\$2.50 Wool Underwear at \$1.75	\$3.50 Army Flannel Shirts \$3.00
\$3.00 Wool Underwear at \$2.00	

During the past week nearly two carloads of Woolen Goods of every description have been received from the mills. These goods form the final cleanup of the season's business of the mills and have been sent to us to dispose of for what they will bring. We never make two bites of a cherry—never try to squeeze out the last possible penny—but are content to make a small profit so long as we can make it quickly. We can conscientiously assure you that the final weeks of this sale will offer even better values than we were able to give in the beginning, there being in the first place the second shipments from the mills to be sold at once, and a further mark-down of many of the goods already in stock. We can therefore, with perfect propriety, urge you most strongly to buy your woolen goods—Blankets, Men's Underwear, Flannel Shirts and Woolen Socks at this store. **WE SAY COME.**

Wool Socks
Light, medium and heavyweight; black, tan, gray and brown; all of them good and all at low prices.

DUNLWAY HITS 'PADDING'

STATE PRINTER TAKES EXCEPTIONS TO WEST STATEMENT.

Loss of \$3000 on Whole Job Entitled He Says in Printing of Codes at 75 Cents a Copy.

SALEM, Or., Oct. 22.—(Special.)—Showing that the state printing fund is being "padded" by numerous extraneous liabilities which appear against the State Printing Office, that the amount actually expended by the State Printer is exceedingly small compared to the charges that are made against his fund by numerous other offices of the state, State Printer Dunlway has forwarded to Governor West a statement pointing out the conditions that exist and the expenses in the office.

Such charges as for a rapid addressing machine used to send out pamphlets to the voters, charges for checking initiative petitions, charges for ruling and binding and for various other essentials, are placed against the state printing fund when they do not actually represent printing charges, according to Mr. Dunlway's statement, which in part is as follows:

Examination of the record in the auditor's office shows that from the first item, \$100,000, from January 1, until October 1, 1912, but \$217,687.00 was paid for printing, \$18,553.47 of which was for the five officers named by you in contrast with the "state printing office."

After auditing my \$3000 loss, in 1910, on the codes, it is embarrassing to have the insufficient sum paid me for the work carried into 1911 as a deficiency and used to swell the total. I am sure you must have done this by merely taking some one's figure from the "state printing office" without looking into the matter.

In view of the facts, I think you will readily concede that it is embarrassing to the State Printer for the Governor of Oregon to have given out the statement furnished the press on October 14 as to large amounts alleged to have been absorbed by the "state printing office" when there is no "state printing office" but a private plant provided by the State Printer in compliance with Oregon law.

Further, it is embarrassing to have you assume, in paragraph eight of your letter, that there will be a deficiency of \$25,000 for 1911 and 1912 when of \$100,000 appropriated on the face of the record, to cover the many things charged to printing, the sum of \$70,248.73 for all purposes (including paper, binding, ruling, election supplies, clerk hire and postage for mailing pamphlets to registered voters, and a variety of other items besides printing), leaving \$29,751.27, or about one-fourth the appropriation for the remainder of the term. So there is small prospect of any considerable deficiency, and no estimate of that character can be otherwise than unjust if accredited to the state printing office.

The Governor's statement in part follows:

The following statement is offered for the purpose of advising the public as to the appropriations made by the last session of the Legislature and the cost of printing and binding from January 1, 1911, to October 1, 1912, of the appropriations made by Legislature for purposes pertaining to printing, binding and binding paper:

Amount.	Supra.	Balance.	Total.
Public printing fund, 1911-12.	\$100,000		\$100,000
Supreme Court Reports.	9,500	8,900	18,400
Completion of Code, deficiency, 1910.	25,000		25,000
Deficiency printing fund, 1910.	25,000		25,000
Total.	\$159,500	\$8,900	\$168,400
Total disbursements January 1, 1911, to October 1, 1912:			
Expendi-			
ture.			
Balance.			
Total.	\$122,713	\$37,886	\$160,600

Of this appropriation of \$25,000, there appears to have been expended \$18,748.87, leaving balance of \$6,251.13. Of the amount expended \$13,120.25 appears to have been Mr. Dunlway's share for printing done.

While it appears that the general printing fund will likely be consumed

HAWLEY SEES VICTORY

SOUTHERN OREGON FAVORABLE, SAYS REPRESENTATIVE.

Lack-of-Veracity Club Membership Grows as Result of Verbal Tilt of Campbell and Smith.

SALEM, Or., Oct. 22.—(Special.)—Representative Hawley has returned from a trip through Jackson and Josephine counties, where he went after delivering the principal address at the annual reunion of the Lane County Veterans Association at Eugene. It had been reported that Jackson and Josephine counties would not poll so large a vote for the Congressman as usual. Mr. Hawley had all candidates, whether opposed or not, in the primaries last April. Congressman Hawley returned much elated over the prospect in Southern Oregon, for while in Ashland, Medford and Grants Pass, he found that he would not only poll his usual vote among the members of his own party, but many persons affiliated with other parties came to him and expressed their intention of not only voting for him, but working for his election, stating that his course at all times had been in the interest of all the people and not a select few.

The Ashland Record has stated that John W. Campbell asserted R. G. Smith was not in the race for Congress, but Smith comes back at Campbell with a statement that comes close to adding another member to the famous lack-of-veracity club. In Southern Oregon, neither of them is considered very much in the race, as Campbell has been in Oregon about two years only, and has divulged no plans for the benefit of the state, is without a platform, except that he desires the position, while Smith, it is said, has troubles other than those of a political nature, which has been making hundreds of Democratic votes for Congressman Hawley.

Mr. Hawley will pass Wednesday in Astoria and Clatsop County, Wednesday night in Clatskanie, part of Thursday at Rainier and Thursday night at St. Helens. Friday he will be at Hillsboro and Saturday all day at Forest Grove and other Washington County points. Monday, October 23, he will be in McMinnville until 2:30 in the afternoon and pass that night at Newberg. The following day he will visit Dallas, Monmouth and Independence in the evening.

REPORTER SEEKS REDRESS

Klamath Falls News-writer Accuses Mayor, Chief and Patrolmen.

KLAMATH FALLS, Or., Oct. 22.—(Special.)—At the Council meeting last night R. Vance Hutchins, the reporter who was pummeled by Policemen Hall, October 9, filed a complaint charging Mayor Nicholas, Chief of Police Smith, Patrolmen Hall and Greenwood with malfeasance in office in connection with that affair.

A motion to suspend the policemen was declared out of order by the Mayor, who said the men must have a chance to be heard, and that as he was himself covered by the same complaint he could not preside. The President of the Council being absent, a motion to compel his attendance was declared out of order for the same reason. The complaint was then amended by Mr. Hutchins by striking out the name of the Mayor.

The motion to suspend the policemen was then received. The Mayor declared he would not entertain a motion which would leave the city without police protection; that he did not have in mind any man to appoint in their place, but that if the complaint was made specific and was sworn to and a time set for a hearing, which would give the accused men an opportunity to present witnesses, he should not stand in the way. The motion was then amended and carried to have such hearing Monday night, October 28.

The City Hall was well filled with interested spectators, and the great majority of these seemed well pleased with the outcome. It was evident that the majority of the Councilmen had come prepared to carry out the motion to suspend the police force.

In Japan about four million tons of herrings are caught every year. This enormous quantity is being sold in this country for human consumption. In fact, about four-fifths of the entire quantity is used as organic fertilizer for the rice fields.

Y. M. C. A. SECRETARY DECLINES CALL TO VICTORIA

In order to continue his work as boys' secretary of the Portland Young Men's Christian Association, J. W. Palmer last night declined a call to become general secretary of the Y. M. C. A. at Victoria, B. C.

The opening was considered an unusually good one, as the Victoria association has about 1000 members and the salary paid is almost twice that of the position filled by Mr. Palmer in Portland. Mr. Palmer, however, has been having excellent success in conducting the boys' department of the Portland association and he considers the work here too promising to leave. S. R. Sayre, traveling representative of the Y. M. C. A. in Western Canada, came to Portland to make the offer to Mr. Palmer. The latter has been engaged in Y. M. C. A. work just three years, all of that time with the Portland association.

HEARING ON HERE TODAY

Chairman Prouty, of Interstate Commission, Asks Co-operation.

SALEM, Or., Oct. 22.—(Special.)—Urging co-operation on the part of the State Railroad Commission, Chairman Prouty, of the Interstate Commerce Commission, has written in regard to the hearing which will be held in Portland before the examiner for the Interstate Commerce Commission tomorrow.

The hearing will be as to the practices of railroads in the weighing of both carload and less than carload freight. "Complaints from many quarters and from several branches of industry lead us to think that the weights upon which transportation charges are assessed at the present time are in many cases wrong and that improper charges and serious discrimination result," writes Chairman Prouty. "This commission desires in the first place to ascertain the facts, and, in the second place, to provide, if possible, some remedy for whatso-ever wrong may be developed. Since this is a matter in which the state and Federal authorities are alike interested, inasmuch as the weighing of state and interstate shipments are usually by the same methods and upon the same scales, we would be glad of co-operation of the several state commissions in the conduct of this investigation."

An Ideal Gift Book

NO book published in recent years has met with a more hearty reception than "The American Government" by Frederic J. Haskin.

It was exactly what people wanted—an accurate yet simple and interesting story of the actual work of the federal government.

It was what you wanted, it is what your friends still want. If you have enjoyed your own copy you will know that it is an ideal book for a gift.

If you have a friend anywhere between the ages of nine and ninety he will appreciate the gift of a copy of this book. Act now, before the great offer is withdrawn. For particulars see the coupon printed elsewhere in this issue.
