# PORTLAND ADDS TO VALUABLE REPORT

Government Engineers Compile Facts of Water Terminals in First District.

### ENTIRE COUNTRY INCLUDED

Captain H. H. Robert and Major Mc Indoe to Send Information to Washington Headquarters as Authentic Reference.

Before leaving for Celilo last night, Captain H. H. Robert, Corps of Engineers, U. S. A., completed a report containing 32 typewritten pages of water terminals in the First District, a move that is being carried out by every engineer officer in the United States in charge of a district, and, when assembled as a whole, the report will prove of inestimable value as a reference, as well as to be probably the agency through which better facilities will be provided.

The Middle and Upper Columbia and Snake rivers, harbors along the Oregon coast and rivers emptying into them are included in the scope of the statement, while the same system covers the Second District, in charge of Major McIndoe, who has jurisdiction of the entire Willamette River and that part of the Columbia from the mouth of the former to the sea, as well as the jettles and har there, and all streams emptying into the main waterways.

The report is given the little of Existing Water Terminals and Transfer

Ing into the main waterways.

The report is given the title of Existing Water Terminals and Transfer Facilities. It was authorized under the rivers and harbors act, and every city or town on a waterway is described; the number of inhabitants shown, the number of inhabitants shown, wharves, docks and mooring facilities; the condition of highways leading to them, and recommendations as to the necessity of establishing wharves where none is at present maintained. Attention is also given physical connections between railroad lines and where and barbors. rivers and harbors.

The result is expected to be that in many places where the Government is investing appropriations for harbor improvements it will be insisted that taxpayers provide marine accommodations that are lacking, and to improve roads leading to terminals. The report will be forwarded to Washington this week,

### SITHONIA OFF FOR HAMBURG First Hamburg-American Liner Pre-

# pares to Load in Europe.

Portland's latest Oriental service, lich also means direct connection for urope, was inaugurated yesterday by the Hamburg-American fleet when the steamer Sithonia left Antwerp for Hamburg, to begin loading. She will sail February 5 for Portland, via the Far East, arriving here in April.

Following are the steamers to be Two J

Following are the steamers to be used in the fiest:

Sithema, built in 1900 and of 2544 tons the Saxonia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Shexia, built in 1805 and of 2554 tons; the Briggavia, built in 1806 and of 2554 tons; the Briggavia, built in 1806 and of 2555 tons; the Briggavia, built in 1806 and of 2555 tons; the Belgravia, built in 1806 and of 3075 tons; the Belgravia, built in 1806 and of 3075 tons; the Belgravia, built in 1806 and of 3005 tons; and the Senegambia, built in 1805 and of 3005 tons; and the Senegambia, built in 1805 and of 3005 tons; and the Senegambia, built in 1805 and of 2586 tons net register.

Each of two or three steamers in the fleet of ten has an actual capacity of more than 19,000 tons. Dimensions of the ten are as 19,000 tons. Bilbouin, 421.4 feet long, 562 test boam and 27.5 reet depth of hold; Silesta, 460.7 feet long, 462 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 363 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 462 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 363 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 462 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 463 feet beam and 27.1 feet deep; Seandia, 400.7 feet long, 40

Moore & Co.
Captain Watts, who succeeded Captain Berquist in command of the bark, will sign a few men supplied from Portland in addition to the Torrisdale salbers. The British Yooman came here from San Francisco December 22. Another Sydney cargo is going aboard the Neotsfield, which is working at the mill of the North Pacific Lumber Company and the schooner George E. Company and the schooner George E. Rillings, which put from San Francisco January 21, is under engagement to carry lumber to the same harbor.

## BARK IVERNA TO GET AWAY

### Killoran Leaves Tomorrow and Dumfriesshire Is Chartered.

Following a delay due to the fact she was libeled, the British bark Iverna was cleared yesterday and leave down today in tow of the stea Ocklahama. She has aboard 134,924 bushels of wheat, valued at \$1,21,432. and goes to Queenstown or Falmouth for orders. The Killoran has finished loading wheat and will depart tomor-

One charter was reported yesterday, that of the bark Dumfriesshire, which is on the way from Rio de Janeiro, but she will load lumber and will be ordered to Vancouver, B. C., for cargo. The engagement of the Crown of India for lumber to the United Kingdom, which was reported Monday, was confirmed. She will be paid \$2s 6d by Comyn, Mackail & Co. The German ship Olona, which was a tardy arrival, and her charter for grain was canceled, is the only disensuged ship in the river. One charter was reported yesterday,

# GRAVEL MEN DENY Pretty

Purpose of Central Agency Is Mutual Protection of Members, Say Dealers.

Contractors Make Charges of Monopoly and Declare Cost of Gravel and Sand 50 Per Cent Higher Than Formerly.

Since the organization of the sand and gravel interests and the estab- BRADFIELD REGULATOR CO., Atlanta. Ga and gravel interests and the establishment of a central selling agency for dealers a few weeks ago, the prices have been doubled and drayage charges have been advanced materially, according to information that has reached the Builders Exchange. Several contractors engaged in heavy con-

reached the Builders' Exchange. Several contractors engaged in heavy construction work in the city also declared yesterday that a sand and gravel monopoly exists and that all material handled by the firms represented in the organization must be secured through the central selling agency. On the other hand the sand and gravel men say that there has been no agreement or tactic understanding among them to raise the prices of material and cartage, but admit that a central selling agency was established for the purpose of obtaining mutual protection from unreliable contractors as well as preventing ruinous competition. They declare that inasmuch as they are carrying unpaid accounts on their books aggregating about \$500,000, they are justified in centralizing the business not only for the purpose of self-protection from dishonest contractors, but also to establish uniform charges that may return a reasonable profit.

Henker Expisions Agency.

The second lecture will be given next Tuesday night at the same piace. Dr. Foster outlined the policy which has largely influenced school administra-

The need for scientific study is The need for scientific study is shown, he said, by the fact that \$500,000,000 is spent each year in the United
States on education. Dr. Foster pointed out that no business organization
would tolerate a system that did not
show what it was accomplishing. But
he said such a system is tolerated in
school administration.

Some of the illustrations he used to

Some of the illustrations he used to show the lack of scientific methods were the grades used in college and percentages used in grammar and high schools. He showed how these grades

schools. He showed how these grades did not mean the same for different students or for different teachers.

Dr. Foster showed the possibility of the scientific distribution so that grades will mean about the same in any course. The system in use at Reed College is based on the relative class standing of students in a particular course over a given number of years.

The next jecture will deal with some questions that school authorities have questions that school authorities have yet to solve and some of the results that have been achieved in recent research. It will also deal with the methods of such scientific study.

# SERVIANS HONOR ST. SAVA

250 Attend Programme Devoted to Founder of Servian Culture.

The local Servian society, "Kosovski The local Servian society, "Kosovski Osvetnici," gave a banquet and celegration programme at Swiss Hall Monday night in honor of the Servian Patron Saint, St. Sava, who was the youngest

ooks. The wise woman realizes this and takes precautions to preserve her health and strength through the period of child bearing. She remains a pretty mother by avoiding as far as possible the suffering and dangers of such occasions. This every woman may do through the use of Mother's Friend. This is a medicine for external application and so penetrating in its nature as to thoroughly lubricate BUILDERS TO INVESTIGATE every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and Mother's safe motherhood.

Mother's Friend is sold at drug Friend stores. Write for free book for expectant mothers, which contains much valuable information.

ish Empire and were centers of his-toric attocities. The Servians have now regained all of this territory and these ancient institutions and for the first time in 500 years the chimes of liberty

Because She Was "Too Lazy."

Benker Explains Agency.

George W. Bates, of the banking firm of George W. Bates & Co. who is said to have been active in organizing the selling agency, yosterday did not deny his connection with the sand and gravel situation.

"The purpose of the agency was explained previously in an article published in The Oregonian." said Mr. Bates. "The object is mutual protection. As far as a combine is concerned such a thing would be impossible as there are too many independent gravel pits around Portland. Some of the concerns have been losing money at prices that prevalled for sand and gravel, and if they have raised the prices a little, it was necessary in order for them to continue in business."

A directly opposite side is given the situation by one of the prominent building contractors, who said:

"It may be true that the sand and gravel dealers have lost money by their dealings with certain persons, but it is equally true that since the central selling agency was established the prices of the material have advanced from 40 and 50 cents a cubic yard to \$1 a cubic yard.

"It minformed that it costs 30 cents a cubic yard to \$1 a cubic yard.

"It is impossible to get sand or (Special.) — Commissioner of Finance in the congrega-

William Perry Berger.

William Perry Berger, a well-known and respected business man of this city, is receiving the congratulations of his relatives and friends in the celebration of his 73d birthday. Born in Water-loo, Seneca County, New York, January 20, 1840, he crossed the plains in 1862 with the Crawford party, and landed at The Dalles, Or., where he married, in the year 1871, Miss Effic Josephine Fairchild. Mr. and Mrs. Berger shortly thereafter made their home in this city, and their house, at the southwest corner of Fifth and Main streets, became well known to pioneer families, as also did the other family home at 461 Seventh street, where the Bergers lived for 33 years. Mrs. Berger died four years ago. Two sons and one daughter survive their mother—Mrs. Euby Sweet. sons and one daughter survive their mother—Mrs. Ruby Sweet, their mother—Mrs. Ruby Sweet, Rodney G. Berger and William P. Berger, Jr. Mr. Berger has two grandchildren—Dwight David Sweet and Arvilla Josephine Sweet. Last week Monday Mr. Berger was tendered a birthday party by his family, when five tables of "500" were played, and Mr. Berger was given 73 carnation pinks in honor of the occasion, and other gifts. Mr. Berger is a member of the Exempt Firemen's Association of Portland.

## BIG TIMBER SHOWING AIM

Efforts Are Being Made to Have Fitting Forestry Exhibit in 1915.

Timber interests of the Pacific North west plan to make an effort to secure forestry representation in the Panama-Pacific Exposition independent of the soil and agricultural exhibits, to which it has appeared there is danger of the forestry exhibits being subordinated.

C. C. Chapman, of the Portland Com-C. C. Chapman, of the Portland Commercial Club promotion bureau, advanced this proposition persistently in recent meetings held in southern cities during the trip of the Royal Rosarians, and it is probable that the same idea will be urged emphatically before the Legislature next week, not only by commercial organizations of the state but by lumber interests representing a great proportion of the industrial and financial strength of the Northwest.

"On the Pacific Coast, and mostly in the Northwest." says Mr. Chapman, "are half of the standing forests of the Nation. We were amazed to find that provision had not been made for the Nation. We were amazed to find that provision had not been made for an immense forestry exhibit by the management of the Panama-Pacific Exposition. San Diego has already made arrangements for a special forestry exhibit at the Panama-California Exposition, and it seems also the proper thing that San Francisco should give this important department the individual recognition to which it is entitled."

### FULL SCHEDULE RESTORED All Northern Pacific Trains Nov

Operating Uninterruptedly.

Effective today, through service on the Northern Pacific main line will be restored on the same schedules that stood before the recent storms compelled the temporary abandonment of some of the minor trains.

Although the effects of the storm were damaging at times, the through train service of the Northern Pacific hetween Portland, St. Paul and Chicago over the North Bank line was uninterrupted. Only some of the less important local passenger trains were discontinued so that through passenger service and the perishable freight could be handled properly. Now the line has been reopened and regular traffic has been recetored.

If you are nervous, can't sleep and are weak and run down and need a wine stimulant use Munyon's Paw-Paw Tonic. For sale at all Drug Stores.

How to Make Better Cough Syrup than You Can Buy A Family Supply, Saving \$2 and Fully Guaranteed.

A full pint of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix one pint of granulated sugar with 14 pint of warm water, and stir for 2 minutes. Put 215 ounces of Pinex (fifty cents' worth) in a pint bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualacol and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been imitated, but the old successful formula has never been equaled.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druprist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Pinex is fully guaranteed by Laue-Davis Drug Ce. (distributers). Portland.

Pinex is fully guaranteed by Laue-Davis Drug Co. (distributers), Portland.

But the whiskey you use should be good and pure. Duffy's Pure Malt Whiskey is made for the home, the hospital and the sick room. It is solely a medicinal whiskey, It is made from selected grain and the distilling process to constitute of the transfer of selected grain and the distilling process is carried so far that it exceeds in purity the requirements of the United States Pharmacopoela. It is the best whiskey for you to have in the house, because it is for medicinal purposes.

Be sure to get Duffy's. Sold in sealed bottles only by druggists, grocers and dealers at \$1.00 a bottle. Write our doctors for free advice and a free filustrated medical booklet. The Duffy Malt Whiskey Company, Rochester, N. Y.
