CHRISTMAN MAIL DELAYED.—With the exception of the delayed mails the Portland Postoffice is practically up to the usual delivery of all classes of matter although some packages have been delayed for the outlying districts. It is fully expected that by this evening's delivery the main office and all the substations will resume the regular service, but there is considerable delay in the arrival of mail from the East, in some cases fully a day late, and this is being handled as rapidly as possible on its receipt.

\$200 a Mile on Franchises.

While considerable opposition is expected in the Council meeting today to the valuation on the proposed general franchise grant to the Portland Railway, Light & Power Company, it is thought differences will be patched upand the grant sent to the City Auditor for advertising. This action will make it possible for the measure to come before the Council for final adoption or rejection at the first meeting in February and probably at the same time final action is taken on the proposed Fourth-street grant of the Southern Pacific, the Jefferson-street grant to the same company and the proposed Hill East Side common-user grant.

At this rate the city will receive \$4000 a year revenue or a total of \$100,000 for the 25 years the franchise runs. This is considerably higher than the valuation placed on any franchise granted the company heretofore.
