COFFEE MOVING UP

Frost Scare Being Used Now to Elevate Prices.

MANIPULATION OF MARKET

Brazilian and New York Bulls Have Raised Values a Cent and a Quarter a Pound in the Post Six Weeks.

the trees are becoming daily worse; that there is no sign of improvement; that the damage is not yet calculable, and the likelihood is that it is large. From present expectations the 1915 crop will be even that the smaller than this year's crop, and that was so small that on the strength of its size prices were very considerably shoved up at this time last year and have been well maintained at the high point right along.

The senders of these telegrams are connected with the syndicate which floated the valorization loan, and although the frost surfacely.

WHEAT FARMERS ARE NOT SELLING Decline in Bids Brings Trading to a Stop— Course Grains Quiet,

Coarse Grains Quiet.

The wheat market continues very quiet. Shippers would buy at 77 cents, which is figured to be full export value, but there are no sellers at this price, and few at 78 cents. A premium has been paid in some sections for choice lets wanted by millers on account of their especial fitness for milling purposes and these higher prices paid have account of their especial fitness for milling purposes, and these higher prices paid have tended to keep up farmers' ideas. The fact, also, that most growers are financially able to hold tends to keep down the activity of the market. The recent decline in flour prices has checked some of the buying by millers. Bluestern was quoted yesterday at 82 cents and forty-fold at 79 cents. The oats and barley markets were quiet.

October oats \$24.50 was bid, but sellers held back. The recent free buying of feed barley has been followed by a pause in that line, and lower prices are offered. Local receipts, in cars, were reported by

Universal Tendency of Prices Is Toward a Higher Level.

Everywhere the tendency of prices for wool is upward. In Australia prices made at the opening auctions, with conditions of the clip decidedly poor, show an advance to 5 per cent. At the Liverpool East India wool auctions, which opened Monday, values opened 5 per cent higher and held steady throughout the sale. At Antwerp cross-breds opened 5 per cent higher on the ave-

The London sales, which opened this also showed a strong and advancing

week, also showed a strong and advancing market, which was to be expected in Europe as well as here, with the relative smallness of the offerings, 143,000 bales. It is said that about 8000 bales of wool have been bought for America in London and Bradford since the closing of the last colonial sales in Coleman street. Of this amount one large American consumer is It is said that about \$600 bales.

It is said that about \$600 bales of wool have been bought for America in London and Bradford since the cleaing of the last colonial sales in Coleman street. Of this amount one large American consumer is credited with taking some 3000 bales, mostly cross-breds, according to the Boston Commercial Englecia.

Sales at Boston in the

included almost everything in grade and class while prices have been uniformly firm and unchanged. Territory wools have naturally held the premier position, so far as the volume of business done is concerned, have included about an equal amount

HORST'S PROPOSAL IS RECOMMENDED Brewers' Committee Reports at Boston Con-vention.

At the annual convention of the United States Brewers' Association, held at Boston, a favorable report was made on the proposition of the Horst Company to transfer its Coast properties to a symilorite of brewers.
A press report of the convention says:
"The secretary reported for a committee

chosen some time ago to investigate certain extensive hopgrowing industries on the Pacific Coast, stating that a committee had visited the plant and looked into the crop-possibilities there, as well as investigating the economies promised by a recently invented hoppicking machine controlled by the same company. The committee was en-thusiastic about the enterprise and stands ready to furnish information to all members who feel disposed to interest them-selves in the matter."

VALLEY TOWNS SEND EASTERN EGGS Shipments Received Billed as Oregon Stock.

Poultry Cleans Up.
A Front-sirent dealer yesterday received ave cases of eggs from a shipper at Stay-ten, Or., which, on examination, proved to by the shipper from a storekeeper in that town, who had undoubtedly purchased them in this city at the lower prices at which Eastern eggs are sold. This has of late ecome a practice with some of the produc isalers in the valley towns and the Fron street merchants are determined to put a stop to it. It is bad enough to receive held eggs of Oregon make, without having Eastern stock shipped back here, as the home article. The poultry market cleaned up well yes-

Hens and Springs for the most part sold at 14% cents, but some dealers shaded this price later in the day, Young turkeys sold at 22% cents, Dressed meats were unchanged,

Cheese supplies were light and the market was firm. Butter was also firm.

Tokays Come in Better Order. The fruit trade was fairly active. Peache continued in light supply and firm. A car of Takima freestones is due today.

Among the grape receipts was a car of California Tokays in crates, which were in good order and sold at 90 cents. Concords were not very pientiful and cleaned up at 16% @17% cents a basket.

Good shipping tomatoes were scarce an firmer at 60 cents.

Money Rates Still a Factor in Wall-Street Trading.

STRONG

Harrimans Move Briskly on Publication of Favorable Statement of August Earnings - Bond Transactions Are Lighter.

NEW YORK, Sept. 26.—Money rates governed today's stock market to an unwonted degree. The preceding day's flurry, when call loans rose to 7 per cent, the high rate of the year, served as a reminder that the steady outflow of cush from this center was again threatening a deficit in the small reserves of the clearing-house banks.

The opening rate today, 6 per cent, held steady until the late afternoon, when it advanced %, then declining and closing at 5 per cent. Time money was unchanged.

Stocks opened active and strong, with one-point gains in Canadian Pacific, Great Northern Ore, Consolidated Gas and a few less prominent issues, while most of the apeculative leaders rose substantial fractions. Reading was the most striking exception, turning heavy soon after the opening.

United States Treasury 26.—At the beginning of business today the condition of the United States Treasury was:

Working balance in Treasury 12.852,307.407

COTTON SPINNING INDUSTRY IN SOUTH Growth Shown by Census Bureau's Report

for Past Year.

WASHINGTON, Sopt. 20.—The feature of the Census Bureau's report, issued today, on the supply and distribution of cotten for the cotton year 1912, which ended August 31, was the indication of the South's growth in the cotton Spinning industry.

The amount of cotton used there was, for the first time in the history of the industry, greater than that used in all other states in any one year and the number of active spindles operated increased aimost 300,000 over the number operated inst year.

The report shows the total supply to have been 17,673,294 running bales; ginnings, 16.06,857, net imports, 229,276, consumption, 5,367,571; in cotton growing states, 2,712,758; in all other states, 2,650,049; experts, for Past Year.

5,867,571; in cotton growing states, 2,712,-725; in all other states, 2,655,049; exports, 10,681,758; stocks held, 1,623,865; by man-ufacturers in cotton states, 241,704; in all other states, 623,589; in independent ware-houses in cotton states, 445,555; in all other states, 108,625; held cisewhere, 198,062; ac-tive cotton spindles, 80,812,730; in cotton states, 11,835,530; in other states, 18,728,591,

Heavier Selling at Chicago.

PRICES LOWER CLOSING

Cheaper Offerings of Russian and Canadian Grain Cause Backset in European Quotations-Cash Demand Is Poor.

CHICAGO, Sept. 26.—Wheat prices became beary today under selling due to clearing weather conditions Northwest poor cash demand and depressing cables.

News that threshors had been able to resume work in North Dakots gave courage to the bears in wheat. Winnipeg sent word today that receipts were expected to increase forthwith. Larger and cheaper offerings of Bussian and Canadian wheat were regarded here as chiefly responsible for the backset in European quotations. Favorable crop reports from Argentina counted also against the buils. Corn weakness, too, added to the overweight on the market. Frosts failed to stimulate any important buying of corn.
Outs closed ranging from last night's level to 25c lower.

The leading futures ranged as follows:

ASTORIA PREPARES TO WAR a mile of it in James street having been laid 10 years ago; and Romans are so well satisfied with it that they prefer it even at greater cost than other pavements."—Utica, N. Y., Press. ried to Finish Now.

ASTORIA, Or., Sept. 26 .- (Special.)-The rate committee of the Chamber of Commerce has decided to file a suit at once before the Interstate Com-merce Commission asking that Astoria be granted the same freight rates as are accorded Puget Sound points on grain from the interior and also that it be given the common distributing rates. The committee had sent com-munications to the presidents of all the Hill and Harriman lines in the the Hill and Harriman lines in the Northwest, demanding these rates.

Answers were received to a few of the communications, but they were unsatisfactory, merely acknowledging receipt of the letters and stating that the matter had been referred to various other officers of the respective roads, "who would reply in due time."

Becoming disgusted at this delay, the committee determined to wait no longer, so it has engaged attorneys and committee determined to wait no long-er, so it has engaged attorneys and a meeting of business men and prop-erty owners has been called for next Friday evening for the purpose of ar-ranging the finances for carrying out the suit. Word has been received that the local interests will have the sup-nert of the Farmers' National Union in making the fight for lower freight
