# **GARY DINNERS SET** PRICES, SAYS COREY

Ex-President of Steel Trust Contradicts Corporation's Answer to Complaint.

ARMOR POOL IS ADMITTED

Judge Gary, Witness Says, Knew of Existence of Agreements Which He Said He Stopped-Clash Over Policy Shown.

NEW YORK, Jan. 23.—William Ellis Corey, ex-president of the United States Steel Corporation, again a witness in the hearing of the Government suit to dissolve the corporation under the Sher-man anti-trust law, gave further testi-meny today in support of the Govern-ment charge that the corporation is a olistic cambination.

monopolistic cambination.

He testified that "understandings" to maintain prices were reached at the famous "Gary dinners," given in New York by Judge Elbert H. Gary, chairman of the corporation, at which a large majority of the steel manufacturers of the country were represented.

Armor Plate Pool Confirmed.

He gave testimony, the first adduced from any witness in the suit, as to the existence of an international armor plate pool in which the United States Steel Corporation had participated. He confirmed in testimony the existence of a "plate and structural pool," and declared that Judge Gary had had knowledge of it.

He declared that he himself had given orders to close down blast furnaces for the purpose of maintaining the price of pig fron. He said steel rails were sold to foreign consumers at a lower Armor Plate Pool Confirmed.

of pig fron. He said steel rails were sold to foreign consumers at a lower price than to domestic, and he furnished testimony intended to prove that the Tennessee Coal & Iron Company was a competitor of the Steel Corporation in the rail market prior to its acquisition by the corporation.

Clash Over Policy Indicated

Mr. Corey, who resigned as president of the corporation in 1910, made it plainly evident in his testimony that in many respects he had clashed with Judge Gary and the members of the finance committee on the matters of policy. He declared that he never had favored the lease of the Hill ore lands by the corporation in 1907, which was abrogated by the corporation almost coincidently with the filling of the present suit.

"We paid double the price the ores were worth," he said, adding that the finance committee had overruled him. On the question of maintaining prices through the agency of the Gary din-

On the question of maintaining prices through the agency of the Gary dinners, Mr. Corey said he had been in "favor of competitive conditions," and that prices were maintained "longer than seemed advisable." His testimony in regard to these dinners was in direct contradiction, it was pointed out by counsel tenight, to what the Steel Corporation said in its answer to the Government's complaint. This answer denied that "at any of said meetings or at any other time and place there was any agreement or understanding that prices should be maintained."

Dinners Really Pools.

Dinners Really Pools.

The "Gary dinners," which began in 1207, took the place, the Government maintains, of various pools in maintains, of various pools in maintaining prices in the steel trade. In this testimony concerning several of these pools Mr. Corey said that the Steel Corporation was represented in the "plate and structural pool" by the Carnegie Steel Company. He admitted that the pool divided business and imposed penalties when the business of a member exceeded its allotments.

"Was it known at the executive of flees of the Steel Corporation that sub-flees on the Steel Corporation that sub-flees of the Steel Corporation that sub-flees of the Steel Corporation that sub-flees on the same vicinity today resulted in a fight with American canders over the index of them.

Peace Offer In Scouted.

It is said that General Jose Blanco, released by rebels at Guadalupe, brings released by rebels at Guadalupa, brings a peace offer to the federal government from the rebels, who threaten to take ment.

Before Mr. Corey could answer counsel for the Steel Corporation objected to the question on the ground that the term "executive offices" was indefinite. "Did E. H. Gary know about it?"

"He did." said the witness.

Judge Gary in his testimony before the Staniey steel investigating committee said he had put a stop to the pools as soon as he learned of their existence. Gary has not testified in this suit.
