Suspects in Diamond Robbery Are Trailed to Hotel, Where They Put Up Fierce Battle Until Guns Are Empty.

NEW YORK, Nov. 18 .- A man and a woman stood in a small room of a Raines Law hotel in the Bronx tonight and deliberately shot down three detectives and two other men who were

trying to place the pair under arrest. After nearly emptying the 11 chambers of a large automatic revolver, reinforced by shots from an ordinary revolver in the hands of his woman companion and probably fatally wounding four of those whom he shot down, the man shot and killed the woman and then put a bullet through his own head, dying instantly.

Stories of Affray Conflict.

This is the outline of one of the ost serious shooting affrays the detectives of this city have run into so far as these conflicting stories of the shooting had been sifted tonight.

The dead man is known by several names, having registered at the hotel as Joseph Vogel. The police declare he is a Pole named Pheres Doragyeski. The woman had registered as Lottle Vogel,

Vogel was 45 years old and the woman about 25.

The detectives were on the trail of the pair, suspecting them of having been accomplices in a diamond robber for which Sophie Beckendorf, a domestic, had been held for the grand jury today. The woman who had lost the jewels traced the girl to Vogel's house and told the detectives of her discovery.

Justice McKenna delivered the unanimous opinion of the court.

In accordance with this decision the ourt struck down as illegal the "liense agreements" by which manufacturers of 85 per cent of the sanitary enameled fronware in the United States were bound together in combination.

Agreement's Terms Explained.

The license agreement allowed the manufacturers to use a patented dredger but only on condition that they abide by an attached price list, would not sell to jobbers who bought from independents, would not sell in certain territory and would not sel seconds.

Officials of the Department of Justice were elated over the decision which, it is said, will have an import ant bearing on several investigations now under way as well as on antitrust suits already filed against the Funeral of ex-Gove nor Terrell Held so-called "moving-picture trust," and the United Shoe Machinery Company. Ruling Deemed Important.

The decision is regarded as important because of the Government's assertion that the "natent license agreement" plan was being adopted by many concerns as a result of the plan, as exemplified in the case of the Standard Oil Company of Ohio; the "holding company" plan as declared invalid in the Northern Securities case and the combination of a holding company and a manufacturing company as shown in the Standard Oil and tobacco
