

ORAL MESSAGE BY PRESIDENT POSSIBLE

Washington Hears President-Elect Wants to Address Congress in Person.

VOICE IN COUNCIL ASKED

Faith in Impressive Power of Spoken Word Said to Be Basis of Desire to Demolish Long-standing Precedent.

OREGONIAN NEWS BUREAU, Washington, Jan. 15.—If some of the intimate friends of Woodrow Wilson are speaking authoritatively, the message to the next President of the United States to the Congress will be delivered by the President himself orally.

It has been customary for Presidents heretofore to communicate with Congress always in writing, and all Presidential messages have been prepared in advance, printed, and then sent to Congress. Never has a President undertaken to go to the Capitol and address Congress, except the one time that George Washington visited the Senate.

Oral System Tried in Jersey. As Governor of New Jersey, Mr. Wilson instituted several reforms and among them was the practice of addressing the Legislature orally when he had any message to communicate.

Based probably on his conduct as Governor of New Jersey, friends of the President-elect now assert positively that Mr. Wilson intends as President to communicate and work with Congress just as he communicated and worked with the New Jersey Legislature.

Spoken Word More Forceful. The reason assigned for Mr. Wilson's desire to deliver his messages in person is that he believes a President directly addressing Congress in joint session can impress his views upon Senators and Representatives more forcibly than he can hope to do through written or printed messages.

There is no constitutional or legal reason why a President cannot or should not address Congress in person, rather than in writing, and there is no question that Congress would welcome the innovation.

Publication to be Considered. Should President Wilson decide to address Congress personally, it would be necessary, of course, that both bodies assemble in the same hall, and he would be obliged to address both bodies separately and cover the same ground twice.

From the viewpoint of the President this latter feature might be no objection, for if he felt he could more thoroughly impress Congress by delivering his messages in person, his chief object in establishing a precedent would be to get his views before the bodies that legislate, rather than before the country at large.

As far as the other innovation is concerned—that is, the President's insisting that he be consulted as to the legislative program—that would be largely a change of form and not of substance, for Presidents have always kept in touch with their party leaders in Congress and have always had much to say about the legislative program.

BOYS EXHIBIT IN COURT

License to Appear in Show Given When Applicants Amuse Judge.

When Roy Adams, aged 12, of 264 Monroe street, and Edwin Zichenberger, a year older, of 647 Union avenue, applied to the Juvenile Court yesterday for a permit to appear as entertainers in a moving-picture house on Union avenue tonight, Judge Gatens started to "kid" them.

"How do I know," he asked, "that you boys are any good? March if the show will come over here and demand that I give them their money back. I can't afford to take chances like that. Get a piano anywhere around here? Well, now, what was the response of one of the lads, and thereupon the Judge, Probation Officers McIntosh and Fisher and a couple of attorneys who happened to be present adjourned to the women's department of the County Jail, where there is a piano. Grafton and Kennedy joined the group, making up a fair-sized audience. Young Adams sat down at the piano and rattled off three or four lively airs, in fact, much to the amusement of the audience.

LIME DEALERS MAY BE HIT

Immense Deposits of Shells to Aid Farmers.

VANCOUVER, Wash., Jan. 15.—(Special.)—Immense deposits of oyster, clam and mussel shells, at different points on Puget sound, may be found, means of forcing the lime dealers in lime to be used for fertilizer to lower their prices so that farmers can afford to buy to neutralize the acid found in the soil west of the Cascade Mountains.

The State College at Pullman has ascertained that the soil in this section of the state needs an alkali, lime being the cheapest and most practical, where the price is not boosted, as it is in this state. Lime deposit quarries are nearly all owned by large companies, which charge \$3 per ton. The State of Illinois sells the same kind of lime to the farmers there for 54 cents a ton.

The railroads have given a rate of one-half the fourth-class rate, the same as is charged for crushed rock for building roads, but when lime sells for \$3 a ton even this rate is too high, according to Professor Sparks, of the horticulture department of the State College, who is now here on business.

Mr. Sparks will go from here to Puget Sound and have oyster and clam shells sent to Pullman for examination, and if it is found to contain enough lime, arrangements will be made to place a small dredge on a scow, hoist the shells that have been thrown into the Sound, crush and condense them, which is more than 50 per cent the weight of the shell.

Mr. Sparks believes that this plan will prove feasible and that lime can be much secured and sold to farmers at a much lower price than the lime syndicate now charges.

FRUITMEN INDORSE TEAL

Resolution Urging Appointment to Cabinet Sent Governor Wilson.

To the many indorsements of J. N. Teal for appointment to the office of Secretary of the Interior has been added that of the Oregon State Horticultural Society, which was adopted at its meeting held Tuesday.

The resolution of indorsement was ordered sent to President-elect Woodrow Wilson at Trenton, N. J., and was telegraphed to the president and trustees of the society.

Among other business transacted at the meeting was the indorsement of the agricultural extension bill now before the United States Senate, and the State Legislature of Oregon will be asked to meet the provisions of this Federal bill by the necessary appropriation.

A series of district meetings of the state organization will be held in the coming year, in conjunction with the local societies, three of which have already been planned for Salem, McMinnville and Eugene.

President Bateham, with H. B. Miller and H. C. Atwell will act on a committee for the purpose of investigating foreign markets for fruit and fruit products.

Canter Gets Privileges. Privileges were granted to the following: Chamberlin, Gilbo, Grass, Hastings, Zednick, Catlin, Cleland, Freeman, Fountaine, Fontaine, Sweet, Gray, Goss, Hales, Lesourd, Beam, Uriguarr.

DALLAS, Or., Jan. 15.—(Special.)—The Dallas Fruit Growers' Association held its annual meeting in the County Court room in this city Monday, at which time, after the reading of the reports of the secretary and treasurer, the following officers were re-elected to the coming year: President, H. S. Butz; secretary, R. M. Ewing; assistant secretary, N. L. Guy; treasurer, H. A. Woods. Board of directors, J. S. Park, W. M. Elliott, J. B. Nunn, Glen DeHaven and M. N. Grant.

GARDNER IS BEATEN

Ex-Representative Bureleigh Is Senator for Maine.

AGUSTA, Me., Jan. 15.—Ex-Representative Bureleigh, Republican, was elected United States Senator by the Maine Legislature in joint convention today.

The vote was as follows: Bureleigh (Rep.), 91; Gardner (Dem.), 82; Thompson (Pro.), 7. Ninety-one were necessary for choice.

Bureleigh failed yesterday to muster a majority of both houses, and friends of Obadiah Gardner, who was the Democratic candidate for re-election, did not give up hope until the last.

The successful candidate's full name is Edwin Chick Bureleigh. He is 56 years old and was born in Maine. He has held several offices under the state government, being Treasurer in 1885-1888, and Governor 1889-1892. He was a member of the United States House of Representatives from 1897 until 1909. He is now publisher of the Kennebec Journal.

COMBINE GETS PATRONAGE

Representative Neumann, of Spokane, a Progressive, protested when the names of employees were read and the choice of his delegation was not among them.

"Why is it?" asked Neumann, "that when our entire delegation asks for the appointment of one committee clerk out of about 20 the request is ignored?"

Candidate Not With Majority. Representative Sims, a member of the committee, answered that the majority rules in the Legislature and that the candidate offered by Spokane County was not with the majority.

"Is it for political reasons?" asked Representative Earle, of King County. "There's no use beating around the bush about this," interrupted Speaker Taylor. "I will tell you right out that you are on the wrong side of the fence. That's clear, isn't it?"

Debate is Halted. That stopped the debate and the report of the committee was adopted with only Bull Moosers voting against it.

There are only two women employees in the number. The House passed by unanimous vote a joint memorial asking President-elect Wilson to appoint a Northwestern man Secretary of the Interior. The memorial asks that a man be appointed who has lived in this section long enough to be acquainted with conditions. The same resolution was passed by the Senate.

Among the bills introduced in the House yesterday were the following:

Mrs. Axtell Takes Part. A bill making men and women equally guilty for statutory offenses, introduced by Mrs. Axtell.

A bill for the appropriation of \$350,000 for the construction of a bridge across the Columbia River between the mouths of the Snake and Yakima Rivers, by Horrigan and Roland.

A bill for the establishment of a bureau of farm development, introduced by Linn.

A bill creating a nautical school at the University of Washington and appropriating \$50,000, by Freeman, of King County.

Plan to Change Election Vote. A bill changing primary election date from October to April, by Brown.

A bill providing for non-partisan election of county primary election by Zednick, of King.

A bill giving counties the right to exempt personal property and improvements from taxation if desired by the voters, by Cleland, of King.

WOMEN MUST WAIT

Shirtwaist Strike May Curtail Country's Supply.

NEW YORK, Jan. 15.—Thousands of women must wait for their Spring shirtwaists, manufacturers say, unless nearly 40,000 shirtwaist makers, who struck today, are quickly brought back to work.

The strikers chose a time to strike that would threaten to call a halt to the beginning of the Spring rush, when the supply of waists on hand was limited. To meet this emergency, the employers say, they are preparing to send their work to Cleveland, where shirtwaists also are manufactured on a large scale. The strikers replied to this was a threat to call a halt to the beginning of the Spring rush, when the supply of waists on hand was limited.
