Malarkey's Vote Decides.

On the vote on the passage of the resolution itself the vote stood the same until it came to the President. He voted against the resolution, and the resolution not having received the required majority, was lost. Sixteen votes are required to pass a bill or resolution of this nature, 16 votes being the majority of the whole Senate. On the adoption of a report only a majority of the votes cast is required. While the resolution itself did not strike directly at the heart of the liquor question, being only a provision that the proposed constitutional amendment be put on the ballot for the people to vote on, the debate took on a strong "dry" and "wet" appearance. It was the first genuine liquor war that has been carried on in the Legislature for years.

Senator Day caused a laugh when he stated that for a quarter of a century he had lived happily married, and he knew, if the women want this to go on the ballot, it will be futile to attempt to resist. Kiddle and Joseph also spoke in favor of the resolution.

In explaining his vote, Carson of Marion declared that he was not in favor of the question going before the people because he understood that at the time the amendment came up it was a compromise effected between the brewers and representatives of the church element, and as such he considered it binding. Further, he said, he was not in favor of frittering away the time of the Senate with unimportant liquor questions when such big questions as workingmen's compensation, as a decent wage for laborers and other big measures were entitled to the fullest consideration.

Copyrighted Materials—Other
Changes Are Ordered.

STATE CAPITOL, Salem, Or., Jan. 28.

—(Special.)—Six of the vetoed bills of the 1911 session, all of them relating to the taking and sale of game, were reported to the House this morning by the committee on vetoed bills with a recommendation that the Governor's veto be sustained, which was adopted by the House without discussion.

Two of the bills were introduced in the last session by Lair Thompson, of Lakeview, and met the common fate of every bill of which he was sponsor which came to the Governor for signature. Another of the bills related to asking in certain waters of Tillamook Bay, and one was in regulation of the game laws in Union and Wallowa counties. STATE CAPITOL, Salem, Or., Jan. 28.

Still Another Beautiful 1913 Creation And Its Price at---

In all sincerity we ask intending piano buyers to "shop." Call in a music-teacher or minister to insure getting the lowest possible price. Ask to see the very best \$475 piano which round-about dealers, alleged factory branches and old-method concerns have to offer.

Then come to Eilers' Music House and see the beautiful Bush & Gerts piano, sketched above. Critically test and compare it with any instruments offered elsewhere at \$475. Here, because of modern methods and the well-known little-profitper-piano policy of the Eilers' institution, the price is only \$348 instead of \$475.

The reduced price of \$348 for this \$475 value is the cash price at any of the 40 Eilers' stores. It is the lowest price to each and all alike. No more is asked, no less STATE CAPITOL Salem, Or., Jan. 28. is accepted. For the mere additional simple interest (not on the whole amount, but only on the unpaid balance) arrangements will be made for strictly confidential terms of payment as best suits the convenience of each buyer. STORY OF A LOAF OF BREAD \$ 100 00 FOR STORIES ON A LOAF

Special Prize Announcement in This Article

More than ever, I want to be known as Mrs. Thoroughly Convinced. I am making a very careful study of bread, and know how really good Royal Bread is. I left our loaf of bread, last Sunday, making its way leisurely to brown deliclousness. Long ago it has completed its journey and provided a delicious Royal treat for someone.

But other loaves are coming, thousands of them, because the supply never does seem to equal the demand. Today I want to tell you how the loaf of bread, together with many, many others, leaves its happy little journey through the snug, warm "riser" and drops quickly into the "shaping" machine. Here it is quickly shaped into a perfect loaf and dropped into the baking pan. Of course, all this takes place in the cleanest of surroundings, and is done by sanitary, modern machinery. All the time is the loaf being "shaped," weighed and "scaled" by various processes, and this is why Table Queen Bread is always so perfectly develwhy Table Queen Bread is always so perfectly developed and well-rounded. It enters the baking pans, not to go, as one would suppose, to the ovens, but through still another process, about which I will tell you next
