

WHEAT OFF 4 CENTS

Northwest Affected by the Demoralization East.

BUYERS OUT OF MARKET

Advance in Freight Means Lower Grain Prices in the Future—Barley Dealers Offering on Basis of \$23.50 to \$24.

The demoralization in the Eastern wheat market has put values in this section down about 4 cents in the past week.

It is not likely that the market will be established in a few days, but it is figured that new crop now is worth only 12 or 14 cents track for export.

Freights are steadily advancing and steamer rates will of course have to be taken into consideration in buying wheat for later shipment.

Barley buyers are making bids in the country on the basis of \$23.50 to \$24 landed here, but sellers' bids are above these figures.

Local receipts in cars were reported by the Merchants' Exchange as follows:

DEMAND FOR NEW CALIFORNIA HOPS

Trend is Diverted From Oregon by Reports of Conditions Here.

The Eastern demand for 1912 hop contracts in Oregon has almost ceased, but there is a good inquiry in the California market.

The Eastern market was lifeless in this state in California there was a sale of a lot of 150 bales of 1912 at 25 cents.

Wild, Neame & Co.—Business continues very quiet and quotations are somewhat easier.

Manger & Henry—Trade continues quiet. Reports from the plantations are somewhat encouraging.

W. H. & L. McInnes—There is still a small demand for immediate consumption, but it is hardly enough to keep prices firm.

A general impression appears to exist among the growers that the year is not very encouraging, owing partially to trade depression caused by the strikes at the commencement of the year.

STEEL TRADE GOOD

Increasing Demand for Output Helps Stock Prices.

GENERAL TENDENCY IS UP

Favorable Crop News and Greater Ease in the Money Market Are Factors That Add to the Betterment of Trading Sentiment.
