

## T. R. FEARS BOSSES IF DEMOCRATS WIN

### Political Conditions in New Jersey Cited.

## DAY ON PUGET SOUND BUSY

### Large Crowds Assemble to Hear Colonel Talk.

## VOTE IN MAINE PLEASES

### Progressive Leader Declares Result Is as Desired—Bluejackets Serenade Him and Are Greeted Personally.

## ROOSEVELT'S SCHEDULE IN PORTLAND TODAY.

7:00 A. M.—Arrives at Union Depot from Tacoma.  
8:00 A. M.—"Rose shower" and reception by Portland citizens at Union Depot.  
8:30 A. M.—Arrives at Oregon Hotel.  
8:50 A. M. to 12 M.—Informal reception and conference with state leaders of new party at Oregon Hotel.  
12:15 P. M.—Leaves for Multnomah Hotel to attend luncheon by Ad Men and Rotary Club.  
1:15 P. M.—Leaves for Plaza Hotel, Fourth and Salmon streets.  
1:45 P. M.—Arrives at Plaza Hotel.  
1:50 P. M.—Leaves for Holladay Park.  
2:10 P. M.—Arrives at Holladay Park.  
2:15 P. M.—Leaves Holladay Park for West Side.  
2:35 P. M.—Arrives at playgrounds at Flinders and West Park streets.  
2:45 P. M.—Arrives at Hotel Grand for period of rest.  
4:30 P. M.—Address at Gipsy Smith Auditorium, Seventeenth and Taylor streets.  
7:00 P. M.—Visits Moose Lodge.  
8:00 P. M.—Trains leaves for La Grande.

## TACOMA, Wash., Sept. 10.—Colonel Roosevelt's journey across the continent was completed today, as he crossed the Cascade Mountains and came into Western Washington. Nine days after leaving Oyster Bay he reached Puget Sound, and put in the day in Seattle and the evening in Tacoma. Late tonight he started on his way again, to swing down the Pacific Coast before turning Eastward. He will pass tomorrow in Portland, Or.

Colonel Roosevelt attacked the Democratic party in his speech here tonight, saying that no fight upon the "bosses" had been made in that party during the primary campaign and that a Democratic victory would mean "the enthronement of the bosses, each in his own state."

**Nugent Stried New Boss.**  
He referred to political conditions in Woodrow Wilson's State of New Jersey, and to the Governor's stand against ex-Senator Smith, saying that the Democratic party in New Jersey is struggling apparently to get rid of one boss, Mr. Smith, and apparently has gone happily to bed with another, Mr. Nugent.

"We disposed of unpleasant bedfellows," he added, "before we went to bed."  
In both Seattle and Tacoma Colonel Roosevelt was welcomed enthusiastically by crowds of large size. The streets of Seattle were decorated with flags and the bluejackets were paraded. He spoke first at a mass meeting in a skating rink, and later at the Progressive state convention.

**Bluejackets Sing to T. R.**  
A detachment of bluejackets from the battleship Oregon followed the Colonel most of the day. A hundred of them who had obtained shore leave marched through the streets singing "Everybody's Roosevelt now." They stormed the Colonel's hotel and sang for half an hour, interspersing their serenades with shouts of "We want Teddy."

Colonel Roosevelt's secretary sent word that the Colonel would not have time to see them, but the Colonel himself heard of it and sent word that he would. He came down and shook hands all around, and the bluejackets were proud. Nothing more was seen of them until Colonel Roosevelt was well under way with his speech at the convention, when through the closed doors was heard the sounds of tumult. The bluejackets had marched to the hall and were loudly demanding admittance, which the police refused.

**Maine Result Deemed Victory.**  
Colonel Roosevelt again went to their rescue and directed that they be admitted. They stayed to the end, escorted the Colonel to the station and then sent a detachment of seven men to accompany him to Tacoma. Colonel Roosevelt learned of the result of the Maine election today and said that it was a victory for the Progressives.  
"We named for Governor of Maine the man whom the Progressives wished," he said. "He wrote to me that he hoped we would not make a fight against him, that he was for me, and that he would come out for us after the election. I have just received word that he carried the state and that in accordance with his promise, he had

## NEW ANESTHETIC MADE OF ORANGES

### PATIENTS LULLED TO SLEEP BY PLEASING ODOR.

### Use in Five Operations Shows It Eliminates Struggle and Nausea as When Ether Is Used.

NEW YORK, Sept. 10.—(Special).—A new anesthetic with which the patient is lulled quietly to sleep by the odor of oranges instead of with a struggle that attends the use of ether, has been discovered. It has been used in five operations at the Brooklyn Naval Hospital and with such startling success that J. C. Byrnes predicts its adoption for both the Navy and Army. The new anesthetic is based on the odor of essence of oranges, which is ten times stronger than the odor of ether. The patient smells this vaporized essence, which is then gradually mixed with ether, the change from one to the other being imperceptible. As demonstrated in five operations at the hospital and confirmed by upwards of 200 experiments performed by its discoverers, the new process has the advantage of being much safer than the use of ether alone, taking only half the time to administer, being much less costly, doing away entirely with the patient's struggles and being followed by a quick recovery and no sense of nausea.

## LUNATIC KILLS HIMSELF

### Unidentified Man Butts Head Into Speeding Locomotive.

OREGON CITY, Or., Sept. 10.—(Special).—If I can't get a fight out of anyone else, I'll fight this engine. With these words an unidentified lunatic leaped head foremost against a swiftly approaching passenger locomotive on the Southern Pacific, near Park Place today.  
Tonight his mangled body lies in the morgue here. Coroner Wilson has been unable to find anyone who knows him. He was well dressed and about 40 years old.  
The man left Oregon City about noon and started walking toward Park Place. He was wearing a hat and met Glenn Hammond. He tried to start a fight, but Hammond continued on his way.  
When the wagon road crosses the railroad tracks, he encountered Louis Hemler, Clayton Pierce and Emil Schapp. He was angry and tried to get out and fight. They drove on, instead.  
A moment later the passenger train whizzed around the curve. In plain sight of the four men who he tried to engage in combat, he plunged to his destruction.

## GIRL ATTACKED, ROBBED

### Negro Leaves Frail Victim Unconscious on Spokane Sidewalk.

SPOKANE, Wash., Sept. 10.—(Special).—Attacked by a negro, but only 19 years old, was beaten, choked into insensibility and attacked and robbed of her week's earnings at 12:30 o'clock this morning within a block of her own home, 6218 North Center street. The thief escaped and left his victim unconscious on the sidewalk.  
The girl, who is being treated at the St. Regis hospital, regained consciousness and staggered onto the front porch of B. H. Hodges. She aroused the occupants of the house and the police sergeant, with a squad of officers, was dispatched to the scene.  
When she awoke from the shadow, she saw a negro figure in the shadow. She pursued him to a street and her pursuer broke into a run. Crying out in fear, Miss Evans started to run. The negro overtook her and dealt her a heavy blow on the left ear.  
The negro's hands grasped her throat, preventing her from uttering an outcry for help.  
Dr. C. C. Barnhart was called to attend the injured girl. She is in a serious condition.

## FIRE DAMAGE IS SLIGHT

### Cost of Fighting Forest Blaze in California Is \$25,000.

LOS ANGELES, Sept. 10.—The recent fire in Devil's Canyon, San Gabriel Range, cost the Government \$25,000 to put out, while the actual damage done, experts assert, was small. A dense growth of mountain scrub oak was the only thing destroyed, according to the supervisor's report.  
One claim reported by the supervisor was submitted by a man who admitted he tried to evade service. He said he hid two hours on a roof, two hours in a blacksmith shop and one hour under a bed, and asked the Government to allow him 25 cents an hour for this time.

## GERMANS WANT MORE MEAT

### Facilitating of Argentine Imports Now Permitted.

BERLIN, Sept. 10.—In consequence of the general clamor against the high price of meat the government, according to the Rundschau, is considering the question of facilitating the importation of Argentine chilled meat. This measure is advocated in many petitions and remonstrances addressed to the government by municipalities and political organizations.  
The importation of Argentine frozen beef is now theoretically permitted, but is hampered by regulations which make importation virtually impossible.

## MOB MUTILATES NEGRO

### Hundreds in Georgia Town Drag Body From Jail to Town Square.

CUMMINGS, Ga., Sept. 10.—Edward Collins, a negro charged with helping to hide the body of a young white woman after she had been attacked, was shot to death today while in jail here by a mob of several hundred white men.  
His body was mutilated with a crowbar, after which a rope was placed about the neck and the body was dragged to the town square, where it was strung up to a telegraph pole.

## WASHINGTON STATE T. R. TICKET NAMED

### Results of Primary Are Followed.

## DIG COUNTIES HAVE CONTROL

### Plan to Defeat Hodge for Governor Nipped in Bud.

## CURIOUS CROWD GATHERS

### Great Throng Fills Armory to See Roosevelt-Sheriff "Bob" Causes Uneasiness When He Makes Address at Meeting.

## SEATTLE, Wash., Sept. 10.—The Progressive state convention today nominated these candidates for office: Governor—Robert T. Hodge, Seattle. Lieutenant-Governor—Govnor Teats, Tacoma. Secretary of State—W. H. Ford, Arlington. Treasurer—Arthur S. Cory, Centralia. Attorney-General—E. G. Mills, Seattle. Commissioner of Public Lands—W. H. Kaufman, Bellingham. Insurance Commissioner—J. W. Collins. Auditor—Andrew E. Hoberg. Superintendent of Public Instruction—C. E. Beach, Olympia.

Representatives in Congress—First District, Daniel Landon, Seattle; Second District, Stanton Warburton, Tacoma; Third District, F. M. Goodwin, Spokane; at large, J. A. Falconer, Everett; J. W. Bryan, Bremerton.  
The results of the advisory primary held last Saturday were accepted today at the convention, and the candidates receiving the highest number of votes were nominated without opposition.  
**Big Counties Control.**  
No returns of any vote came from 14 counties of the state, the vote cast in King, Spokane and Pierce counties absolutely controlling. Eleven counties had no delegates present.  
A plan to prevent the nomination of Robert T. Hodge, which was being discussed openly among the delegates before the convention, was nipped in the bud by astute moves on the part of K. C. Beaton, Hodge's right-hand man.  
Beaton was much worried before the convention and just as highly elated when his preventatives worked. Immediately after the convention had called to order by Chairman N. W. Durham, defeated Congressional candidate from the Third District, Beaton had arranged a popular demand from all parts of the armory upon Hodge for a speech. Hodge was instructed not to let any moments pass by, and in an eloquent and forceful address called upon the delegates to support him.  
(Continued on Page 2.)

## WASHINGTON VOTE MARKED BY APATHY

### LITTLE INTEREST SHOWN IN STATE-WIDE PRIMARIES.

### Hay Wins Gubernatorial Nomination Without Opposition—Schively May Lose Insurance Berth.

SEATTLE, Sept. 10.—The statewide primaries today were marked by apathy. The Seattle newspapers made elaborate arrangements to display election returns, but only a handful of people gathered. Governor Marion E. Hay, Republican, was nominated without any real opposition.

In the First, or Seattle Congress district, Representative Will E. Humphrey was similarly renominated. For Congressman-at-Large Frank Hammond and J. E. Frost are leading in Seattle, but it is asserted that Hammond will run behind Henry B. Dewey elsewhere.  
For State Insurance Commissioner, John H. Schively, against whom a bitter personal fight was made, ran far behind State Senator H. O. Fishback in King County.  
On the Democratic side no illuminating figures on the Governorship are obtainable, except that King County scattering returns show that Elmer C. Millon, Democrat, is not running so well as was expected. Charles G. Helmer, Democrat, seems to have won the Congress nomination in the First District over Thomas R. Horner.  
Supreme Justices Ralph O. Dunbar, Overton G. Ellis and Wallace Mount were renominated unopposed.

## MORGAN PUTS ISMAY OUT

### Retirement of Mercantile Marine President Is Scheduled.

NEW YORK, Sept. 10.—(Special).—J. Bruce Ismay, who figured in the news a few months ago by being among the Titanic survivors, is to resign as president of the International Mercantile Marine Company, and probably will be succeeded as executive head of the company by P. A. S. Franklin, now vice-president and head of the business in this country.  
The head office of the International Mercantile Marine Company, which was incorporated ten years ago in New Jersey with a capital of \$120,000,000, has always been in this city. New York is the most important port of the company. There will be new service out of here for the Pacific Coast after the Panama Canal is opened. J. P. Morgan controls the stock of the International Mercantile Marine and it is understood the changes mentioned were agreed on at a London conference with him this summer.

## ROYAL VISITS PLANNED

### King Will Enjoy Shooting While Queen Sees Points of Interest.

LONDON, Sept. 10.—(Special).—It is announced that the King and Queen intend to pay several country-house visits between their return from Balmoral and the opening of the London season in February.  
As a rule, these will not exceed three days, and in every instance shooting expeditions will be planned for the King, while the Queen will follow her favorite relaxation of visiting places of interest in the neighborhood, in company with her hostess.  
The area embraced by these plans will be considerable, owing to the greater range of travel which has been brought within the reach of this generation by the development of motor-

## BULL MOOSE NOW IN RACE IN MAINE

### New Party Organizes After Election.

## HAINES PLURALITY IS 3032

### Republicans Obtain Control of Legislature.

## ELECTORS TO BE NAMED

### Roosevelt Progressives Take No Credit for Result in State, but Say They Kept Out Only to Abide by Prior Agreement.

PORTLAND, Me., Sept. 10.—Maine emerged from the state election yesterday, in which Republicans were victorious, to find herself facing another political contest with five parties instead of four in the race for six Presidential electoral votes.  
The Roosevelt Progressive party, whose leaders joined with the Republicans in yesterday's election, came into being today, after the announcement of the election of William T. Haines for Governor, three out of four Republican Representatives in Congress and a Republican majority in the legislature, which will choose a United States Senator. Ex-Representative Burleigh received the Republican preferential vote for Senator at the recent primaries.

**Haines' Plurality Is 3032.**  
Revised returns today for Governor, with only five small plantations missing, give: Haines (Rep.), 70,380; Plaisted (Dem.), 67,348; Haines' plurality, 3032. Plaisted's plurality in 1910 was 8650.  
Complete unofficial legislative returns show there will be 23 Republicans to eight Democrats in the Senate and 19 Republicans and 72 Democrats in the House, giving the Republicans 102 on joint ballot and the Democrats 80.

Interest today centered in the action of Roosevelt Progressive leaders. The Republicans and Democrats have already found that avenue, the crossing was somewhat congested.  
**Science Vies with Yeggs.**  
NEW YORK, Sept. 10.—The day of the scientific safe burglar is about over. A kind of steel that cannot be drilled, exploded or cut by the oxyhydrogen flame has been discovered by German chemists, according to Professor Duiberg, one of the chief foreign delegates to the International Chemists Congress here, and it is a question of only a short time before the yeggman will have to turn to new fields.  
Dr. Duiberg brought with him two specimens of steel. One was of the ordinary kind and had been cut in five and a half minutes by the oxyhydrogen flame and in six minutes by the oxyacetylene flame. The second specimen was of the new alloy which had withstood the heat of both the oxyhydrogen and oxyacetylene flames for one and a half hours.

## PICCADILLY REVIVES MODES LONG GONE

### SIDEWALKERS AND STRAPPED TROUSERS NOW WORN.

### Short Waistcoats of 50 Years Ago and Other Decorative Styles for Men Popular.

LONDON, Sept. 10.—(Special).—Whether or not to cultivate curled side-whiskers is the absorbing problem for Mayfair dudes today. It is no longer necessary to struggle with a feeble moustache, but to be in the forefront of the new fashion, carefully trained side "fins" are essential to the man who would be in complete trim for an afternoon stroll through the Burlington Arcade.  
The vogue has its origin in the characters playing in "Milestones," Arnold Bennett's successful play at the Royal Theatre. It is a revival of the fashion of the early half of the last century, when masculine modes were more decorative than the utilitarian styles of the last 50 years.  
But there are those who plead for a revival of greater variety to relieve the drab monotony of male attire. Not only do they wear side whiskers, but also the strapped trousers and silk neckwear of the same period, and now the man who studies his clothes has his collars cut low and wears the silk "stock," that goes twice round the throat and then is tied in a knot.

Among the best dressers have no outstanding crease down the front and back. They are fastened high and tightly round the waist and strapped under the feet. A short waistcoat adds to the slim appearance that the dude of today longs for as the Piccadilly ideal.  
**BURNED WIRE HOLDS DRAW**  
New Bridge Is Closed to Traffic When Fuse Blows Out.  
Through the blowing out of a fuse and the burning of a wire the Harrison bridge was closed to all traffic for nearly two hours yesterday afternoon. The accident happened shortly after 2 o'clock as the upper draw was being raised and it had reached an elevation of 19 or 12 feet, when the fuse blew out.  
It was necessary for a call to be sent to the Portland Railway, Light & Power Company for wire and that added to the delay. Today workmen will install a second wire, so that in the event of a repetition of the accident the auxiliary wire can be switched in. Streetcars were diverted to the Burnside-street bridge during the closed period and as vehicle traffic also found that avenue, the crossing was somewhat congested.

## SCIENCE VIES WITH YEGGS

### New Steel Discovered Which Withstands All Attacks of Burglars.

NEW YORK, Sept. 10.—The day of the scientific safe burglar is about over. A kind of steel that cannot be drilled, exploded or cut by the oxyhydrogen flame has been discovered by German chemists, according to Professor Duiberg, one of the chief foreign delegates to the International Chemists Congress here, and it is a question of only a short time before the yeggman will have to turn to new fields.  
Dr. Duiberg brought with him two specimens of steel. One was of the ordinary kind and had been cut in five and a half minutes by the oxyhydrogen flame and in six minutes by the oxyacetylene flame. The second specimen was of the new alloy which had withstood the heat of both the oxyhydrogen and oxyacetylene flames for one and a half hours.

## IRISH RIFLE CLUBS GROW

### Secretary of Society Says Patriotism Is Increased.

DUBLIN, Sept. 10.—(Special).—Colonel Winter, secretary of the Society of Miniature Rifle Clubs, recently said that in the last two years the Irish rifle and new organizations were coming in rapidly. There was no doubt, he added, that the clubs provided a most useful recreation for an immense number of people, who would be ready and competent, if necessary, to defend their country.  
Several hundred thousand men and women have, through the instrumentality of the rifle, been taught the use of the rifle, and in addition to that practical result they had been taught a loftier sense of patriotism.

## PRINCES MAY SEE CANADA

### Sons of English King Expected to Pass Through United States.

DUBLIN, Sept. 10.—(Special).—According to a usually well-informed person there is good ground for stating that the Prince of Wales and Prince Albert will pay a private visit to the Duke and Duchess of Connaught in Canada next Summer. It will not be in any sense a state visit, but is being arranged to enable their royal highnesses to see something of the Dominion. They will not travel on a man-of-war upon this occasion, but will go under the charge of their tutor. They are expected to remain in Canada for about a month, and they may return home by way of the United States, staying for a few days in New York.

## KNOX TO VISIT EMPEROR

### Secretary and Wife to Be Guests of Mikado at Luncheon.

TOKIO, Sept. 10.—(Special).—The special ambassador of the United States to the funeral of the late Emperor Meiji, and Mrs. Knox will be received in audience on September 11 by Emperor Yoshihito and Empress Sadako. They will take luncheon with their majesties.  
Mr. and Mrs. Knox on Wednesday will visit the room in which the body of the late Emperor is lying in state.

## REBELS, WELL FED, MARCHING SLOWLY

### Salazar's Men Eating Cattle as They Go.

## AMERICANS KEEPING WATCH

### Cavalry Keeps Pace on Opposite Side of Line.

## AGUA PRIETA HAS SCORE

### Defending Machine Gun Becomes Jammed. With Only Men Who Can Repair It Gone—Colonel and Major Are Arrested.

DOUGLAS, Ariz., Sept. 10.—With his 400 followers living on the fat of the land, Inez Salazar, the rebel general, is moving slowly to the west along the international boundary. He is closely watched by United States Cavalrymen, who are following the rebel movements from the American side of the line.  
Salazar and his men remain at a ranch until all the choicest cattle and provisions are consumed and then move a few miles west. They are slowly nearing Agua Prieta, the Mexican town just opposite Douglas.

**Garrison May Be Strengthened.**  
At last reports to United States Army officers here, Salazar's command camped today on the Mesal ranch, 25 miles east of Agua Prieta, where the federal garrison was strengthened today by the arrival of 100 soldiers from the south. This makes the garrison number 300 men, but Salazar's force may be strengthened at any time by the many groups of from 300 to 400 rebels operating in the vicinity.  
The town of Agua Prieta and its sister city of Douglas, were frightened today by the approach of what appeared to be the rebel cavalry. The garrison of the Mexican town was called out and Americans of Douglas perched on housetops, focusing antique field glasses, but the cloud of dust had been kicked up by a herd of cattle.

**Gun Jammed Beyond Repair.**  
The incident lacked humor to the commander of the small federal garrison at Agua Prieta, for in the excitement one of the two machine guns defending the town, became jammed beyond hope of immediate repair, when shells were thrown into the muzzles preparatory to resisting an attack. The only gunner capable of repairing the piece is in Douglas. He is an American filibuster, formerly with the rebels, and will not venture to the Mexican side.  
**Rebel Officers Arrested.**  
A rebel colonel and a major wandered over the international line near Nogales, Ariz., and were arrested by two United States Customs line riders. The rebel officers were brought here today and lodged in jail on a charge of smuggling into the United States horses they rode.  
Local authorities are intent on making no distinction between rebels and federals, lest ill feeling should be caused and affect the safety of Americans in Mexico. The federal captain of the Agua Prieta garrison is under heavy bond here, having been charged with smuggling two rifles in an automobile.

## ADONIC GENDARME SHOT AT

### Handsome French Policeman Rouses Girl's Jealousy at Wedding.

PARIS, Sept. 11.—(Special).—A small provincial town can boast of the handsomest gendarme in France. His rights to the championship of masculine beauty cannot be contested after an incident which happened at the publication of his marriage banns. The young women in the little town admired him. When the marriage banns were posted up at the mairie the name of the bride caused a stir and a flutter among all the hopeful bachelors of the town. They had all expected to win the heart of the stalwart brigadier. As they did not succeed, their jealousy towards the bride he had chosen was such that it begot murderous instincts. One of the young ladies could not resist the temptation. On the day of the wedding she drove up in a motor car to the square in front of the mairie, and when the wedding party arrived she flourished a revolver and fired.  
It is not known whether she intended to hit the bride or the bridegroom, but, fortunately, neither was struck. She was disarmed at once by the other gendarmes, and when questioned she admitted that she had done it out of jealousy. She could not bear the idea that the gendarme should get married to another.

## BIRDS KILLED; BUGS THRIVE

### French Authorities Now Worried at Pestilence of Insects.

PARIS, Sept. 11.—(Special).—The destruction of birds in the south of France and the Riviera has naturally encouraged the growth of insects, and the roses and orange groves have been attacked by swarms of pests that threaten to destroy them.  
The authorities have sent for specimens of the cardinal beetle from the government's entomological station near Naples, but a far better remedy would have been the protection of insect-eating birds. If the government would pay some attention to this matter on the Riviera and in other parts of Italy would not have to complain of the ravages of insects.
