

WEST DISQUIETED BY CABINET RUMOR

Samuel Adams Is Man of Pinchot Stripe.

UNPOPULAR REGULATIONS HIS

Chicagoan Deemed Possible as Secretary of Interior.

POLICY HAS BEEN HOSTILE

Fisher's Assistant, Who Refuses to Enforce Borah Amendment, Looms Because Pacific States Failed to Unite.

OREGONIAN NEWS BUREAU, Washington, Jan. 12.—It is likely to prove unfortunate for the West that so many of its favorite names are expected to be Secretary of the Interior in the Wilson cabinet, and if the West loses this appointment, one of the contributing causes will be the multiplicity of Western candidates and the lack of concentration on some good Western man. Discouraging as is this prospect to Western Democratic Senators, it is not half so disquieting as the prevailing fear that Woodrow Wilson may select as Secretary of the Interior Samuel Adams, of Chicago, now assistant to Secretary Fisher.

Sam Adams is the conservationist candidate for the Interior portfolio. He is the man upon whom Pinchot, Garfield, Fisher and Glavis have united. In spite of the fact that all these Indorsers are Republicans, there is fear that the wishes of these men—not that he agrees with them politically, but that he does not want to invite their opposition as did President Taft when he appointed and retained Secretary Ballinger in his Cabinet. Assistant Secretary Adams is a Democrat, but his backers are largely Republicans.

LONDON GIRL LIKE VENUS

Dressmaker's Model Said to Measure Same as Famous Statue.

LONDON, Jan. 12.—(Special.)—London contends that it has a woman nearer the proportions of the Venus de Milo than Miss Seel of Brooklyn, in Miss Marjorie Watson, a West End dressmaker's model, whose measurements are vouched for by Ethel Bailey, a well-known artist. Her measurements are: Height, 65.75 inches; head, 22.4; neck, 13; chest, waist and hips, identical with the measurements of Venus de Milo; thigh, 22; calf, 13.4.

"Miss Watson's head is quite Grecian," Miss Bailey says. "Her complexion is perfect and needs no aid from art. She is a true type of English beauty. She has light brown hair and blue, laughing eyes."

Miss Watson says she has lived the ordinary life of other girls. She has never gone in for physical training, but rides a bicycle and swims.

PORTUGUESE PARTIES RIOT

People Forget Differences and Join in Attacking Troops.

LISBON (via the Frontier), Jan. 12.—The accession of Dr. Affonso Costa to power is said to be responsible for a desperate political riot in Coimbra, 15 miles south of Lisbon. A fight started between Democratic and Conservative clubs, and soon the rest of the population took sides. Revolver shots were exchanged freely.

Detachments of Republican guards hastily turned out, but failed to quell the combatants until several volleys were fired. Then the warring factions forgot their differences and together turned on the guard.

Discipline prevailed, however, and finally the mob scattered, leaving behind three men killed and 29 wounded. Many of the rioters were arrested.

BRITISH LINES COMBINE

Royal Mail and "P. & O." Are Amalgamated.

LIVERPOOL, Jan. 12.—The Liverpool Daily Courier says an agreement has been reached for the amalgamation of the Peninsular & Oriental Steam Navigation Company and the Royal Mail Steam Packet Company, with a capital of \$150,000,000.

Rumors were current in London at different times last year that the Royal Mail intended to acquire control of the Peninsular & Oriental, but on each occasion the report was denied. The Royal Mail, under the direction of Sir Owen Phillips, chairman, with Lord Pierce not long ago bought several companies, including the Union Castle Line, Lamport & Holt, Pacific Steam Navigation Company and the Elder Dempster line to West Africa.

CUPID'S QUIVER IS FACULTY'S TARGET

STUDENTS' INTERCOURSE AT EUGENE RESTRICTED.

Mandate, Framed by Dean of Women, Which Goes Into Effect Today, Arouses Indignation.

UNIVERSITY OF OREGON, Eugene, Jan. 12.—(Special.)—Dan Cupid received an unmerciful snubbing by the University of Oregon faculty in the regulations for the guidance of young women of the university announced yesterday. The shy love god will be forced to practice the utmost strategy to circumvent the new rules.

No young woman may enjoy the company of a young man except on Friday and Saturday evenings in the future, and Saturday evenings in the future, whereas formerly this restriction applied only to freshmen in the sorority houses. Afternoon calls hereafter may be made only between the hours of 3 and 5:30 P. M. on week-end days. Single couples must be in from boating or from suburban walks by 9 P. M. No parties may be given except on Friday and Saturday nights, and permission for these must be obtained from the committee on student affairs. Finally, university women must be in their rooms on week nights at 10:30 P. M., and on Friday and Saturday nights at 11 P. M.

These are a few of the mandates which have aroused a storm of protest on the part of both men and women at the university. Love and courtship, elements which it is indignantly asserted, quite properly enter into the life at co-educational institutions, are entirely ignored by the faculty. The new rules, it is maintained, make it almost impossible for a young man and young woman to enjoy each other's society exclusively.

The new restrictions were framed by Miss Ruth Guppy, dean of women at the University. She declares they are reasonable and were planned for the best interests of her charges. They will go into effect tomorrow.
