Man Accused of Larceny of Ring Released by Tazwell.

Extradition of a prisoner from Callfornia, involving a round trip by Detective Hyde, a large expense to the county and a hard fight at Cakland op habeas corpus proceedings, went for naught yesterday when Fred Harris, accused of the larceny of a diamond ring, was dismissed in Municipal Court over a strong protest by Deputy District Attorney Deich.

The prosecutor resisted the order of the court because of the effort of the new District Attorney to establish a record for careful inspection, of charges before issuing papers. In this case particularly, said Deich, pains had been taken to make sure that a cause of prosecution existed. He continued his protests until cut short the second time by the court with a curt statement that the case had been dismissed.

Harris was agreested on complaint of

time by the court with a curt statement that the case had been dismissed.

Harris was arrested on complaint of N. Solomon, from whom he bought a diamond ring on the installment plan. It was alleged that he had removed the ring from the state, constituting the offense of larceny by ballee.

Harris was arrested in Oakland and made a fight against extradition, ending when Governor Johnson issued a warrant for his removal from the state. In court yesterday he had a number of witnesses to prove that the ring had remained here in his absence and that a friend had been given the money to pay an installment which he expected to become due in his absence. It was on this showing that he was Chicago Dairy Produce. It was on this showing that he was discharged.
