Witness Against Gibson Sure Mrs. Szabo Died From Compression of Throat.

Man Who Stood on Lake Shore, 700 Yards Away, Says Lawyer Overturned Boat After He and Woman Fell Out.

GOSHEN, N. Y., Nov. 20 .- Dr. G. O. King, a physician of Hudson County, New Jersey, testified for the state today in the trial of Burton W. Gibson, attorney for Mrs. Rosa Menschik Szabo, that Mrs. Szabo met death in Greenwood Lake July 16 last from strangulation. Of this he was positive, he said. He was equally sure, he continued, that strangulation was caused by compression on the throat.
"How long would one have to press
against the throat to cause death?" asked Assistant District Attorney Waservogel.

Touching of Nerve Fatal. "If a certain nerve were touched, death probably would be instantanehe replied.

Early in the day John Minturn, an eyewitness of the tragedy, swore that eyewitness of the tragedy, swore that he saw Gibson place an arm around Mrs. Szabo's neck and thrust his hand to her throat. This was while Gibson and the woman were in the boat, 700 yards from the shore. They hoth fell out, Minturn said, and Gibson swam to the boat, overturned it, and then apparently tried to pull the shirt of his bathing suit over his head. The defense maintains that the drowning woman tore the shirt from Gibson's back.

Woman's Money Drawn From Bank. Four clerks from one banking institution testified that within three weeks after the tragedy, Gibson, as Mrs. Szabo's executor, had drawn her bank deposits, amounting to \$7397. A clerk from another bank said Gibson had tried in vain three times to obtain \$3052 on deposit in Mrs. Szabo's name in the bank. This witness said Gibson told him Mrs. Szabo had died of kidney disease and heart trouble. Other witnesses testified variously that Gibson had told them after Mrs. Szabo's death that she had gone to Chicago and Boston; that she was Chicago and Boston; that she was away on a honeymoon and that she had sailed for Europe.

One doctor in Dalias, Tex., frankly informed the inspector who sought his services that if caught by the authorities it would cost him \$5000 to get away and that, as his caller was as ideep in the mud as he was in the mire, it would cost him a similar sum. Representing himself as one who desired to engage his services, an inspector interviewed a suspected physician in a Texas city. The doctor could not be induced to commit himself. Then the caller, in apparent despair, began to weep copiously. The doctor patted him on the back and soothingly:

Stenographer for Ironworkers' Union Tells of Fear of Its Officials.

Another of McNamaras Declared to Have Forced Way Into Room in Search of Papers - Eckhoff Refuses Job of Killing.

INDIANAPOLIS, Nov. 20 .- Miss Mary C. Dye, a stenographer, who, witnesses had said, was marked for murder by James B. McNamara, the Los Angeles Times dynamiter, because she worked for the !ronworkers' union and "knew too much," testified at the dynamite onspiracy trial today. She said she had been followed by

detectives and on one occasion another of the McNamara brothers had forced an entrance to her room in a hotel to search for papers which he desired to destroy.

Miss Dye identified hundreds of letters introduced by the Government to sustain its contention that Frank M. Ryan, president of the union, and other

defendants conspired to transport explosives illegally in furtherance of dynamite plots against nonunion firms. The letters were written by John J. McNamara, secretary of the union.

The witness testified she quit the employ of the ironworkers before the Los Angeles explosion, but she had written many letters which the Gov-ernment charges were in furtherance of earlier explosions.

Metal Plates "THIS ONE THING I DO."

Although rubber or vulcanite plates are the most common, they are by no means the best.

Many people that are wearing rubber plates, and getting little or no satisfaction, lay their troubles to their mouth, and not the plate. That is not so. Rubber is a vegetable compound, and contains a polsonous coloring matter. This does not affect some mouths, while it absolutely ruins others. Plates made of aluminums metal always give complete satisfaction, as they are pure, clean, smooth, light and last a lifetime. Being a mineral compound, they have no harmful effect upon the tissues of the mouth. We make both swedged and cast aluminum plates in our office. We also repair all kinds of old plates.
