to live in amity. He earnestly requests the King to use his influence with his father-in-law, King Nicholas of Montenegro, and also with the King of Serbia to induce them to offer terms possible of acceptance.

Admiral Bettiolo, former Minister of Marine, in an interview, said that if Durasso were transformed into a commercial port, allowing of Italy's economic expansion from the Adriatic to the Danube, Italy could desire nothing better.

With respect to Avlona, Italy would never consent that that important port should be possessed directly or indirectly by a great power, much less that this commanding position should be transformed into a military base. In the hands of any other country than Italy it would so diminish the naval efficiency of Taranto the principal port to endanger Italy's strategic position on the Adriatic.

### LYNCH DENIES KNOWLEDGE

#### Typographical Union President Says He Did Not Discuss Dynamiting.

SYRACUSE, N. Y., Nov. 24.—Referring to the mention of his name Saturday in the testimony of Lindley L. Jewell, in the trial of the alleged dynamite conspirators James J. Lynch, of this city, president of the International Typographical Union, tonight made the following statement:

"The story as it comes over the wires is that a witness named Jewel testified that Hockin, one of the defendants, told Jewel he (Jewel) overheard a conversation between J. J. McNamara and myself in the lobby of an Indianapolis hotel, in which McNamara is alleged to have said: 'I can give you fellows pull something off on the Pacific Coast?' That I made a reply that was inaudible to Hockin, and that McNamara then said: 'Well, I can give you a man who has got the nerve, if you can get the money,' and that McNamara and I walked away together.

"This story has all the elements of sensationalism, both by implication and imputation. But the facts are, I never met McNamara in the lobby of an Indianapolis hotel, or any other hotel; that I did not meet Jewel, and to the best of my recollection never met Hockin.

"Furthermore, I never discussed Los Angeles or the Coast with McNamara, either in Indianapolis or elsewhere."

### ALBANIAN TOWN IS CAPTURED

#### Greece to Send Ships to Provision Servian Troops on Coast.

BELGRADE, Nov. 24.—The Servians have captured Ochrada, in Albania, without resistance.

In response to an inquiry from a Servian General as to whether Greece could provision the Servian troops operating along the Adriatic coast, the King of Greece has replied that he would be glad to testify to his admiration for the boundless bravery of the Servian army by sending Greek ships for that purpose.

Detailed reports have been received of the battle which preceded the capture of Monastir, which is described as the bloodiest of the whole war. They say that Zekki Pasha escaped in the direction of Florin and Djavid Pasha towards Lake Presta, where he is in hiding, and that Fetchi Pasha, who occupied the center position immediately before Monastir, retired with his defeated army toward Rema, but was overtaken and killed and his army routed.

The Servian troops managed to cross the Cherna River with the greatest difficulty and at heavy cost, as the Turks were strongly entrenched on the banks. The Servians had to take position after position at the point of the bayonet in desperate hand-to-hand fighting.

### AUSTRIA READY FOR ACTION

#### Definite Policy, if Servia Should Not Yield, Mapped Out.

VIENNA, Nov. 24.—The official explanation for the censorship recently established here is that the Austrian government does not wish to alarm the people unnecessarily by the spread of false or exaggerated reports. The reason seems to be that decisive action has been planned should Servia refuse to yield and that war preparations have been made for this purpose and also as a counter move to the Russian mobilization.

While the mobilization of Austrian forces is denied officially, it is admitted precautionary measures have been taken to bring certain units to a peace strength.

The Neue Freie Presse says that by the retention of time expired men and the reservists called up for exercise nearly all the 11 Russian army corps located near the Austro-German frontier now approach war strength. It adds that one army corps and one cavalry division have been removed from the interior of Russia to the frontier of East Galicia and that the war material of all these corps have been considerably increased.

### HEROINE WORKS AMONG SICK

#### Swiss Woman and Scotch Pastor Enter Cholera Camp.

CONSTANTINOPLE, Nov. 24.—Because the Red Crescent volunteers have failed to take up the work of relief, Right Rev. Robert Frew, a Scotch pastor in Constantinople, and Miss Ait, 69 years old, who for many years has been connected with English and American mission work in Turkey, have taken quarters in the cholera camp and will devote themselves to the care of victims.

Many of the doctors have refused to treat cholera patients, asserting that they are surgeons, not physicians. At present there is only one volunteer doctor working at the camp—Major Clyde S. Ford, Medical Corps, U. S. A., who with the secretary of the American embassy, Hoffman, Philip, and Maurice Barling an Englishman, goes to San Stefano every day for relief work. This is simply cleaning up the camp, yet Major Ford has given up

### AUSTRIAN CRUISER DEPARTS

### RECRUITS GO TO GARRISONS

#### Seasoned Troops Relieved for Duty if Peace Should Fall.

SOPIA, Nov. 24.—After 21 days' training the 1912 recruits will leave Sofia tomorrow for garrison duty in Macedonia, where a majority of the Greek and Servian forces are held in readiness to go to Thatalja in event of failure of the peace negotiations.

### BETTER FEELING PREVAILS

#### Austro-Servian Tension Appears Somewhat Relieved.

LONDON, Nov. 25.—The political situation between Servia and Austria has undergone no material change, but on the whole a rather better feeling prevails here, says the correspondent of the Daily Telegraph at Belgrade.

### ENGINEERS WIN PART

#### Arbitrators Emphasize Necessity to Protect Public.

WASHINGTON, Nov. 24.—Thirty thousand locomotive engineers on 52 Eastern railroads gain a partial victory in their demand for more wages, under the award announced today by the board of arbitration.

### PEOPLE ARE PARAMOUNT

#### Creation of State and Federal Wage Commissions Suggested as Remedy—Morrisey Calls Plan Impracticable.

The board holds that the public, which had no voice in the controversy, had more at stake than the engineers or railroads and emphasizes the necessity of plans to safeguard the public against the possibility of a future strike.

### WAGE COMMISSIONS SUGGESTED

#### The board advocates the creation of Federal and state wage commissions.

The representative of the engineers on the board, P. H. Morrisey, dissented from this suggestion, which, he said, in its effect virtually meant compulsory arbitration and was wholly impracticable.
