

FRENCH MAY PLAY BIG ROLE IN IDAHO

Representative May Be Used by Northerners to Win Over Southerners.

BRADY AND AILSHIE RUN

Ex-Governor and Justice Leading Candidates for Toga Formerly Won by Late Senator Heyburn.

BOISE, Idaho, Jan. 10.—(Special).—Representative French may play a more conspicuous and important part in the Senatorial contest in this state, now reaching a stage of great interest, than had been expected, for it developed here tonight that Northern Idaho legislators, in their determination to secure the toga for the short term and worn by the late Senator Weldon B. Heyburn, may finally center on French as the wedge with which to break into the south and around whom they believe the progressive Republican vote can be rallied.

The two men most prominently mentioned as possible successors for Senator Heyburn are ex-Governor Brady and Justice Ailshie, with the former conceded to be the strongest candidate.

The Ailshie forces are claiming tonight strength in North Idaho sufficient to make a showing of 15 votes on the first ballot. The Brady people claim the solid southeast and votes in the southwest, or a total of 25 in all. Both claims are believed to be exaggerated. It is asserted here now that the possibility of a "dark horse" becoming a factor is certain.

The Latah County delegation, pledged to French, claim that the "favorite son" will be the "dark horse" and that Idaho's Representative will show surprising strength. Neither Colonel Thomas H. Hamer, of St. Anthony, or C. W. Beale, of Wallace, are considered to be exceptionally strong candidates.

To-morrow many Senatorial caucuses will be held. Ada and Canyon counties will caucus jointly in the afternoon. Latah, Bonner and Nez Perce will caucus at the same time. Later, and probably in the evening, several of the northern and southwestern counties will caucus, following which a general caucus of progressives will be held.

The announcement of E. H. Dewey, of Nampa, as an active Senatorial candidate is expected today. Senator Borah telegraphed friends here today he will be unable to be in Boise next Tuesday, when he is re-elected to a second term.

COUNTY DIVISION IS SOUGHT

Many New Bills Are Offered in Idaho Legislature.

BOISE, Idaho, Jan. 10.—(Special).—The Twelfth Idaho Legislature was showered with bills today, immediately following the organization of the House. Many of the measures call for the most pronouncedly progressive legislation.

The Senate passed the \$63,000 legislative appropriation bill to pay expenses sent it to the House, from which it originated, and the measure was forthwith passed to Governor Haines for his signature, thereby placing the lawmaking body on a paying basis.

The first Railroad Commission bill, calling for the supervision of all railroads in the state by a state commission, was introduced in the House by Representative Ferguson, of Bannock County.

Gooding, Minnedoka and Franklin counties were created on paper, when bills asking for their formation were introduced. Minnedoka and Gooding counties wish to be made up of territory in what is now Lincoln County. Franklin County seeks to be created out of Oneida.

Measures calling for the creation of two new judicial districts, one to be composed of Latah and Idaho counties and the second to be formed out of Adams and Washington counties, were introduced in both the House and the Senate.

The Bannock County delegation introduced a measure calling for an appropriation of \$100,000 for the Academy of Idaho, at Pocatello, through the sale of bonds. This measure, with a bill asking for a one-fourth mill tax levy to support the institution.

A joint resolution, introduced by Representative Ferguson, of Bannock County, calls for a constitutional convention.

Senator Edington, of Bonneville County, introduced a "Bismarck" law, copied largely from the famous Kansas law. The Senate adjourned until tomorrow and the House until Monday morning.

ROUMANIA RAISES HOPES

(Continued From First Page.) come from Italy, which Greece considered its supporter in the triple alliance. After outlining the claims of Greece to the islands, which, he says, were entirely Greek and had maintained their nationality through centuries of oppression and by enormous sacrifices to keep intact their national characteristics, one of the Greek delegates said: "The only plan ventured as a justification for refusing the islands to Greece is that Greece cannot possess all the islands because of the equilibrium never can exist while a territory belonging to our race is bathed by that sea under foreign dominion."

Stand Made for Islands. The Christian powers will have to employ their dreadnoughts and their cannon to drive out the Christian Greeks from their own islands, and hand them back to the horrors and tyranny of the Turks.

"Will the civilized world allow such an outrage? Would not America, the land of freedom where so many of our brethren have migrated, protest? That is what you will see.

"One thing is sure, no King of Greece and no Greek Premier will put his signature to a treaty containing among its clauses the abandonment of these islands. For the King it would mean abdication. As for Premier Venizelos, he never could return home."

The Greek delegates say they cannot imagine Italy is acting in her own interests regarding the islands, and suspect she is seeking to please Germany or Russia. Germany is supposed to aspire to a part of Asia Minor, and Russia long has had a desire to be master of the Dardanelles.

(Continued From First Page.) work at the time Chamberlain was elected Senator makes it practically certain he will have Chamberlain's support. McCusker received the Portland postmaster's backing because of the friendly relations that exist between him and Mr. Williams and, perhaps, because of the additional fact that his chances of confirmation are regarded as bright. Moreover, if Senator Forney makes the request that McCusker be confirmed the Senate probably will acquiesce, as it has shown a disposition to confirm postmasters in the home cities of Republican Senators.

The fate of other appointees is more in doubt. If the Democrats can carry out their programme, outlined before Christmas, none will be confirmed, but the Republicans are determined to break this deadlock and have a plan which they think will work.

It seems to be generally understood that Senator Bourne will give his consent to the confirmation of the men, and Senator Chamberlain has so altered his opinion as to lead to the conclusion that he will not protest against any of the men designated. At first Senator Chamberlain threatened to hold up all appointments which have been delayed, including that of Portland postmaster, Collector of Customs and Marshal, but when asked today if he would object to the confirmation of men nominated to these offices he said

WASHINGTON, Jan. 10.—"Keep the tariff as it stands or a hardship will result to American industry." That was the consensus of opinion by witnesses at today's hearing on the metal schedule of the tariff before the House committee on ways and means.

The committee heard reports of the lead and zinc producers of the West and Missouri, manufacturers of printing presses, machine tool manufacturers and others allied with the metal trades, all of whom presented a solid front against a revision of the present tariff rates.

Chairman Underwood said that the committee was legislating for revenue for the present and not flinching on what might happen in the future.

"This committee," he said, "cannot legislate on your fears and on conditions you say you expect. The committee ought to legislate to meet conditions as they arise."

Zinc and Lead Mines Menaced. George W. Cook, of Denver, representing the zinc and lead industry of Colorado, asserted that if lead and zinc were not produced in the United States, 100 producing mines and mills in 22 states would close down.

William Smythe, of the American Machine Company, pictured the German manufacturer as "rubbing his hands with delight" over the prospect of the removal of the duty on machine tools. He said the German manufacturer has special interest rates and added that Germany and England possess the great export trade of the world.

Smythe said sometimes there was a discount in favor of the foreign buyer, a lower price being given for expert business on the theory that it was hard to get the goods out of the country.

Underwood said that selling cheaper abroad than at home was a matter the committee had a right to look into and questioned the witness closely as to details.

Machinists Are Heard. Manufacturers and merchants united in opposing the placing of printing presses, that is, in supporting a reduction of the duty on printing presses. Hugh V. Reilly, representing the International Association of Machinists, Unions in New Jersey, and J. E. Bennett, of New York, representing 22 manufacturers, in support of a reduction would injure the workmen. Reilly volunteered the statement that he represented the sentiment of machinists all over the country.

OPINION FOR PRESIDENT

Underwood Says Committee Is Not Figuring on What May Happen in Future.

METALS ASK PROTECTION

Lead and Zinc Producers Declare Free List Would Close Map of Mines—Machinists' Union Fears Injury.

WASHINGTON, Jan. 10.—"Keep the tariff as it stands or a hardship will result to American industry." That was the consensus of opinion by witnesses at today's hearing on the metal schedule of the tariff before the House committee on ways and means.

The committee heard reports of the lead and zinc producers of the West and Missouri, manufacturers of printing presses, machine tool manufacturers and others allied with the metal trades, all of whom presented a solid front against a revision of the present tariff rates.

Chairman Underwood said that the committee was legislating for revenue for the present and not flinching on what might happen in the future.

"This committee," he said, "cannot legislate on your fears and on conditions you say you expect. The committee ought to legislate to meet conditions as they arise."

Zinc and Lead Mines Menaced. George W. Cook, of Denver, representing the zinc and lead industry of Colorado, asserted that if lead and zinc were not produced in the United States, 100 producing mines and mills in 22 states would close down.

William Smythe, of the American Machine Company, pictured the German manufacturer as "rubbing his hands with delight" over the prospect of the removal of the duty on machine tools. He said the German manufacturer has special interest rates and added that Germany and England possess the great export trade of the world.

Smythe said sometimes there was a discount in favor of the foreign buyer, a lower price being given for expert business on the theory that it was hard to get the goods out of the country.

Underwood said that selling cheaper abroad than at home was a matter the committee had a right to look into and questioned the witness closely as to details.

Machinists Are Heard. Manufacturers and merchants united in opposing the placing of printing presses, that is, in supporting a reduction of the duty on printing presses. Hugh V. Reilly, representing the International Association of Machinists, Unions in New Jersey, and J. E. Bennett, of New York, representing 22 manufacturers, in support of a reduction would injure the workmen. Reilly volunteered the statement that he represented the sentiment of machinists all over the country.

A large number of witnesses will be heard on the metal schedule tomorrow.

FOREST HIDES DORA DOXEY

Woman With Court Experience Marries Idaho Homesteader for Fourth.

OREFINO, Idaho, Jan. 10.—(Special).—Dora E. Doxeey, who was tried and acquitted in St. Louis in the Summer of 1910 on the charge of having murdered William J. Erder, a postal clerk, by administering poison, is now married to husband No. 4, Fred J. Whitney, of this city, and is living in a three-room log cabin on the edge of Clearwater forest.

After the death of Dr. Loren B. Doxeey last Summer, the widow came out West to make her home with Dr. Doxeey's sister, Mrs. M. E. Breckenridge. She arrived at Orefino, September 22, and three weeks later met Fred J. Whitney, aged 32, who lived with his father and uncle four miles from town. On November 25 the couple were married and young Whitney took his bride to live on his father's homestead.

Fred Whitney, the latest husband of Mrs. Dora E. Fuller-Downing-Doxeey-Erder-Whitney, was for a number of years an organizer for the Modern Woodmen of America. His wife is a nervous wreck, and she is now under indictment in Clayton County, Missouri, on a charge of bigamy. Mr. Whitney declares that he knows his wife's history. He said today:

"If the authorities will leave my wife alone for a year in this restful and beautiful place, I will have her completely restored to health, and we will go back East and face any charges they make."

SUSBAUER IS PRESIDENT

Sublimity Men Head Farmers' Fire Relief Association.

ELDERLY FOLKS! CALOMEL, SALTS AND CATHARTICS AREN'T FOR YOU.

Harmless, Gentle "Syrup of Figs" Is Best to Cleanse Your Stomach, Liver and 30 Feet of Bowels of Sour Bile, Decaying Food, Gases and Clogged-Up Waste.

You old people, Syrup of Figs is particularly for you. You who don't exercise as much as you used to; who like the easy chair. You, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active.

Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would do if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak, sluggish bowels is harmless, natural and gentle.

When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged-up bowels mean that decaying, fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with contempt, any other Fig Syrup unless it bears the name—prepared by the California Fig Syrup Company. Read the label.

These thirty feet of bowels suck this decaying waste and poison into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel washday; don't use a bowel irritant. For your sake, please use only gentle, effective Syrup of Figs. Then you are not drugging yourself, for Syrup of Figs is composed of only innocuous figs, senna and aromatics which can not injure. A teaspoonful tonight will gently, but thoroughly, move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with contempt, any other Fig Syrup unless it bears the name—prepared by the California Fig Syrup Company. Read the label.
