in favor of the Republicans.

With five-sixths the state on record William T. Haines, Republican, had a good lead over Governor Frederick W. Plaisted, and the percentage system indicated that if the ratio were maintained, the Republicans would win the fight for the head of the ticket by about 4000.

Returns from the four Congressional districts also leaned toward the Republicans especially in the First, Third and Fourth districts with the Second showing a Democratic tendency.

Haines' Lead 4000.

Returns for Governor from 550 out of 634 election districts give Haines (Rep.), 68,121; Plaisted (Dem.), 62,127. The corresponding vote in 1910 was Fernald (Rep.), 60,556; Plaisted (Dem.), 67,561. These returns show a Republi can gain of 9 per cent and a Demo-cratic loss of 8 per cent.

The Legislature returns were too menger to give any indication of the complexion of either branch, so that the outcome of the fight for the United States Senatorship between Senator Obadiah Gardner, Democrat, and ex-Congressman Edwin C. Burleigh, Republican, was in doubt.

Democrats on Defensive.

The Democrats went into the camused state Issues entirely as the used state Issues entirely as the weapons of attack, and refused to be weapons of attack, and refused to be used state Issues entirely as the ing was abandoned.

Democratic Strength Wanes.

The Republican organization was able to bring out a greater vote for Hutnes in today's contest than was given for Fernald, the party candidate who was defeated two years ago, while the Democratic vote for Plaisted showed a falling off from that of 1910. In the First Congressional District Congressman Hinds, the only out-spoken Taft candidate in the election,
