UNIVERSITY AID IS ASKED Republican County Committee Appeals to Legislators for Support.

Through the adoption of resolutions Through the adoption of resolutions at a meeting Thursday night, the executive committee of the Republican county central committee appealed to the Multnomah County members-elect of the State Legislature to advocate and support legislation that will make adequate provision for the needs of the University of Oregon on some practical businesslike basis. The resolutions included the following:

businesslike basis. The resolutions included the following:

In closing the work of this campaign, the executive committee of the Republican County Central Committee appeals to the legislators elected from Multnemah County to advocate and urge the enactment of laws wheth will make adequate provision for the needs of the University of Oregon according to some orderly, settled and businessifike plan. It is inconceivable that the people of the state desire to cripple this splendid institution or impair its usefulness, and the failure of the particular measures voted upon at the recent election ought not to be construed as a decision against reasonable and proper support for it. We are confident that the people at large believe in the university and are loyal to it as one of the main instrumentalities for the mental and moral development of the community and the solution of the social and economic problems of the day; and we believe when it is realized that the university has been deprived of funds actually and urgently needed, the people will not only be willing but will demand that the need be supplied it ought to be supplied promptly, reasonably and according to some well-considered, permanent and adequate plan.
