VOTE FOR BOURNE STAB AT PRIMARY

Speakers at Republican Rally Play and Expose Senator Seeking Re-election.

BACKERS ARE RIDICULED

"Popular Government Club" Scored for Upholding Man Who Is Called "Political Ringster" -- Selling's Ability Is Extolled.

Denouncing Jonathan Bourne as a foe of the direct primary, a violator of the corrupt practices act, a professional political ringster of the old school who had been forced to abandon his pose of prophet of the Oregon system because that system repudiated him at a regularly-called and conducted primary election, Dan J. Malarkey at the Chicago Theater Saturday night made a forceful attack on Bourne's Senatorial candidacy. "What in the name of common sense is the use of the direct primary if Bourne or anyone else can disregard its solemn and deliberate voice?" asked the speaker. "A vote for Jonathan Bourne is, I tell you, a stab in the back of the direct primary."

Mr. Malarkey read Senator Bourne's telegram, dated April 22, congratulating Ben Selling on his nomination for primary if it had not been for the third-party movement, on the wings of which he hoped to be again waded into office. "It was only when the third party began to take shape, when it looked as though Roosevelt intended to bolt if turned down at Chicago, that Bourne turned his face toward Oregon to obtain by some hook or crook the nomination of that party. Falling in this," Mr. Malarkey maintained, "set to work to incubate a 'call from the people,' forgetting the 'call' that the people had given him in the Spring not to be a candidate. The Bourne Popular Government Club was subjected to scathing ridicule. A number of its members were referred to, among them Dan Keltner and Graham Glass, and the real source of their contributions to the Bourne campaign fund was gravely questioned. It had been pointed out that there is nothing to prevent Bourne having put up the money that his friends subscribed. Bourne's charges against Selling that the latter has violated the corrupt

HERALD'S CANVASS INDICATES WILSON

Eleven States, Including Oregon, Are Counted in Doubtful Column.

LITTLE CHANGE IS NOTED

Candidates, as Shown by Straw Ballot, Are Relatively in Same Position as When Vote Was Taken in September.

NEW YORK, Nov. 3. (Special.)—Woodrow Wilson, next President of the United States, that is the deduction to be made from the New York Herald's canvass of the Nation. Wilson and Marshall are indicated by a great flood of test ballots gathered in 27 states, the Herald says. They are indicated by the conclusions of experienced political reporters who carried their inquiries into every county in every debatable state, getting information from men in all walks of life. Based on test ballots and personal investigations, the following analysis of the electoral vote is justified: Governor Wilson 369, President Taft 27, Mr. Roosevelt 7 and 127 doubtful.

Of the 27 states wherein test ballots were taken Governor Wilson leads in 25, President Taft leads in five and Mr. Roosevelt in six. In the same group of states Mr. Roosevelt runs second to Governor Wilson in 13 and President Taft in five. The total number of votes taken throughout the country reached the imposing figure of 319,321, of which Governor Wilson received 123,728, or 38.75 per cent more than Mr. Roosevelt and 67,499 more than Taft. A significant and interesting feature of the straw vote table is that the relative strength of the three leading nominees is about the same in the closing days of the canvass as it was early in September. For instance, Taft was polling 21.6 per cent of the test ballots when the first tabulation was made in September. He gathered in 20.5 per cent of the last vote cast, showing him to be a shade weaker than he was. Mr. Roosevelt started by getting 30 per cent of the ballots. As the campaign ends, he draws 30.6 per cent.

Actual Relief Is Assured for Rheumatism Sciatica and Neuritis

If you could spend a half day in our store and hear the words of thanks--the homely expressions of gratitude from people who have not been free from pain before for years, you would understand our enthusiasm and our earnest desire that every sufferer within reach should learn of this new prescription, "Nurito." It is not a patent medicine, and it does not contain the slightest trace of narcotics or opiates. A physician of extensive practice in New York is responsible for this purely ethical prescription. His brother physicians have taken up the use of it and its fame has extended until it reaches from coast to coast. "Nurito" has done so much in relieving cases of the longest standing--cases which other remedies have been unable to relieve--completely banishing the uric acid from the system and thus removing the cause of all rheumatic diseases, that it sounds too good to be true. But it is true. We will show you proof backed by affidavits--testimonials from people who had despaired of ever being cured. We want those sufferers who have well-nigh given up hope to call, telephone or write us for "Nurito." We give you positive assurance that you will secure complete relief by its use. A \$1 box will convince you. "Nurito"--a clean, legitimate prescription, measures the greatest progress ever made in fighting the terrible suffering of rheumatic diseases. In fairness to yourself, try it. Magistral Chemical Co., Flatiron Bldg., N. Y. For Sale at All the Leading Drug Stores
