

CONGRESS IN MOOD TO ADJOURN EARLY

Progress Made Toward Final Consideration of Great Supply Measures.

PARCEL POST IS ADOPTED

Postmaster-General to Be Empowered, With Commerce Commission's Consent, to Change Rates—Road Study Favored.

WASHINGTON, Aug. 22.—With a celerity that hitherto has not marked the session, Congress rushed today toward completion of great supply bills and looked forward tonight confidently to adjournment Saturday.

Conferees on the sundry civil, Indian, Army and Postoffice appropriation measures were passed by the Senate, and the general deficiency bill, the last of the big supply measures to be taken up, was reported in the Senate and the way prepared for its consideration.

Clash in House Expected. The House took no action on appropriation legislation further than to order all conference reports printed in the record and to prompt action could be had tomorrow.

Leaders on both sides did not regard these difficulties as unreconcilable and it is believed before adjournment tomorrow night the legislative docket will be comparatively clear.

Postal Changes Radical. Radical changes in the postal services were provided for in the Senate and House conference on the postoffice bill.
