WOMEN HEAR TALK

L. M. Lepper Tells Club Folk of Panama Canal.

FORMER OFFICIAL SPEAKS

Portland Woman's Club May Take Action Relative to Jewish Women's Project to Aid Newsboys.

Mr. Lepper was superintendent of construction at the canal in 1904 and is thoroughly conversant with the conditions existing there and gave a vivid description of the country surrounding Panama. Stereoscopic illustrations added to the interest of the talk.

Several points not generally known were brought out by the speaker and the afternoon was conceded one of the most instructive of the club season.

As an aftermath of the recent institute held by the Multnomah County Women's Christian Temperance Union, there have been two new unions organized, one at Mount Labor and another on the Montaville line, and two others will shortly be established—one at East Twentieth and East Taylor streets and another at Piedmont.

addressed on "The Commission Form of Government." This is the second of a series of meetings arranged by the women who are anxious to get a knowledge of things political with a view to using their franchise intelligently. The meeting will take place in the Behm-Walker building, Fourth near Yamhill street.

The Women's Political Science Club met yesterday at the auditorium of the Medical building. The study of Phillip's "Nation and State" occupied most of the time. The club members are acquainting themselves thoroughly with matters relative to civics, economics and current events and have a department of parliamentary law. The club was organized just a year ago and will have its annual meeting and election of officers January 24. The membership includes a number of school teachers and prominent women. The officers are: Mrs. Margaret Fortner, president; Mrs. Mary Tutthill, vice-president; Miss Hazel Carlson, secretary; Miss Millicent Hansen, treasurer; Mrs. Anna Disabrow, auditor.

The last Wednesday in January is to be known as scholarship loan fund day.

TRIALS TO BE HURRIED

DISTRICT ATTORNEY INVESTIGATES PENDING CASES.

Announcement Made That Business Will Be Conducted Systematically Like Private Office.

District Attorney Evans Thursday made the rounds of the corridors in the County Jail and made a list of the prisoners being held there for grand jury action, for trial or as witnesses. His object is to arrange to have their cases disposed of as soon as possible. Mike Ogilby, under indictment on a statutory charge, has been in jail since October 30, the longest of any on the list, but Mr. Evans learned that Ogilby's trial had been deferred at his own request.

What the District Attorney did discover were a couple of prisoners concerning whom no record could be found in the County Clerk's office. It may be that these were bound over from the lower courts for grand jury action and that the clerks of these courts neglected to send up back transcripts and that their cases are on appeal and similar omission was made. Mr. Evans will determine this by further investigation.

Although the incident occurred before Mr. Evans took office, Richard Deich, one of his deputies, had been down in Municipal Court getting pointers on how to conduct himself when he became a deputy in the District Attorney's office, and remembered the case. Mr. Evans laughingly told Deich to forget about them and force them to write letters to the Governor or Circuit Judges asking why they have not been tried or liberated. I am going to try to fix that in my policy on a systematic basis like any well-managed private institution.

Owen Named Game Warden. PRAIRIE CITY, Or., Jan. 10.—(Special.)—A. G. Owen, of this place, has received the appointment of Game Warden of Grant County, the appointment taking effect January 1st.

Scott's Emulsion is the concentrated pure food-medicine to check this decline. It refreshes the body by making healthy blood and is nature's greatest aid to fortify the lungs and prevent tuberculosis. Scott's Emulsion makes energy, health and strength.

KEEPING THE BODY IN REPAIR

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life. Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.
