

TOURIST RATES UP FOR ALTERATIONS

Plan to Make Round-Trip Summer Tickets Apply Daily Divides Officials.

PRESENT SYSTEM ABUSED

North Pacific Coast Passenger Association Fails to Reach Agreement and Question Will Be Fought Out at Seattle.

Whether round trip summer tourist rates from points in the Northwest to the East shall apply only on certain specified dates as in previous years or whether such tickets shall be sold every day during the tourist season was the subject of an all-day conference of representatives of the North Pacific Coast Passenger Association in Portland yesterday.

The meeting, which was held in the office of John M. Scott, general passenger agent of the Southern Pacific, adjourned last night without coming to an agreement.

The question will be taken up at an adjourned session in Seattle on Friday, January 24.

Present System Abused.
Many arguments were advanced in favor of daily sales of tourist tickets. Those who held to this idea declared that the traveling public abused the present system so that the effect of limiting the sale days is nullified. As the tickets allow a 15-day stop-over anywhere on the going journey people who are unable to start on the date that the coupon specifies, board the train, ride to Vancouver, where they "stop over" and return to Portland on the streetcar. When they are ready to resume their journey, they go to Vancouver and board the regular east-bound train just the same as if they had "stopped over" at Vancouver all the time.

Those who travel on the O-W. R. & N. line travel for the same purpose to East Portland or to Troutdale.

Interference Is Feared.
So some of the passenger men think they might just as well withdraw the rule limiting the same dates so long as the rule doesn't "work" anyway. Those who oppose the daily sales do so on the ground that they will interfere with the nine-month tickets which are on sale through the entire year and which take a rate appreciably lower than the sum of the single trip tickets in each direction, east and west.

It is probable, that when the association takes up the question at Seattle next week that the present system will be continued.

General baggage agents of several lines in the Northwest also met with the passenger men to prepare uniform rules of handling baggage. Among the details that they had to consider was the new rule of the Transcontinental passenger requiring all dogs handled in baggage cars to be muzzled.

Mohler, of Spokane, general freight and passenger agent Idaho & Washington Northern; Allen Jackson, of Spokane, district baggage agent Great Northern, and E. C. Robbins, chief clerk passenger department Northern Pacific.

JOINT PUBLICITY BODY AIMS

Commercial Club and Chamber of Commerce to Work Together.

Plans that have been pending for some time for an organization of the publicity work of the Chamber of Commerce and the Portland Commercial Club to be carried on jointly in future, matured yesterday when the board of governors of the Commercial Club gave its indorsement to the plan. The appointments from the Commercial Club to the Chamber of Commerce indorsed it at their last monthly business meeting.

The new plan calls for the establishment of a joint committee of 15 representing the two organizations, which shall have full control of the details of the publicity and promotion work carried on under their auspices. Seven of these committeemen will be appointed from the Commercial Club and seven from the Chamber of Commerce, and the 15th member of the joint committee will be chosen by the 14 appointees.

Full details of the plans of procedure will not be until the committee has been organized. A. H. Averill, president of the Chamber of Commerce, will make his general committee appointments next week, and probably will name the representatives from that organization upon the joint publicity committee at that time. The appointments from the Commercial Club will be made after the coming annual election.

TRAINS MOVE AGAIN

Railroads Make New Paths Through Cascade Snows.

MILD WEATHER GIVES AID

Lines Attempt to Resume Schedule as Crews Finish Four Days' Task of Clearing Tracks—Snow Is Deepest in Fifteen Years.

SEATTLE, Wash., Jan. 14.—The Milwaukee Railroad, after struggling with the snow since last Saturday, cleared its tracks across the Cascade Mountains late today and is again moving trains.

The Great Northern promises to resume the operation of its mountain division tomorrow morning. The Northern Pacific has gained a complete victory over the drifts and slides and trains are moving regularly.

Today was the kindest that the railroad men have experienced in several weeks. No snow fell and the temperature was mild. Near the coast of Western Washington there was sunshine, but the forecast is for rain tonight, extending perhaps into the mountains.

There is more snow on the ground in Western Washington now than at any time in the past 15 years.

Some Damage to Fruit Reported.

WOODLAND, Wash., Jan. 14.—(Special.)—After a steady downpour of rain all day yesterday it turned into a fine, wet snow some time in the night, and this morning there was full two inches on the ground and telegraph and telephone wires had a heavy coating and some damage resulted on the up-river lines. There was also some damage to fruit and other trees, as the snow stuck to everything it touched.

WIFE DESERTER TO FIGHT

Buffalo Man Says He Couldn't Live With Spouse.

"Her mother couldn't live with her" and neither could I," said E. G. Arnold, a manufacturing jeweler, when arrested yesterday by Detective Hawley, in a charge of deserting his wife in Buffalo, N. Y. He announced that he would fight extradition rather than return to the complainant woman. Pending advices from Buffalo he is held in prison on the top floor of the City Jail.

A vindictive note from Mrs. Arnold to the city detectives, was the first request there had to hunt Arnold out. With no description, Detective Hawley found him living in an apartment house on Ella street and he admitted being the man wanted. Meanwhile telegraph advices were received from the Buffalo police that he had been indicted and that an officer would be sent after him.

OFFICER AGAIN IN PORTLAND.

For the third time in three weeks Sergeant W. M. Fyfe, of the Royal North West Mounted Police of Canada, passed through Portland Monday night en route to Edmonton with a prisoner. On the last occasion, he arrived here from Oakland with a negro by the name of Mitchell, wanted on a \$50,000 fraud charge. When here Fyfe received word that another man, wanted by the Canadian government, had been arrested in Los Angeles. Leaving his prisoner here, Sergeant Fyfe went South and took charge of his prisoner, Fred Hope, alias Campbell, alias Ray, alias Berry. Hope had been under \$2000 bonds. He had been hunted for three months.

POLICE WAR ON VICE

Disorderly Classes Driven to Residence Sections.

Many Persons Arrested

Activity of Officials Declared to Have Made Condition of Persons Sought Harder and Forced Them to Rob.

With "morality" cases in Municipal Court emanating both from the police and the Sheriff, and with little effort made to conceal the fact that there is a spirit of emulation between the two peace agencies, indications are favorable to a sudden access of activity in this line, following several months of extreme dullness, during which the brunt of keeping the city pure rested on the shoulders of Governor West's special agents, now virtually out of commission.

In court yesterday the Sheriff was represented by two prisoners, a man and a woman, caught in a raid at First and Clay streets. They were convicted, fined each and gave notice of appeal. The police countered with a raid on the place of "Big Henry" Gallet, formerly kept by Pete Bruno, "king of the tenderloin," at Second and Everett streets, where 13 men and three women were arrested. While it is not admitted that any thought of Sheriff Word caused the raid, it is believed that he has had an eye on this place and that the police "beat him to it." Record Clerk Circle accounted for more than \$2500 of money deposited by Gallet for the release of himself and companions. Trials of the captives were set over.

Residence Districts Invaded.
Announcement of Sheriff Word that he is going to take a hand in clearing the city of parasites, undoubtedly has acted as a spur to the police, who have been resting on their oars ever since the sudden spurt caused by a result of Governor West's visitation. While not avowed, the attitude of the city police has been one of hands-off in favor of the Governor's agents, who, until the first of the year, were a only persons making any sort of a showing in raiding disorderly places.

The present conduct of the vice business is novel in the history of the city. Scores of houses which for decades have retained an unsavory reputation are now abandoned or occupied by Japanese, Chinese or other alien lodgers. Lodging-houses which formerly harbored immoral women with greater or less degree of secrecy have bowed to the activities of the police, the vice commission and the tin-plate ordinance.

Yet it is obvious to any pedestrian that the number of disorderly women has not decreased. Many of them have gone to the residence districts and many have gone to the more obscure lodging-houses. The very center of the old district, centering around the one-time notorious Paris House, shelters scores of the unfortunates, who rely upon an outer ring of volunteer sentinels and a complicated system of signals and getaways to evade the somewhat languid efforts of the police.

The activity of last Summer has made harder their condition and has driven them to robbery. Never in the history of the city has there been so much complaint of men being robbed in obscure resorts as in the last few months.

Professional Parasites Fewer.
Professional parasites of the class of which there were many representatives here formerly are now much fewer, thanks to two years' strict enforcement of the Federal white slave statute, but the business of living upon the unfortunates women is in the hands of amateurs, who may be seen by dozens along Sixth street and in other places.

PANTAGES THEATER HAS CLEVER SEXTETTE OF DANCERS THIS WEEK.

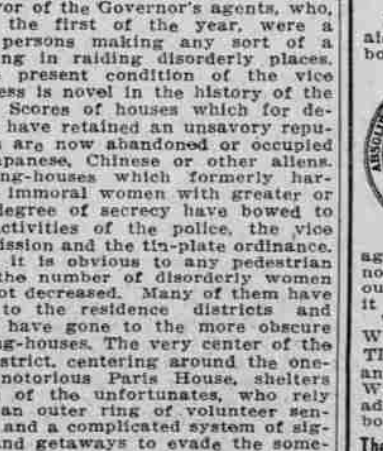

ENGLISH PONY BALLET SENT OUT BY NED WAYBURN.
Direct from London by way of New York are the six clever little dancers who make up the English pony ballet sent out to head Pantages bill this week.

The act is one of the celebrated Ned Wayburn's and the fifth of a series of headline dancing acts he has sent this season. The novelty of the offering lies in the perfection of the dancing and the unity the dancers observe. The costumes are pretty and pleasing in color harmony. The sextet has a series of dances, but in all of them is maintained the standard of perfection for which the English ballet corps is noted. The finale of the act is a musical novelty with each of the six girls playing xylophones made of their headresses.

BOWELS SLUGGISH, STOMACH SOUR, GASSY, UPSET? CASCARETS GREAT!

That awful soreness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble is ended. A Cascaret tonight straightens you out by morning.

10 Cents. Never grips or sicken. "CASCARETS WORK WHILE YOU SLEEP."

"HAIR-A-GAIN"

Much attention has been given to the effect and not enough to the cause of loss of hair. Tonics and various hair restoratives are beneficial but we must go farther and consider the formation and growth of the hair. The fat cells should be the first consideration; to restore them to the natural state is necessary to produce a new growth and to do this, stimulation, combined with a good scalp food is the primary step. "Hair-A-Gain," a purely medicinal non-injurious germicide with the proper method of application, will positively prevent any further loss of hair and promote a new growth. BABY A SIGHT WITH ECZEMA

Mother Thought He Couldn't Be Worse. Resinol Acted Like a Charm.

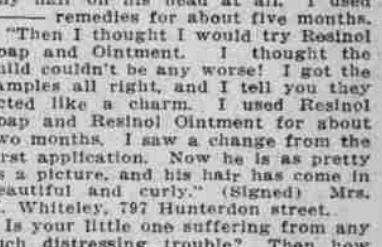

Newark, N. J., Sept. 6, 1912.—"I wish you could have seen my baby before I started to use Resinol Soap and Resinol Ointment, and see him now. He is now one year old, and the eczema started when he was about a month old. I was ashamed to let anyone see him, his little head was a sight. I thought he would never have any hair on his head at all. I used remedies for about five months.

"Then I thought I would try Resinol Soap and Ointment. I thought the child couldn't be any worse! I got the samples all right, and I tell you they acted like a charm. I used Resinol Soap and Resinol Ointment for about two months. I saw a change from the first application. Now he is as pretty as a picture, and his hair has come in beautiful and curly." (Signed) Mrs. M. Whiteley, 797 Hunterdon street.

Is your little one suffering from any such distressing trouble? Then how can you fail to profit by Mrs. Whiteley's experience? Even in such a terrible, stubborn case, Resinol brought prompt relief.
