BARNEY OLDFIELD PORTLAND'S GUEST

Racing Drivers Assemble in Anticipation of Big Meet at Country Club.

TWO DAYS' SPORTS ON BILL

Tetzlaff and Other Great Pilots Will Participate With Fastest Cars Known in Effort to Establish New Records.

Among the notables listed as Portland's guests today is Barney Oldfield, loyal Elk and the greatest racing driver in America. He is ready for the big automobile race meet at the Coun-try Club tomorrow and Wednesday.

Barney arrived here yesterday from Butte, Mont., where 18,000 people saw him set new Montana track records July 4 and 5. On the same train with Oldfield came two other famous pilots, who will also compete in the events of the next two days. Lew Heinemann, who won fame driving the Marmon cars in the Vanderbilt Cup, Elgin and other races.
"Wild Bill" Fritsch, a Middle Westerner
of note in the speed game, also accompanied the king of dirt track racers.

Yesterday afternoon the cars these men will drive in the meet were unloaded. They included a 300-horse-power Christie, the fastest car in the world; the Prince Henry Benz and a Cino special racer.

Tetzlaff Due Today.

Portland's field of daring auto drivers will be augmented today with the ar-rival from Tacoma of Teddy Tetzlaff, champion road race pilot, and several Tomorrow everything will be in readiness for the most spectacular feature of the visiting Elks' entertainment and the first real automobile meet that this city has undertaken. Mile dirt track racing has always been something like shaking dice with death. With such famous starters as Oldfield Tetzlaff, Heinemann, Fritsch, Evans, Tower and other Flat drivers in competition it becomes nerve-tingling to a degree hardly ever reached in Amer-ica. To this city belongs the honor of getting together the greatest col-

lection of stars for a dirt track meet.
Oldfield has brought with him the
fastest car in the world in the famous fastest car in the world in the famous 300-horsepower Christie front drive freak racer. With this car he did a mile in 554-5 seconds over the slow and narrow track at Butte. This car has gone 152 miles an hour on the Daytona Beach straight-away in unwonders of creation. It was built by Walter Christie, a millionaire, who spent five years and \$100,000 getting the car ready for racing through many experiments and efforts.

Speed Is Limited. This is the machine in which Oldfield will attempt each day to lower the world's record for a mile dirt track. Just how near he will come to this he will not predict, though his car can attain greater speed than it is possible to drive it on which a track.

dirt track driver is not as secure as that of his road race name, and he seeks to establish himself in the topnotch class. This will be the first time that he has set out to break at the club: A. C. Crowdes that he has set out to break circular dirt course records since he came to the

front ranks of speed kings. Lew Heinemann will drive the famous Prince Henry Benz, which went through the noted race in Germany given in honor of the man from whom t takes his name. This car has turned 110 miles an hour on the Daytona track. "Wild Bill" Fritsch will pilot a Cino special racer in its class and also in the larger car events. This car is now to racing in the West, though it beat such machines as the Mercer and Case in many events last season. It is con-ceded to be the fastest 300-inch car built, and will turn up 85 miles an hour

on a straight course.

Eight events will be run each day. including a mile world's record trial each day by both Oldfield and Tetzlaff. It is a toss up as to which of these faring drivers will be able to send their giant cars over the course the

"Terrible" Teddy Tetzlaff, winner of "Terrible" Teddy Tetzlaff, winner of the Montemarathon on the Tacoma speed course Saturday; Frank Verbeck, the Flat driver who finished fourth, and E. E. Hewlett, owner of the Flat car, will leave Tacoma at 1:30 Monday morning for Portland, to take part in the automobile races planned for the celebration in honor of the Elks' grand lodge meeting.

The cars, which are entered, have al-

ready been shipped.

"I hope that Oldfield is entered," said Tetnaff, "I'd like to get a chance to show him what real speed is. I am not afraid of that 300-horsepower Chadwick car with this 120-horsepower that I drive and I'll be ready. buggy that I drive, and I'll be ready to meet him and show the Portland folk what speed really is."

Pete Daley was the first Pacific Coast Leaguer to reach 100 hits. The Los Angeles redhead brought his total up to 103 a week ago in 313 times at bat, thus giving him the nice average of .229. Daley ranks seconds in stolen bases, with 28, and seventh in run-getting, so is probably earning his keep.

Higginbotham's remarkable pitching performance yesterday in shutting Sacramento out on two hits brings him back with a record of four straights. "This fellow Higginbotham has everything a winning pitcher should have," Fielder Jones remarked during one of the Toledoan's bad days when last at home. "He possesses plenty of smoke, used good judgment and has a good assortment of benders."

His "come back" would seem to justify Jones' conclusions, voiced at a time when the opposition was banging him all over the lot.

The Beavers broke even on

The Beavers broke even on their road trip, with ten wins, ten losses and one tie. Mac's henchmen lost five in seven to Vernon, won three in six from the Angels and took five in seven from Sacramento.

Since May 7, in more than two months of battling, the Portland Coastiers have won exactly 50 percent of their games, and in view of the fact that in six of the nine weeks they have been away from home the they have been away from home the record is excellent.
