Love With Niece of 16—Parents Had Denied Him Entrance to Home.

DAWSON, Y. T., July 5.—Eugene Vaglio, aged 45, today killed his brother, John Vaglio, proprietor of the Central Hotel; his brother's wife and their two children—Rosa, aged 16, and Christina, aged 9—and then committed suicide.

Eugene Vaglio was infatuated with his niece, Rosa, and had been forbidden by her parents to enter the hotel. The murderer went to the hotel with two pistols and a dagger, evidently determined to slay all his brother's family. He found Mrs. Vaglio in the kitchen, followed her to her bedroom and shot her there.

AMATEUR PRESS CONVENS

La Grande Is Convention Place. Election Is Under Way.

LA GRANDE, Or., July 5.—(Special.)—Committees of the National Amateur Press Association now in session here are tonight counting the mail proxies, casting votes for National officers. There are about 25 delegates

present from a large number of states. The committee that will count the proxies, which, by the way, are sent in from all corners of the United States by the several hundred members, consists of Ben Gekeler, chairman; Mary H. Lehr, the Southern California delegate hailing from Redlands; Parker Rowell, Seattle; Leonora Pearl Brace, Seattle, and Etha Huffman, of this city. While the proxies probably will decide the race for president and subsidiary officers, in which Harry Shepard, of Bellingham, and Helen Hoffman, of Brooklyn, lead in popularity, it is not an established fact that they will, and the deciding vote may be cast tomorrow night on the floor of the convention, when the verbal votes of the convention will be cast.

ONE SHOT, 3 CUT IN RIOT

Rancher Near La Grande Innocent Victim in Free-for-All Fight.

LA GRANDE, Or., July 5.—(Special.)—Henry Buesing, aged 25, a rancher, was shot with a heavy charge from a shotgun; Jack Smith, "Happy" Bolton,

a machinist, and Howard Bates, all La Grande people, were more or less badly cut and bruised as the direct and indirect consequences of a free-for-all fight between Italians and some white men last night.

Buesing, the most seriously hurt, was an innocent sufferer, the police believing he was shot by mistake, the would-be assassin thinking him one of the party participating in the riot, just a little while previous.

The young man is well known here, living on a ranch with his brother, Charles, and brother-in-law, Edward Myers, and has a large circle of friends.

Buesing is resting easily, the only serious complication that might result being blood poisoning.

Man Foully Killed Is Belief.

JUNCTION CITY, July 5.—(Special.)—The body of John McCarty was found along the railroad track near Junction City yesterday. It is believed that he met with foul play, as his body was not bruised or his clothes torn to indicate that he had fallen from a train. A bruise on the top of the head shows that he was killed by a blow on the head. McCarty had been working for a logging company on the McKenzie River, near Eugene. He was known to have over \$100 with him when he started for Portland. No money was found on the body.

MALARIA—BLOOD POVERTY

Malaria is a species of blood poverty known as Anemia. In the first stages of Malaria the complexion becomes pale and sallow, the appetite is affected, the system grows bilious, and there is a general feeling of weakness. As the circulation becomes more thoroughly saturated with the malarial infection, the digestion is deranged, chills and fever come and go, skin diseases, boils, sores and ulcers break out. Malaria can only be cured by removing the germs from the blood. S. S. S. destroys every particle of malarial infection and builds up the blood to a strong, nourishing condition. Then the system receives its proper amount of nutrition, salivary complexions grow ruddy and healthful, the liver and digestion are regulated and every symptom of Malaria passes away. S. S. S. cures in every case because it purifies the blood. S. S. S. is a safe and pleasant remedy as well as an efficient one. Book on the blood and any medical advice free to all who write.
