ROOSEVELT MAN OFFERS SOLUTION

C. W. Ackerson Would Put Candidates in Field Against Taft Enthusiasts.

NOMINEES' STAND KNOWN

Committees of Each Branch Could Name New Men for Places Now Sought by Those Who Are Alligned With Opposition.

Growing sentiment among leaders of the Progressive party that there should be lines drawn between Republican candidates on state and county tickets who favor Colonel Roosevelt and those who favor President Taft, may result in the naming of a complete ticket in Oregon before the new party finishes its work preliminary to the final election

Following the announcement of Dr. Henry Waldo Coe, one of the delegates to the Bull Moose convention, that he considers something necessary along that line, other leaders have publicly announced a similar opinion. C. W. Ackerson, a delegate to the regular Republican convention and a staunch Roosevelt supporter, said yesterday that he is convention to the state and that he is going to urge the state and county central committees to take the

stand urged by Dr. Coe.
"It is my opinion that we should know how the candidates who were named at the primary election stand," I would sald Mr. Ackerson yesterday. "I would not be in favor of the party placing a complete ticket in the field, but I would favor drawing lines between the candidates who are out, giving our sup-port to those who favor Rooseveit and putting men in the field against those who are avowed Taft men.

Committee Should Decide. Members of the committees know how the nominees stand and I believe the committee should decide what candidates should be put out against the sent ones. Let action be taken what is known of the past records of what is known of the past records
of these men, is my idea of how to
handle the proposition. If a candidate
does not stand for what we do, there
is no reason why we should give him
our support. If he does believe as we
do there is no reason for placing another man in the field against him.

"What we want is a Progressive "What we want is a Progressive ticket from the President down to Con-

stable in each county. If the present Republican candidates are not pro-gressive we should get some who are. Personally I know of some of the candidates who are with us. I also know of some who are not. I believe the members of the central committees will be able to weed out the undesirable standpatters without doing any one an

that taken recently by the Republican Central Committee in sending the can-didates letters with clubs attached. That is too much on the dictator order There is a way to get at the proposi-tion without the use of a club. That way is through the action of one or the other of the central committees. "Our idea is to win the election. We "Our idea is to win the election. We do not want to do anything locally that will hurt the Roosevelt cause, but we do want to make as clean a sweep for the cause of progressiveness as is possible. It is my ider that any Republican who stands for progressive principles of the depution by Congress of as much of the Oregon system as is applicable to National affairs." sible. It is my ider that any Republican who stands for progressive principles is good enough for our support. Any standpatters are not good enough and we should name someone who is."

over night. The people themselves must demand these changes and in my opinion they are now demanding the Presidential primary.

Stands by the Party

The Republican party has rendered great service to the country. It has not perhaps been right on all subjects. Many things may not be satisfactory to all Republicans, but we cannot all be satisfied all of the time. There are many things in the Roosevelt platform which I have supported for years, and I shall continue to support them. How-ever, I feel that the surest way to bring about a reform is to support it honestly at all times. I do not feel that success in these reforms can be hastened by forming a new party, bu better results can be secured, and se-cured at an earlier date, by reforming the party from the inside, as has been advocated by many other Progressives, including such notable leaders of the people as Senators La Follette, Cummins and Borah and Governor Hadley "Therefore, as the regular Republi-can nominee, honestly chosen by the people of this state as such nominee, I

PANTAGES ACTRESS INSURES FINGERS AND THUMBS FOR \$1000 EACH.

Miss Lillie Jewell.

Eight fingers and two thumbs, each insured for \$1000, are the principal stock in trade of Miss Lillie Jeweil, great grand-daugh-ter of Jesse Jewell, originator of the child-loved marionette, who is the greatest woman manipu-lator of manikins in the world.

Miss Jewell is presenting quaint automatons at Pantages this week, and yesterday an-nounced that she had insured her fingers and thumbs for a sum aggregating \$10,000. Without her fingers Miss Jewell would be helpless, for it is by a secret process that she is able to cause such life-like antics on the part of her inanimate proteges.

Whatever secret it is that Miss Jewell uses, it is the same one that was discovered by her greatgrandfather, and which has remained in the Jewell family for generations. Four men engaged by Miss Jewell to present and operate her act are not ac-quainted with the method which Miss Jewell uses. But three fingers can be operated at one time, declares Miss Jewell. Miss Jewell is of English descent, Jesse Jewell being the first of the family to appear before the footlights. Miss Jewell will close her Portland engagement Sunday night. day night.

Mere Bankers Plan Insufficient.

As our programme is disclosed—for no man can forecast it ready-made and before counsed is taken of every one concerned, this must be its measure and standard, the interest of all concerned. For example, the bankers, not because we distrust the bankers of the country, notwithstanding they are indispensable servants of it and may do a vasif of the country, notwithstanding they are indispensable servants of it and may do a vasif of the country, notwithstanding they are indispensable servants of it and may do a vasif of the country, notwithstanding they are indispensable servants of it and may do a vasif of the country of the server of the country, notwithstanding they are indispensable part of their daily business. I do not know enough about this subject to be dogmatic about it, I know only ecough to be sure what the partnerships in it should be, and that the sate up should be, as the form the partnership of the Nation itself.

ifest to need to be pointed out; and our merchanis will not long suffer themselves—ought not to suffer themselves—to be placed at such a disadvantage. Our industries have expanded to such a point that they will burst their jackets, if they cannot find a free outlet to the markets of the world; and they cannot find such an outlet unless they be given ships of their own to carry their goods—ships that will go the routes they want them to go—and prefer the interests of America in their sailing orders and their equipment. Our domestic markets no longer suffice. We need foreign markets. That is another force that is going to break the tariff down. The tariff was once a bulwark; now it is a dam. We shall never get very far in the settlement of these vital matters so long as we regard everything done for the ment, as a concession yielded to keep him from agritation and a disturbance of our peace. Here, again, the sense of universal partnership must come into play if we are to act like statesmen, as those who serve, not a class, but a nation.

The working people of America—if they must be distinguished from the minority that constitutes the rest of it—are, of course, the backbone of the Nation.
