#### Pardoned Forger in Automobile First to Greet Lawyer Leaving Prison.

### WIFE WAITING AT HOME

#### After 12 Years' Incarceration, Man Who Was Three Times Sentenced to Die Says He Feels No Venom Toward Anyone.

NEW YORK, Nov. 28.—Albert T. Patrick, thrice sentenced to death in the electric chair and a life prisoner in Sing Sing for the murder of William Marsh Rice, ate his Thanksgiving dinner at home in New York tonight—a free man. Pardoned yesterday by Governor Dix, he was released from the prison at 4:25 o'clock this afternoon and less than two hours later was in the arms of his wife at the home on Clermont avenue.

"I expect to continue my fight for vindication and to clear my name," the pardoned lawyer announced just before he left the prison. "I have been nearly 12 years in prison—18 months in the Tombs in New York and more than 10 years here—and I feel that I have lost my perspective of what has been going on outside.

**No Revengeful Feeling Held.** "Judgment dictates that I regain my perspective before I return to my future plans, but you may say that I shall never cease my efforts to clear my name until I have been successful.

"I do not feel venomous toward anyone. My philosophy teaches me differently. All I can say is at present I am going to my wife, who is sick and failing."

Through the "underground telephone" of the prison work quickly reached the prisoners that Patrick was to go free and when the lawyer sat down to the Thanksgiving dinner there were many to give him a handshake of congratulation.

**Wife Waits in New York.** Patrick's wife waited for him in New York. At the prison door with an automobile was a man who had been working faithfully for the prisoner's release for a year. He was Thomas Misher, of Peekskill, N. Y., former cellmate of Patrick, a forger, pardoned a year ago. During his incarceration he and Patrick became close friends.

Cheers from a crowd of several hundred persons greeted the pardoned lawyer when the automobile drew up in front of his home in New York, but the greeting passed unheeded by Patrick. On the threshold stood his wife. Ten years ago, on the eve of the day when Patrick was sentenced to die, the pair were married in the Tombs.

### ROAD FUNDS ASSIGNED

#### REPRESENTATIVE HAWLEY INFORMED OF ALLOTMENT.

Ten Per Cent of National Forest Receipts Amounting to \$17,000 to Be Expended on Trails.

SALEM, Or., Nov. 28.—(Special.)—As an active member of the committee on agriculture, Representative Hawley has been endeavoring to secure ample funds for the construction of roads through the National forests at Government expense. The last appropriation act, which he aided in framing, contained a provision that 10 per cent of the revenues from the National forests in Oregon should be used for this purpose. The Representative has just received a letter from the Secretary of Agriculture advising him that \$17,000, to be applied as follows:

Location	Amount
National Forest and name of project.	Allocated.
Cascade-McKenzie Bridge-Sisters.	\$1200
Crater-Anderson Creek.	1800
Malheur-Carlin's Mill Flat Prairie.	1150
Ochoco-Prineville-Mitchell (also \$1500 for contracting and individual contributions).	1200
Oregon-Zigzag.	250
Santiam-Nasara-Detroit.	2500
Siskiyou-Rogue River Trail.	1200
Umatilla-River Trail.	1100
Shawnee-Cape Perpetua (county also to contribute).	2000
Umatilla-Ellis-Ukiah.	240
Wallowa-Grouse Creek (co-operation expected).	1500
Wenaha-Short road through section 6, township 3 south, range 38 east.	225
Whitman.	1600

The balance of \$946.31 is not allotted, being reserved as an emergency appropriation to be used if needed. In addition to the above amounts for public road construction in the state, Mr. Hawley also secured an appropriation of \$6000 of the regular permanent fund to be used for the purpose of continuing the improvement of a road connecting Ashland with a mountain bearing the same name, a few miles distant in the Crater National Forest. This makes a total of more than \$23,000 that has been secured for road construction within the National forests of Oregon during the present fiscal year. This does not include the special appropriation of \$50,000 for beginning a permanent system of roads and trails in the Crater National Park which appropriation was secured during the last session of Congress. The law also provides that 25 per cent of the receipts of the National forests shall be paid to the public school and road fund of the counties in which the forests are located, and this will make additional funds for Oregon.

### ROADS SIGN AGREEMENT

#### Two Lines Clash at Eugene When Boxcar of Brick Halts Way.

EUGENE, Or., Nov. 28.—(Special.)—A boxcar, loaded with 20,000 pounds of brick, and a trolley, quickly brought to a halt at the junction of a high-tension power line pole and spiked ties, put across the proposed line of the Willamette Pacific by the Oregon Electric today, quickly brought the Harriman line to the point of signing an agreement for maintenance of the crossing of the two lines, a short distance outside the limits of Eugene.

Temporary track is being laid by the Willamette Pacific to a point three miles west of Eugene, and the trolley yard will be established for the Portland, Eugene & Eastern. When the track laying gang reached the Oregon Electric crossing this morning the trolley were ordered off the Hill line right of way and shortly after noon a few falls were laid and the two cars run out alongside the Oregon Electric main line in a way to prevent the trolley from crossing iron. In the meantime Willamette Pacific rail laying was continued up to the other right of way, and a second trolley was thrown over the fence on to the Oregon Electric land to fill some depressions. There was no disorder and late tonight C. A. Hardy, local agent for the Oregon Electric, was notified that the crossing agreements had been signed in Portland.

### LARGE TREES ARE FOUND

HOOD RIVER, Or., November 28.—(Special.)—"In the forest reserve between the headwaters of the West Fork of Hood River and the Bull Run Lake are some large trees, bigger than any I have ever seen anywhere else in the Northwest," said George T. Frather, a pioneer newspaper man and orchardist of the Hood River valley. His attention was first called to the giants of the forest about 15 years ago by L. Ferdinand Floss, of Latourelle, who made a visit every summer to the Northwest base of Mount Hood. Mr. Floss at that time had a communication in The Oregonian relative to the trees.
