

Trainload of Beer From Anheuser-Busch Brewing Co., St. Louis Consigned to Blumauer & Hoch, Portland, Oregon

For the B. P. O. E. Grand Lodge Reunion 1912

Moved in Record Time Over the Chicago, Burlington & Quincy; Union Pacific, Oregon Short Line and Oregon-Washington Railroad and Navigation Co.

BRITAIN WILL LET UNITED STATES AGT

Atrocities in Peruvian Rubber District Continue to Awaken Interest.

PUNISHMENT IS DEMANDED

Foreign Office Interpolated in House of Commons, and Government Promises All Aid in Its Power.

LONDON, July 19.—The atrocities committed in the Putumayo rubber district in Peru, which universally have been characterized here as surpassing in horror any charged to the rubber collectors of the Congo, apparently will be kept in the limelight unless something is done to punish the perpetrators and to bring about the assurance that there will be no repetition.

Questions were launched at the British Foreign Office in the House of Commons today and from the replies it was apparent the Foreign Office expects to take a subordinate place to the State Department at Washington in bringing Peru to book.

GOVERNMENTS ARE IN ACCORD

United States Special Agent to See That Peru Keeps Promise.

WASHINGTON, July 19.—Correspondence between the State Department and the British Government looking to the suppression of atrocities practiced upon natives of the Putumayo rubber country indicates that the two governments are in perfect accord.

Warrenton Plans Exhibit Home.

WARRENTON, Or., July 19.—(Special.)—On behalf of the Warrenton Development League, President G. Clifford Barlow has leased a small strip

of ground adjoining the Spokane, Portland & Seattle Railway Company's depot here and has arranged for the erection of an exhibit building 12x18 feet, of the Japanese bungalow type. The league purposes carrying a permanent line of Clatsop County grain, fruit and other small products on exhibition and displaying such unprocessed specimens that can be gathered from time to time. It is hoped in this way to attract to Clatsop County permanently many of the transient patrons who visit Delaura, Columbia, Sunset, Gearhart, Seaside, Elk Creek beaches and other nearby places of interest.

NEW COURTHOUSE BEGUN

Klamath Falls Judge Rules Work Delayed Long Enough.

KLAMATH FALLS, Or., July 19.—(Special.)—The city commission to prepare a new charter has not yet reported and as a consequence city improvements which require new bond issues are at a standstill, the work heretofore reported being already provided for.

Cherry Harvest Nearly Done.

HOOD RIVER, Or., July 19.—(Special.)—The cherry harvest here is about completed. The fruit is only raised in small tracts and an effort has never been made to handle it commercially to any great extent. Because of the large quantity this year numerous shipments were tried during the early season, when the fruit was shipped to points beyond the Rockies with small fruits in carload lots, the returns were gratifying.

Wheat Intercrop Heavy.

HOOD RIVER, Or., July 19.—(Special.)—That the Hood River Valley will raise excellent wheat has been demonstrated on the Bobbitt Orchard Company's tract in the Upper Valley, where this year a number of acres were sown in the grain, which has been cut for hay. The hay was sown between the trees. It has matured excellently. Experts say that the well-filled meshes, if threshed, would return a yield of 60 bushels to the acre. It was of the blue stem variety and the seed was secured from Eastern Oregon.

Klamath Falls Gets Factory.

KLAMATH FALLS, Or., July 19.—(Special.)—A new industry at this place is a tub and pail factory, which has just been started with a force of 15 workers. It is the intention to ship the product to San Francisco for the present, where there is a good demand and it is believed that the output can be greatly increased, especially after completion of the through line to Portland, when shipments can be made to that point also. The owners say that there is plenty of good raw material in this region for their business.

FERGUSON SCORES INSURANCE FIRMS

State Suspends One License and Withholds Another for Organization.

EXAMINATIONS ARE MADE

American Life & Accident and Union Pacific Life Affected by Report of Commissioner Who Takes Action—Officials Answer.

SALEM, Or., July 19.—(Special.)—Declaration that the growing doubt as to the probability of the present management of the American Life & Accident Insurance Company of Portland being able to reorganize that company, is included in a formal statement which was issued by Insurance Commissioner Ferguson today. The license of this company has been suspended.

In addition to this he issued a statement declaring that the affairs of the American Life & Accident Insurance Company, also of Portland, are not up to the standard as yet and under present conditions he deems it advisable to withhold a license from that company until such time as organization is completed.

Report Goes Into Detail.

The report of this examination reached the department on May 15 and a hasty review of the report disclosed an unsatisfactory state of affairs, says the Insurance Commissioner, "the most serious of which was an impairment of their capital. On May 20 their license to transact business was suspended until such time as they made good the impairment of capital and restored the surplus of the company. About June 20 the officers of the company submitted for consideration of the department securities amounting to \$108,569, which were tentatively approved, subject, however, to revocation should the remainder of the securities required, amounting to \$4,723.15, not be of an acceptable class.

"Nothing further has been heard from the company relative to the additional securities required before it can be rehabilitated and there is a growing doubt as to the probability of the present management being able to reorganize it."

As required by my letter of May 17. (At least \$25,000 of the additional amount required should be in cash). This will be necessary to take care of the liabilities of your company as of December 31, 1911, as shown by your sworn statement on file in this department.

"Poor System," Says Report.

"Second—Furnish an accurate and complete list showing the history and condition of each stock subscription taken by the company and clear up the capital stock account. The special examiner reports: 'The accounting of stock subscriptions and the issuance of certificates and subsequent transfers has been handled in a deplorable manner and with no system.'"

In making his statement relative to the renewal of the license for the Union Pacific Life Insurance Company the Insurance Commissioner issued the following statement:

The Union Pacific Life Insurance Company, of Portland, Oregon, which has been in process of organization for three years, made application to the Insurance Department on June 29, 1912, for license to transact the business of life insurance. The following statement was submitted showing its condition June 30, 1912:

Mortgage loans	\$ 74,000.00
Book value of bonds	22,500.00
Cash in bank and trust companies	15,200.75
H. O. rent paid in advance	1,450.00
Premiums paid in advance	237.92
Appreciation in value stocks and bonds	760.00
Total assets	\$113,500.67
Liabilities	113,500.67
Partial payments on capital stock	5,999.50
Liability on syndicate agreements	2,811.85
Accrued expenses	1,093.47
Capital stock	31,112.66
Surplus	31,329.46
Total liabilities	\$113,500.67

This application for authority to begin business was denied the company at this time. The law requires of domestic companies a paid up capital of \$100,000 before beginning business. Their statement indicates that of this capital stock of \$100,000, only \$73,119.66 has been subscribed and paid for. For this and other reasons the Commissioner deemed it advisable to withhold license until the organization of the company is completed.

"The temporary suspension of our company's license," said L. R. Webster, ex-County Judge and president of the American Life Company, "is the result of a difference of opinion as to the form of some of the securities held by the company. In part these securities were the same as those upon which our license was granted. The others are in even better condition."

"Arrangements have been completed by which all of the conditions imposed by the Insurance Commissioner will be fully complied with in a very short time. We only ask that the public become not prejudiced against the company, which is in excellent condition, because of this publication."

SUFFRAGISTS TRY TO BURN THEATER

Powder Exploded Where Asquith Is Speaking and Panic Is Caused.

EIGHT WOMEN ARRESTED

Premier Is Followed to Dublin by Women—One Prisoner Faces Allegation of Hurling Hatchet at Prime Minister.

DUBLIN, July 19.—A plot by suffragists to burn the Dublin Theater, where Premier Asquith spoke today, resulted in the arrest of eight English women.

The police found quantities of gunpowder, kerosene and other inflammable materials in the rooms occupied by arrested suffragettes today.

Mary Leigh, Gladys Evans, Lizzie Baker and Mary Coffey appeared in the Police Court here today and were committed for trial.

Hatchet Thrown at Asquith.

The eight women are also charged with complicity in the attempt to injure Asquith by throwing a hatchet at his carriage as the party was proceeding from the wharf to a hotel.

Mrs. Mary Leigh, one of the suffragettes under arrest, was identified as the thrower of the hatchet. It is alleged by the police that she intended to brain Asquith.

The Silves River Farmers' Educational and Protective Association was formed here this week through the efforts of A. P. Davis, of La Grande, and Fred Kruson, of Grass Valley, accompanied officials of the Oregon Farmers' Union. The association includes 24 charter members, all solid farmers in Harney Valley, and is officered as follows: E. P. Sylvester, president; William Stewart, vice-president; Frank O. Jackson, secretary; Gall Barnes, treasurer; Cal Clemons, doorkeeper. The object of the organization is the protection of the producer in selling his products and in buying his supplies.

'U' GRADUATES GET PLACES

Eighteen Members of This Year's Class Elected to Positions.

UNIVERSITY OF OREGON, Eugene, July 19.—(Special.)—Eighteen members of this year's graduating class at the University of Oregon have already accepted positions as teachers in the high schools of Oregon. In addition to these, the teachers' bureau at the University has filled a large number of positions in the high schools with students who either were graduated in earlier classes or with teachers who had placed their names on file with them.

There is an extra heavy demand for men teachers in the science departments. Many of the graduates of the engineering departments if they cared to desert their chosen profession could obtain good positions as teachers in the high schools.

DAIRY CHIEF AT TILLAMOOK

Washington Official Pleased With Oregon Product.

TILLAMOOK, Or., July 19.—(Special.)—Dr. B. H. Rawl, chief of the Dairy Division of the Bureau of Animal Industry at Washington, with his wife, arrived in this city tonight for a two-day inspection of the cheese industry in Tillamook County. This is Dr. Rawl's first visit to this section. He will leave Friday for California. He was met at the train by representatives of the Tillamook Creamery Association and the Commercial Club.

West Staton Is Attractive.

WEST STATON, Or., July 19.—(Special.)—On his way back from an auto trip through California, E. L. Thompson, of Portland, president of the Willamette Valley Irrigated Land Company, operating from here to Turner, stopped to inspect the progress of the work and building operations of the new settlers. Mr. Thompson was accompanied by his family and after the dust of dried-up California the green of the fields and parklike patches of trees greatly impressed the visitors.

SALEM EXHIBIT ON

Tuberculosis Prevention Key to 7-Day Meeting.

NEW YORK MAN IN CHARGE

Warfare on "White Plague" Reaches Stage Where Wide Attention Is Given to Study of Consumption and Plans to Halt It.

SALEM, Or., July 19.—(Special.)—An exhibition which is attracting wide attention here, opened today for the first time on the Pacific Coast, the National Association for the Study and Prevention of Tuberculosis opened with meetings and the exhibits at the Armory. The exhibit is supplemented by addresses. Further meetings of this character will mark the seven days' programme which has been arranged.

W. L. Cooper, of New York, is in charge of the exhibit which is being held under the auspices of the Salem citizens' committee. The exhibit is absolutely gratuitous in every way and its sole object is to advance the warfare which is being waged against the "White Plague."

George F. Rodgers Presides.

George F. Rodgers presided at the meeting tonight. Mayor Lachrum made a few remarks and an exceedingly interesting paper on Tuberculosis; "Its Cause and Prevention" was read by Dr. H. J. Clements, president of the Polk, Yamhill, Marion Medical Society. Superintendent R. E. Lee Steiner, of the State Asylum, was to have spoken, but was unable to be present. Mr. Cooper said the attendance tonight was the largest that he has ever seen at a meeting of this kind during the Summer months.

The tuberculosis exhibit itself is attracting a great deal of attention here. Models, maps, charts and many other features illustrative of tuberculosis, its cause, effect and disastrous results from the disease are included in the exhibit.

Among the photographs are some of great interest. These show various designs for buildings and camps as well as for sanatoria. Open air schools for instruction of children who are stricken with the "White Plague" are also featured as being an important factor in the warfare waged against tubercular troubles.

Insaner consumptives, convict consumptives and consumptives in various classes of state institutions, how they are cared for or how they can be cared for and cured even under the adverse conditions in which they exist are portrayed at the exhibit and these are proving to be of exceptional interest here where the majority of such institutions are centered.
