

# BOURNE SAYS HE MUST HEED CALL

## Senator Declares That Selling Violated Corrupt Practices Act.

### PLATFORM IS ANNOUNCED

#### Independent Candidate for Senate Construes Petition of Electors as Peremptory Command to Run Which He Must Obey.

Constructing the petition of Oregon voters submitted to him last week to be a call from the people that he should not ignore, United States Senator Bourne, in becoming an independent candidate to succeed himself, yesterday issued a statement to the voters of the state. At the same time he issued a platform on which he seeks re-election.

Senator Bourne, in his formal statement, makes the allegation that the nomination of Ben Selling, his successful opponent in the primary nominating election, was effected by a violation of the corrupt practices act, which, he asserts, absolves the voter from abiding by the result of the April nominating election. To uphold a primary nomination secured by unfair means, construes the senator, would be a blow at the direct primary law itself.

The senator undertakes to justify his candidacy on the fact that the nominating petition was signed by a larger number of electors than is required to initiate or to refer a measure to the voters of the state or to nominate a candidate for office. Although not a candidate under the spirit of the election laws, he says he was obliged under the letter of the law to become a candidate.

**Committee Appointments Cited.**

Reference is made to his record as a member of the Senate and the importance of the committee appointments he has attained, from which he concludes he is in a position to continue to be of service to the state.

The following platform was announced:

Substitution of direct primaries for caucuses and conventions in the selection of candidates for President and Vice-President.

Adoption of the initiative, referendum and recall in all the states in order that the people may control their legislation and dismiss from office unfaithful or incompetent public servants.

State and National laws regulating and prohibiting the barter and sale of official appointments.

The ratification of the pending constitutional amendments for the direct election of United States Senators.

Equal suffrage, regardless of sex.

Divestment of the Presidential power of nomination of Federal appointees in the different states with substitution of a plan providing for their election by the respective jurisdictions. Thus only can the Federal machine be destroyed and Congress be made independent of any and every special interest.

Recognition of the principle that all laws regulating personal or corporate activity shall be comprehensive and explicit, defining what can and what cannot lawfully be done, so that this shall be a Government of law and not of bureaucratic rule, and recognition that every citizen has the right to the plain language of the statute that prescribes the extent of his duty or the limitations upon his liberty.

**Tariff Commission Urged.**

Observance of the policy of delegating as little power as possible to the individual, but providing the greatest possible opportunity for individual demonstration, resulting in industry, efficiency and commensurate with ethics and ideas.

Creation of a permanent, non-partisan tariff commission to study the duties and reporting directly to Congress.

Development of a financial system resulting in greater efficiency and elasticity of our money, with less possibility of individual control.

Federal control of interstate corporations.

Rigid exclusion of coolie labor; good wages make good citizens.

Enforcement of pure food laws.

Liberal pensions for deserving veterans.

National good roads legislation.

Liberal appropriations for river and harbor improvements.

Increased efficiency rather than false economy in Governmental operations.

Use of public resources, with intelligent conservation.

Rigid, intelligent control of all public-service corporations.

Baxter, are at the Portland. Mr. Baxter is general manager of the Alaska Steamship Company.

E. H. Broadwell, vice-president of the Hudson Motor Car Company, Detroit, Mich., was registered at the Multnomah yesterday.

S. M. Calkins and S. E. Cummins, County Commissioners from Newberg and McMinnville, respectively, were registered at the Oregon yesterday.

Mr. and Mrs. Joseph Baumgartner, of Salem, will make their future home in Portland. Mr. Baumgartner was formerly cashier in Ladd & Bush's Bank.

CHICAGO, Oct. 8.—(Special.)—The following from Oregon are registered at Chicago hotels:

From Portland—At the Congress, W. C. Campbell, F. S. Belcher; at the Great

### MT. ANGEL COACH CALLS FOR MEN FOR FOOTBALL TEAM.

Curtis Coleman.

MOUNT ANGEL, Or., Oct. 8.—(Special.)—Coach Coleman, of the Mt. Angel College football team, has issued his first call for men, and about 35 hopefuls turned out for the first practice of the season. George Fick, last year's star right tackle, has been elected captain, to succeed Captain-elect Wunderlich, who did not return to school. As only about five members of last year's team have returned to school, there is much rivalry among the prospective members for places on the team. Coach Coleman said tonight:

"Prospects are bright for a fast team. While the team as a whole, will be rather light, it makes up in speed and aggressiveness for what is lacking in weight. The tackle and end positions will be taken care of by last year's men. In the back-field, Schmitt is a fixture of full, and Schmitt probably will be placed at quarter.

Manager Ross Coleman announced that games would be arranged with Columbia University, Woodburn Athletic Club, Silverton, Dallas, Pacific University and other fast teams.

### DAILY METEOROLOGICAL REPORT.

PORTLAND, Or., Oct. 8.—Maximum temperature, 59 degrees; minimum, 45 degrees. Wind, 8 P.M. to 3.0 feet; change in barometer, 0.01; total rainfall, 0.5 P.M. to 3 P.M., 0.22 inch; total full since September 1, 1912, 1.54 inches; 49 minutes; possible sunshine, 11 hours; deficiency of rainfall since September 1, 2.30 inches. Total sunshine, 11 hours; wind velocity, 11 to 20 miles; barometer (reduced to sea level) at 5 P.M., 30.08 inches.

**WEATHER CONDITIONS.**

The Canadian disturbance has made a rapid southeastward move to the central Plains states and is being followed by an area of high pressure moving westward. High pressure obtains also along the north Pacific coast and over the greater portion of the country. A cold front is moving within the last 12 hours precipitation has occurred in the Pacific basin and Rocky Mountain states. Oklahoma, upper Mississippi valley, and western region. Thunder storms were reported from Denver, Colo., and from the central Pacific. A heavy shower in Utah, the central Pacific and Plains states, Mississippi and Ohio valleys and North-western Washington and generally cooler weather obtains in most other sections of the United States, especially in interior Oregon, Nevada, Eastern Washington, generally fair, with some light drizzle. It is also much cooler in interior Western Canada.

The conditions are favorable for local showers Wednesday in Southern Idaho and for generally fair weather in the remaining portion of this district. No decided changes of temperature are indicated, and winds will be mostly westerly.

**FORECASTS.**

Portland and vicinity—Fair; northwesterly wind; temperature not much change in temperature; northwesterly wind; Washington—Generally fair; some much change in temperature; westerly winds; Idaho—Fair; mostly westerly winds.

THORODE F. DRAKE, Acting District Forecaster.

# TAX ON BULL RUN WATER SUGGESTED

## Large Users Should Pump From River, Declares Daly to Board Members.

### MAYOR WANTS ONE RATE

#### Informal Discussion on Proposed Change in System Is Held—Meter Plan and Vacant Lot Cost Held Up to Debate.

An informal discussion of proposed water rates for next year yesterday afternoon brought forth some interesting remarks from Mayor Rushlight and members of the Water Board. Nothing definite was done, as the formal action will follow later, there being plenty of time between now and the last of December, when the schedule is to be submitted to the Council for decision.

A letter from Will H. Daly, a Councilman-at-Large, was read, in which he suggested a radical change in the system of rates. Among other things, he recommended the placing of heavy tax on Bull Run water by large users, so as to discourage them in this practice, his idea being that they should pump water from the Willamette River instead.

Another of Mr. Daly's suggestions is that a 25-cent charge be made on all vacant lots within 100 feet of a water main, as he thinks the presence of the water in a community doubles the value of ground.

**Other Commodities Discussed.**

"The suggestion he makes regarding a charge for water so that consumer pays as much for the last 1000 cubic feet as for the first, strikes me favorably," remarked T. B. Wilcox, a member of the Board. "I think that is fair. Why should a man who can eat three breakfasts get them for less money than a man who can eat but one?"

"Well, you can buy lots of things more cheaply at wholesale," said J. C. Alnworth, another member.

"Thank you, but that is true of flour," replied Mr. Wilcox. "I charge them just as much for one cargo or part of cargo as another."

"I believe that we should start in and meter the party who city that lie in the lower levels," said the Mayor, "as there is where the waste of water is, if any. On the higher levels, often they do not have the pressure to waste much."

"I don't know about metering the town," said Mr. Wilcox. "I think that if we could meter the water in the pipes, and get the water to the people, that is doing pretty well. We have plenty of water, haven't we? Have you heard of any lack of water this year?"

**Mayor Wants One Rate.**

"Very little," said the Mayor. "But I get letters right along from persons who say they pay double what their neighbors pay for water although they don't use any more than their neighbor. I think we ought to charge just one rate."

The Daily suggestion of taxing vacant lots and thereby reducing the cost of water to the "little" consumers, while Mr. Wilcox is in favor of it, and Alnworth is probably will be placed at quarter.

Manager Ross Coleman announced that games would be arranged with Columbia University, Woodburn Athletic Club, Silverton, Dallas, Pacific University and other fast teams.

### DAILY METEOROLOGICAL REPORT.

# A Living-Room Light Selected From 189

## We get samples of every new lighting device as fast as they are invented. In our laboratories we tested no less than 189 devices before we finally picked the

# NEW REFLEX

### light as the best on the market. Our test proved the New Reflex to be a 100-candlepower light that would use less than one-half cent's worth of gas per hour. Also that its construction is so simple and durable that we positively guarantee every part for three months and will replace any breakage during that period free of charge.

### We are giving free New Reflex demonstrations in homes throughout the city. You see the light prove all our claims before signing an order. Three small payments with gas bill cover the cost.

# The Portland Gas & Coke Company

## WARDENS ASK SEVERITY

### SEVERER PENALTIES WANTED FROM JUDGES.

#### Hunters Said to Be Violating Law Arrested by Officials Almost Every Day and Only Fined.

Paying \$50 for two grouse, \$25 for less bird than makes an average meal, and \$25 to \$30 for pheasant does not seem at all exorbitant to the hunters who have been caught hunting illegally, judging by the numbers which the state game wardens are hauling in every day.

"We find that the penalties are too light and the birds too numerous," says Mr. Finley. "If the hunters can be made to refrain from shooting them this year in a short time we will have that put in the hands of the Legislature. The season which the Legislature closed runs for an other year and if the birds were better protected the state would be well supplied when the open season does come. The judges all over the state ought to make \$50 the lowest fine and run up to \$100 for a subsequent offense. I think we ought to charge just one rate."

The Daily suggestion of taxing vacant lots and thereby reducing the cost of water to the "little" consumers, while Mr. Wilcox is in favor of it, and Alnworth is probably will be placed at quarter.

Manager Ross Coleman announced that games would be arranged with Columbia University, Woodburn Athletic Club, Silverton, Dallas, Pacific University and other fast teams.

## BOND BIDS ARE TOO LOW

### City Can Worry Along for Month or Two With Funds on Hand.

Upon recommendation of Mayor Rushlight the City Council yesterday rejected all bids submitted for an issue of \$215,000 Broadway bridge, 30-year, 4 per cent bonds, because of the low proposals. The highest bid was by Morris Bros. for \$2.88.

"I believe," said the Mayor, "that we can get along for one more month without the money, but the bonds would produce and I think we should reject these bids. They are too low and we might do better in another month."

Members agreed that the bid of \$2.88 was too low for these bonds and, accordingly, it was ordered that they be readjusted. It was said that the bond market is in poor condition, but there was also a rumor that the bond buyers may have had reason to think that the city would be compelled to sell, in order to proceed with the construction of the bridge, which is one of Portland's most important projects. However, there are sufficient funds to continue work for another month or so. The committee ordered the sale of \$250,000 park and boulevard bonds of the 20-year, 4 per cent issue, to Morris Bros. at \$3.44.

## EARLY CONDITIONS SHOWN

### Historical Film Masterpiece Is Feature at Star.

The big historical film masterpiece, Custer's Last Battle, was shown for the first time in Portland Monday night at the Star Theater to the members of the Portland Press Club and invited friends, the guests of Melvin G. Winstock, of the People's Amusement Company.

For a realistic reproduction of history so close to ourselves, the film is wonderful and shows in truth the early settlers of the West and the conditions they had to overcome in the establishment of homes.

The film shows the story of the great Indian insurrection in which Custer lost his life, from the cause to the finish. Old chiefs, Sitting Bull, the coward, Rain-in-the-face and other heroes of the day appear in their ugliest.

"The film covers a period of two years, from the time the two settlers were set upon and killed by the Indians to the time that Perry's walking soldiers drove the Indians with terrible slaughter to the Canadian border."

## FIRST SHOP IS SUCCESS

### Mutualist Association Has for Its Object Lower Cost of Living.

The third meeting of the Mutualist Association, which has for its object the reduction in the cost of living by means of co-operation, will take place tomorrow at the Commercial Club. On this occasion a charter and form of by-laws which have been drawn up by a committee appointed for that purpose by Dr. C. H. Chapman, the chairman, at the last meeting of the officers of the society, will be discussed.

The intentions of the association are:

Deputy E. C. Hills caught Chester Good out for grouse. He had two in his possession and was fined \$50. The grouse were taken by William Vanderden. Phelix Toddy, also of the law, paid \$25 for his part and was released. They tried to get out of their crime by a subterfuge. The game warden saw them all fire on the bird. The bird died, but no one could prove as to which gun killed the bird. They were all sentenced for pursuing the bird.

The bird died, but no one could prove as to which gun killed the bird. They were all sentenced for pursuing the bird.

# Pretty Mothers

Health is the foundation of all good looks. The wise woman realizes this and takes precautions to preserve her health and strength through the period of child bearing. She remains a pretty mother by avoiding as far as possible the suffering and dangers of such occasions. This every woman may do through the use of Mother's Friend. This is a medicine for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend is sold at drug stores. Write for free book for expectant mothers, which contains much valuable information.
