

ANGRY SENOR SEEKS ELOPING DAUGHTER

Beelee Feetch, Too, Is In for It if Nicaraguan Planter Overtakes Couple.

SENORITA IS BEAUTIFUL

Visit to Chicago Is Beginning of Romance—Father Intercepts Letter, but, Alas! It Is Then All Too Late.

NEW YORK, Dec. 5.—(Special).—Senor Fernandez Harlos, whose home is on a hacienda near Bluefields, Nicaragua, arrived today in search of his daughter, Dolores, and Beelee Feetch. The latter is better known to his friends as William S. Feetch, and he is suspected of having eloped with Senorita Harlos from her Central American home.

The Harlos have relatives in Chicago, and what more natural, exploded the senior than that the daughter of the house should venture into the land of the Gringos with a duenna to visit her kin. The seniorita, of course, is beautiful. In Nicaragua the duenna is protection against ogling young men, but these American relatives, they have forgotten the customs of the Southland.

Enter, Beelee Feetch. At the duenna they laugh—ha, ha, ha; and there enters into the tragedy this Beelee Feetch. Alarmed at last, these careless relatives have notified Senor Harlos, and he has sent for the daughter and she has returned, but the Beelee Feetch is crafty. Silly, he obtains the address, and without consulting the wishes of Senor Harlos, writes to Senorita Dolores.

At the next hacienda Senor Juan Trujillo, favored of Senor Harlos, lives in joyous anticipation of the time when his establishment shall be graced by the sparkling daughter of the hacienda Harlos. All is well and then Senor Harlos discovers a letter. The language of the gringos is like the Sanskrit, even harder to comprehend when written upon paper than when voiced; so there comes an interpreter. Senor Harlos is a man of resources.

"Forgive" Is Word Unknown. Learning from the interpreter that the wily Beelee Feetch is villainously beseeching Senorita Dolores to elope, Senor Harlos faints. He is a man of strong heart, but the blow is too great.

When he recovered the worst had happened. The Senorita is gone and upon the inland table lies a note in which she says she has gone to Bluefields to meet her Beelee and take the steamer northward.

"But will you not forgive them if you find they are married, give them your parental blessing?"

"Oh, no," cried the Senor Harlos, "and he started up Broadway in a mood of likely looking gringos who might be Beelee Feetch."

RAILWAY ENTERS MAY 1

Sandy Prepares to Welcome Multinomial Central.

GRESHAM, Or., Dec. 5.—(Special).—

The town of Sandy expects to welcome the advent of the Multinomial Central Railroad May 1. The right of way from Cottrell, six and one-half miles, to Sandy has been cleared and grading will begin in a short time. Two by Fros have the contract for grading and construction and, with their equipment, could do the work in 90 days, but expect to be delayed somewhat by inclement weather.

E. R. Ernberger, president of the company, said a few days ago that the first work to be undertaken would be the building of the bridge across the gulch just west of Sandy. The length of the structure, including the approaches, will be 1700 feet, requiring 21,000 feet of piling.

Sandy will have a depot building, which will be a duplicate of that at Gresham. Other depots along the line will be uniform with those on the Mount Hood road.

Beyond Sandy as far as Cherryville all the right of way has been obtained except that running across six farms. Many of the settlers have donated the right to cross their property.

Cherryville is seven miles beyond Sandy and there is good assurance that the road will reach there next year.

JAIL BURNS, 2 BOYS DEAD

Lads Locked Up for Drinking Unable to Attract Help.

PRICE, Utah, Dec. 5.—(Special).—

Confined in the city jail and unable to attract help, Milburn and Clarence Alfred, aged 14 and 18 years, were burned to death last night. When the bodies were found this morning the fire had burned out.

The boys were sons of a freighter who drove in from Vernail. They had been drinking, and Marshal Burner locked them up for the night. There was a stove in the jail and it is supposed that the lads ignited their bedding while lighting cigarettes.

A meeting was held in the Electric building last night at which employees of the Portland Railway, Light & Power Company were present, to arrange for the organization of university extension classes for the staff of the company. Professors Rebec, McAllister and Deeborn, of Oregon University, gave every assistance in the framing of suitable classes, which would meet with the most general approbation of the members. Three classes were formed, one in mechanical engineering, one in electricity and the third in English, with especial reference to oral and written expression. Definite work will be commenced early next week.

SALEM, Or., Dec. 5.—(Special).—Bliss Darby, of Glendale, has been appointed a member of the State Board of Pharmacy by Governor West to succeed Dr. A. H. Brown, of Portland, who resigned. The resignation of Dr. Brown was asked by the Governor, it being alleged that Brown employed in one of his drug stores as a pharmacist one who was unlicensed under the laws of the state.

LOUIS XV PANTOMIME ON

"La Camargo" Tells by Motion of Great Dancer's Intercession With Her Sovereign in Behalf of Young Condemned Soldier.

NEW YORK, Dec. 5.—(Special).—

Adeline Genee, who is now Mrs. Isitt, came back on her toes at the Metropolitan Opera House and astounded and charmed a great audience that filled the house.

She brought forward a dance pantomime, written and arranged for herself and permitting her to impersonate "La Camargo," dancer extraordinary at the court of Louis XV.

This dance episode is recounted as the intercession of La Camargo with her sovereign in behalf of a young soldier condemned because he struck an officer of his regiment. The officer had sent an insulting note to the dancer and had also spoken of her not to the liking of the subaltern. La Camargo danced for the King and then begged him to sign a pardon, which he did.

To describe her dancing would be an attempt to picture a filigree of scintillating dew, sparkling with color in the sun upon its web amid grass of the fields on a May morning. The dancing was a thing of gossamer and evanescence.

HEARINGS BEGIN SOON

COMMITTEE TO TAKE UP TARIFF NEXT MONDAY.

Opinion Favors Separate Measures on Leading Schedules—Trust Issue to Come Next.

WASHINGTON, Dec. 5.—Tariff and trusts will soon be receiving attention in Congress and for the purpose of preparing for the actual work of legislation on these subjects by the next Congress, the ways and means committee will hold its initial meeting next Monday.

It is expected that a series of tariff hearings will begin about January 8 and extend over six weeks. The hearings will be by schedules, a date being set for hearing those interested in the chemical schedule and subsequent dates being arranged for the hearings on the various other schedules and the free list. In this way it is expected most of the preliminary work may be in hand by the end of February.

BOARD IN SESSION AS RAID IS MADE

Ironworkers' Official Guarding Vaults Denies Knowing of Explosives.

\$1000 CHECK IS MYSTERY

Though Member of Auditing Committee, Legleitner Says He Did Not Pass Upon Payments Made to McNamara Fund.

INDIANAPOLIS, Dec. 5.—Scenes about the ironworkers' National headquarters when J. J. McNamara, the secretary, was arrested six months after the Los Angeles Times explosion, were described today by Henry W. Legleitner, of Denver, a defendant at the dynamite conspiracy trial.

Legleitner said he and other members of the union's executive board were in session when the detectives entered. On instructions from President Ryan, he went to guard some vaults to prevent detectives from procuring papers until the union's attorney arrived, but he denied knowledge that any explosives were in the vaults which contained dynamite and infernal machines were taken later.

\$1000 Check Not Audited. At that time, Legleitner said, he was a member of the committee appointed to audit the union's finances. He identified a check for \$1000 paid to Olaf A. Tretmoe, of San Francisco, in August, 1910, two months before the Los Angeles explosion, but he denied passing on any checks giving McNamara \$1000 a month, which the Government charges was used for a "dynamiting crew."

Showing the witness cancelled \$1000 checks marked "set aside for organization purposes by order of the legislative board," which Legleitner said he had not passed upon, District Attorney Miller asked:

"Did you understand that President Ryan appointed you on that auditing committee as a fake or to cover up anything?"

"No," replied Legleitner. "Dangerous Job" Explained. Legleitner also was charged with having carried on a passenger train a nitroglycerin case from Pittsburgh to Indianapolis.

Other witnesses had testified about an explosion at McKees Rocks, near Pittsburgh, in July, 1910, and J. L. Jewel had testified that Herbert S. Hester reported a plot to blow up a bridge near Beaver, Pa. "When a loaded passenger train was passing."

In that connection the Government read a letter written by Legleitner to McNamara, which it was alleged related to proposed explosions near Pittsburgh. The letter said:

"I have made two trips to the Beaver job and find it too dangerous a proposition to get to."

Legleitner testified he meant he had visited the job on which nonunion men were employed and he found too many guards present for him to induce the nonunion men to quit work. He denied knowing anything about explosions.

KRYPTOK

FAR VISION Without Lines in the Lens

SEE THAT CURVE

Why Pasted Lenses Are an Annoyance to the Wearer

The old-style two-piece lenses are joined by means of paste or cement. Frequently the cement becomes cloudy, thereby seriously interfering with the vision.

Almost continually dust gathers about the edge of the reading wafer, and constant cleaning is necessary. And the very nature of the pasted lens makes its complete cleaning practically impossible.

The cement which holds the wafer also holds dust at the edges. This makes such glasses unsightly—as everyone who has been annoyed by the deficiencies of pasted lenses knows only too well.

Why put up with the imperfections and continual expense of replacing pasted lenses, when Thompson's Kryptok means complete and almost unimagined comfort and perfection?
