

CLARK FINDS TIME FOR ACTING SHORT

Speaker Says Congress Will Have Only 26 Days for General Legislation.

PLANS ARE NOT DEFINITE

Republican Senatorial Caucus to Determine Action on President Pro Tem to Have More Than Usual Interest.

WASHINGTON, Nov. 29.—How to dispose of one billion dollars' worth of annual appropriation bills and transact all other general legislation in 26 days is the problem worrying Speaker Clark and his associate managers of the House of Representatives.

Republican Leader Mann, just back from Panama, dropped in today to greet the speaker and discuss prospects for the three months' session.

"We did not make any plans for the session," said Mr. Mann later with mild cynicism. "The truth is the Democrats, now they have come into power, are afraid to do anything important at this short session for fear it will put them on record for the future."

Actual Working Days Few.

Speaker Clark agreed that no plans for the future had been considered, but he took a different view of the reasons why no general legislation of importance is likely to be enacted at the winter session.

"There are actually only about 26 free days for work on appropriation bills and general measures," said the speaker. "There are 52 days in the session. Take out 13 Sundays, 14 for the Christmas holidays; 13 Mondays, which are devoted alternately to District of Columbia and pension legislation; 13 Wednesdays, which are given by ironclad rule to bills on the regular calendar; and 13 Fridays, devoted alternately to claims and private bills, and there are left but 26 unnumbered days for general work."

Members Arriving Rapidly.

Senators and Representatives poured into Washington today from all directions. Senator Gallinger, the Republican nominee for the office of President pro tempore of the Senate, is expected tomorrow and a Republican Senatorial caucus probably will be held soon after his arrival to determine whether the New Hampshire Senator shall be continued as the nominee or some one else chosen for the honor.

In case a caucus is held, there will be more interest in the personnel of its membership than in the subject of discussion.

Senator Dixon, of Montana, who was Colonel Roosevelt's manager, said today that he did not contemplate participating in another Republican caucus and Senator Potlatch has announced publicly his withdrawal from the Republican party. Other "Progressive" Senators have remained silent on this subject.

SENATE ASKS FIRST CHANCE

Democrats to Discuss Departure From Legislative Custom.

WASHINGTON, Nov. 29.—Representative Underwood, Democratic floor leader of the House, who he expects tomorrow his conference with House associates over the plans for tariff revision next spring, will be met with a suggestion from Senate Democrats that the Senate have first hand chance at the framing of the tariff bills for the Wilson Administration.

A plan for co-operation between the Democrats of the two houses, which has been advocated for some time by Senator Smith, of Georgia, and other members of the incoming members and has secured considerable support.

Members of the ways and means committee here have not gone on record thus far, but Chairman Underwood will be urged to make the Senate an integral part of his tariff machine from the beginning of work on the bills for the special session.

The origination of tariff bills belongs exclusively to the House, the Senate settling the measure only after the House has completed them. Democratic members of the Senate finance committee are urging that that body and the House ways and means committee be converted, informally into a joint body and that the two houses work in harmony from the beginning of the tariff legislation next summer.

WAGE INCREASE GRANTED

Jackling Makes Condition That Copper Shall Be Above 17 Cents.

SALT LAKE CITY, Nov. 29.—A wage increase of 20 to 25 cents a day, effective December 1, was announced today by D. C. Jackling, general manager of the Utah Copper Company.

In making the announcement Mr. Jackling said that production from the mine at Bingham had reached the normal capacity of 20,000 tons a day, although the strike declared by the Western Federation of Miners still is in effect.

The wage increase applies particularly to pit men, track men and laborers and is to continue only while copper remains above 17 cents a pound.

MATING HELD IMPORTANT

Professor Says Success in Life Depends on Choice of Wife.

CHICAGO, Nov. 29.—Professor William C. Bagley, of the University of Illinois, believes that a man's selection of a wife plays an important part in his success or failure in his chosen vocation. Speaking before the Central Association of Science and Mathematics Teachers, Professor Bagley said today:

"If a boy were consulting me about what occupation to take up, I would not make my inquiry by applying physical or mental tests. I should ask him if he had selected a prospective partner for his joys and sorrows. I should then request a few minutes' interview with her."

DIXON IS "PROGRESSIVE"

Roosevelt Manager, However, Is "Republican" in Record.

WASHINGTON, Nov. 29.—An effort was made today by Senator Dixon, of Montana, to record himself "Progressive" instead of "Republican" in the new issue of the Congressional directory.

He found, however, that all of the body of the edition had been printed. The Senator said the change would be made in the next edition of the book.

Turks Retire at St. Marie.

A dispatch from Athens to a news agency says a message has been received there from the Turkish island of Chios off the West Coast of Asia Minor, that the Greeks have occupied a position at St. Marie, the Turks retreating.

"The government is actively preparing for a possible rupture of the peace negotiations and a resumption of hostilities," says the Daily Telegraph's Constantinople correspondent. "The streets again are swarming with soldiers. The Lule Burgas veterans are preparing to return to the front, and the Redifs are marching to barracks to be provided with uniforms and equipment. The great square in front of the Ministry of War is a veritable camp, where thousands of recruits are awaiting orders to march."

Preparations Not Peaceable.

"If hopes of peace are entertained there certainly never have been more ardent preparations for war. Since Thursday the government has been observing such complete silence regarding the pour parleurs that even the ambassadors are absolutely lacking in knowledge of their precise position."

"In any case, there is no indication that the Bulgarians have abandoned their principle for the surrender of Adrianople. The government journal Sabah declares that Adrianople must not be an Ottoman Alsace-Lorraine. The article indicates great change in Turkish hopes by advising the Bulgarians to content themselves with the acceptance of frontiers."

A dispatch to a news agency from Vienna says a message received there late tonight from Belgrade declares the citadel in Belgrade has been mined and it may be blown up on the entry of foreign troops.

A majority of the trades people, officials and leading manufacturers of Belgrade, by government order, have removed to Nish and Leskovatz and others are prepared to leave the Serbian capital.

BULGARS CAPTURE 9000 TURKS

Report of Staff Gives Proof of Secrecy of Operations.

BY FREDERICK PALMER (Copyright, 1912, by the New York Times Company.)

MUSTAPHA PASHA, Nov. 29.—The Bulgarian staff announced the capture yesterday of a body of 9000 Turks under Traver Pasha, which was operating in the region of the Kirjali Mountains. This is a proof of Bulgarian military secrecy. The existence of this force was unknown outside military circles before it was cut off, isolated and driven by a surrounding force to the bank of the Maritza River, where it was compelled to surrender.

While investing this separate force the Bulgarians were able to advance their lines on Adrianople. They now have additional troops for the siege released. Though peace is expected, there is no official news of it here.

Packages Stolen From Mail Worth \$140,000 Unearthed.

LOOT IS IN DUMP PILE

Laborers Make Find and Earn \$1000 Reward—Paper Taken July 5 and Insurance Paid Two Weeks After Robbery.

KANSAS CITY, Mo., Nov. 29.—Bonds having a face value of \$140,000, together with checks and a small amount of coupons that disappeared here July 5 last when two registered mail sacks were stolen while en route from the postoffice to the railway station here, were found today on the city dump by three laborers.

The bonds were Waco City, Tex., paper, which at the time they disappeared from a mail trolley car en route to the railway station, were being shipped by the Commerce Trust Company, of this city, to the Guaranty Trust Company, of New York City. They were insured by an English concern for the full amount, \$140,000, which was paid two weeks after the disappearance. Police and Federal officials could find no clue as to what had become of the paper, and the insurance company offered \$1000 reward for its return.

Three workmen who live in shacks on the city dump will divide the \$1000 between them. While digging up sand last night to throw upon a fire that threatened their homes, they came upon the first of the sacks. They carried it to the Federal authorities. Officials set about digging for the other sack today, and uncovered it within a few yards of where the first was found. The bonds were in good condition.

Jewelry valued at \$500 and several dollars in currency and a number of small checks payable to bearer were missing from the first sack dug up. It was routed for Omaha, Neb., and Ogden, Utah.

CHINESE DEMAND FIRM

Sovereignty, Not Less, Over Mongolia Insisted On.

LONDON, Nov. 29.—A dispatch to the Daily Telegraph from Peking says it is reported in Chinese circles that the Russian minister is under orders to return to St. Petersburg to discuss the entire Mongolian situation with Foreign Minister Sazonoff.

A semi-official newspaper says the irreducible minimum of the Chinese government concerning Mongolia is that Chinese sovereignty, and not suzerainty, shall be recognized throughout Mongolia.

NOTED BUILDER IS DEAD

Edgar M. Noel Constructor of Extensive Undertakings.

BALTIMORE, Nov. 29.—Edgar M. Noel, widely known as a constructor of large buildings, was found dead in his home here today. "Dramatic poisoning" was given as the cause of death.

Among other extensive undertakings, Mr. Noel built the new Naval Academy at Annapolis, the City Hall at Chicago, the Fifth Regiment Armory in Baltimore, in which the last Democratic National convention was held.

out." Representative Henry said, "if the committee can be held down to 15 or 18 or 20 members. Under the Sherley resolution there will be 30 members of the committee, which would be too bulky, I believe."

While the Democratic Representatives planned a budget system at the Capitol, the President today spent two hours going over the estimates for the next fiscal year and planning the budget message which he will send in, with a sample budget statement to be prepared by the economy and efficiency commission.

"The House," said Mr. Sherley, discussing President Taft's proposal, "will never brook any usurpation of its power."

THE GREAT SUCCESS

VALLIANTS of VIRGINIA

By HALLIE ERMINIE RIVES

More thoroughly characteristic of its author than even her great success, *Satan Sanderson*, the new novel, *The Valliants of Virginia*, is Halle Erminie Rives from the first word to the last. Charming in atmosphere, original and striking in its character values, it should take high place among the Rives romances, if not indeed the highest place.

Never has its author shown a more ardent purpose, a more spirited execution, greater facility of treatment. It is richly and variously colored, and it is marked by the greatest dynamic energy and brilliancy of phrase.
