DEMOCRATIC ECONOMY. Why cannot the Democratic state of mind readjust itself to meet our changed National aspect with regard to the rest of the world? Why cannot the Democrats bring themselves to grasp the most important of National facts that we have arrived at the dignity of a world power with multiplying responsibilities and inter-

Democrats in the House who are able to do vast harm, cast aside their antiquated theories and ideas concerning our international status of today? Are the Democrats going to persist forever in their ancient belief that we are so remote from the great powers as to be free from molestation; that a sort of supernatural charm rests over the American people giving them im-

munity from serious menuce?
It would seem so from the persistent efforts of the Democrats in Congress to keep down every measure providing a new plate in our already hapless armour. Economy seems to be the magic word with which they aim to eatch the popular fancy. Economy is their cry whenever an additional corporal's squad is added to our ridiculously little army. Economy echoes from the walls of the House when we seek to keep pace with the evolution of modern navies. Yet without blinking an eye they vote \$150,-000 000 for pensions.

It is a dangerous sophistry they are practicing in their fight against more warships. Their economy is the same sort practiced in the elimination of lifeboats by a great ocean liner. It is the same kind of economy that appeals to the man who leaves fire es- forty-five, lacked staying qualities. may be lost in the end.

A VOICE FROM MEDFORD.

The trascible Mr. Ware, of Medford, ls referred to the latest edition of Who's Who in America (1912-13) for the data about the pure and good Mr. Perkins, upon which The Oregonian based its recent editorial remarks as to that impeccable gentleman. Several years ago it was rumored that Mr. Perkins had resigned as a partof the house of Morgan, and we recall a statement to that effect from Multimillionaire Perkins himself; but we have never heard from him or any other that he has disposed of his financial interest in the banking firm, or in the steel trust and the various corporations with which he was long connected and undoubtedly is now.

Does Bull Mooser Ware know more about Perkins than the standard biographical publication of the United "Trilby," and his life had been spent It may be conceded, course, that there are many things that the average Buil Moose leader knows initely and in the end it would only out of his superior consciousness; but mere prosaic persons and newspapers line. prefer to rely on the record. Oregonian gave its authority for its reason to look forward to success, prostatements about the Perkins corporation connections. What is Ware's to laying a wholesome and stable authority, if he has any?

It is consoling to know that the Roosevelt progressives have burned their bridges behind them in the formation of a new party. Or it would be consoling if it were true. It is not true. Here is the chief Bull Mooser clinging to a poor little Republican is state Senator and an siderations of a purely military nature of the Republican nomination as Presidential elector. RICH AND POOR CRIMINALS.

"No rich man," says the Governor of our state, "is ever hanged." Therefore nobody should be hanged. But is the Governor's statement either accurate, or convincing, or wise? Young Beatty recently hanged in Virginia, had all the resources of wealth and social influence to defend him. But he was executed. There are others; but that is not the point. It is that the law should deal alike with rich and poor, and the question as to the justice or expediency or humanity of capital punishment is not to be determined by cheap appeals to class prejudice.

The trouble with our laws is no that the wealthy or resourceful criminal escapes hanging, but that he escapes any kind of appropriate punishment. The Governor might well direct his talents to the problem of the impartial administration of justice to all alike. For if the poor murderer ought not to be hanged beests outside our own domain. Why cause the rich murderer escapes the cannot the Democrats, particularly the gallows, therefore the poor criminal ought not to be sent to prison, or punished at all, because the rich criminal

The rich criminal should not escape, nor should any criminal escape. The mills of justice should grind patiently and inexorably, and know neither class, nor race, nor creed, nor prejudice.

Seven murderers were recently executed in New York, and there is a lot of sentimental talk going around about legal murder. It is not legal murder. It has no murderous motive, either from society or any individual. It is the law. JUDGED BY HIS DEEDS.

"By their deeds ye shall know them." says the good book. By his deeds, not by his power of words, shall we know whether Roosevelt is really entitled to the confidence of progressive Republicans and to be

chosen as their leader, Senator La Follette was the original progressive in the Republican party. He it was who, by his long, persistent and finally successful fight for control of the party in Wisconsin and for those measures and that general movement sprung from him, and to him is due largely what measure of success it has had.

What did Roosevelt do to help La Follette during his long, arduous battle in Wisconsin? He not only allowed Federal office-holders to lebby against La Follette's measures in the Legislature, but he rewarded with Federal offices others who fought for "the interests" in that state. William Devoe, who was elected State Senator pleged to support the direct primary and railroad taxation bills and who violated his pledges, was appointed Collector of Customs at Milwaukee by Roosevelt. William O'Neil, another State Senator who was likewise false to his word, was appointed sealer of logs on an Indian reservation. Francis B. Keen, an anti-La Follette Assemblyman, was given a consular office. A. L. Sanborn, the railroad attorney, who conducted the contest against the railroad bills, was appointed United States District Judge St. Paul, and J. V. Quarles, whom La Follette had driven out of the United States Senate, was appointed to a like office at Milwaukee. Samuel Barney, another opponent of that velt is now so ardent a champion, was made a judge of the Court of Claims. Representative Babcock, who had led the opposition to progress, was given a letter from Roosevelt urging his re-election when La Fol-lette went into his district to oppose him as a reactionary. Joseph and his successor as editor, Amos P. maiden name. Wilder, was given an \$8000 consular office.

They are judges of the very type which Roosevelt has hybridized political animal, first apsince most severely condemned.

Roosevelt crowned all these evidences of progressiveness by causing the Republican National Committee, was absolutely controlled by which him, to throw out the four Wisconsin delegates at large headed by La Follette from the National Convention of 1904 and to seat the contesting delegation headed by Senator Spooner. That this was a "naked theft" was proved by the decisions of the Wisconsin Supreme Court, too late to be of any benefit, that the convention which elected the La Follette delegation was the regular Republican Con-

Washington, Aug. 12 .- The battle of Culpepper was the most desperate but-tle of the war, involving about even loss on both sides. Both sides have been reinforced and a renewal of the engagement cannot be far distant. Dispatches from there state that the rebels retreated and that cavalry and artillery are in pursuit across the Rap-idan. The rebel army, fearing their retreat would be cut off, have gone back towards Courthouse.

Washington, Aug. 10.-The Pitts Washington, Aug. 10.—The Pitts burg Express suys a dispatch from Van Dorn to Secretary Mallory states that the ram Arkansas had been destrowed. She left Vicksburg on Monday to co-operate in an attack on Baton Rouge. After the passage of Bayou Lara her machinery became disabled and while her crew were attempting to repair it, several of the enemy's gunboats attacked her and after a gallant response she was abandoned and blown up. Her officers and crew escaped.

Many views and policies are being advocated, but is it not better to confine the issue to a few of the most important in order to get something like a definite decision when the election occurs? The writer from which the foregoing is quoted sets forth some fairly illustrative matter of the situation, but, like the rest, fails, possibly to get to the bottom of the issue, which may be natural. Bull Moose, Donkey and Elephant ought to be in separate pastures. But can you separate them? If so, how? But, after all, and including all concerned, would it be advisable to separate entirely the said animals? As one saying has it, "Wisdom comes from multitude of counsel," or words to that effect, while another saw runs, "Too many cooks spoil the broth."
As I take it, there are only two main issues in the campaign, the tariff and the trusts, which in their effect and

general significance are being placed near Akron, O. In my opinion the Ohio match millionaire is helping to show the way to a solution of the problem of how to obtain a larger and more certain food supply.
