DISTRESSED SHIPS AIDED

Report of Commandant Also Tells of Distress of Aleutian Islanders, Starving and Prey to Insidious Disease.

WASHINGTON, Feb. 9 .- The United States revenue cutter service—the Red Cross of the sea—broke all its previous heroic and humanitarian records dur-ing the fiscal year 1512. Thousands of human lives and hundreds of tempest-tossed vessels, valued with their car-goes at nearly \$13,000,060, were saved from the perils of storm-awent seas

goes at nearly \$11,000,060, were saved from the perils of storm-swept seas by the little cutters which guard the consuline of the United States in an unbroken line from Maine to Texas and from Alaska to California, nervously alert for the "S. O. S."

The annual report of Captain E. P. Bertholf, commandant of the service, made public today, is a recitation of thrilling adventures of this army of the Federal Government, older than the American Navy. A total of 250 distressed vessels were assisted during the year and their burden of 2212 souls rescued from danger which in many rescued from danger which in many cases seemed impending death. One hundred and six persons were actually saved from drowning.

Aleutian Islanders Suffering,

Aleutian Islanders Suffering.
Revenue cutters on the Pacific Coast, penetrating the frigid waters of Alaska, brought back tales of suffering among the natives of the Aleutian Islands, in the grasp of poverty and disease, creating conditions, it is declared, demanding the attention and action of the Federal Government.

Vessels, cargoes and derelicts saved by the revenue cutter service during the year were valued at \$10,711,748. Forty-five derelicts and other dangerous obstructions to navigation were removed or destriyed.

"For every dollar the Government invested in the maintenance of the revenue cutter service," says Captain Bertholf, "there has been a return of \$4.36 in the form of property saved from the perils of the sea, and this in addition peris of the sea, and this in addition to lives saved and other beneficial acts performed in the interests of mankind. To accomplish this work there have been 25 cruising cutters and 18 har-bor vessels and launches actively em-

ployed during the year.

"The fiscal year 1912 was probably one of the most trying periods to shipping of any year during the past quarter of a century. Frequent gales swept the Atlantic and Gulf coasts, while during the Winter months the unusually low temperatures caused great danger. low temperatures caused great danger
to shipping and actual suffering to the
crews on account of the lee conditions,
even as far South as Cheasapeake Bay."
Among other unusual incidents Captain Bertholf told of how "piratical native wreckers" swarmed down upon native wreckers" swarmed down upon the Hamburg-American steamer Prinz Joachim when, with a large party of American tourists aboard, including William J. Bryan, she stranded on At-wood Cay, Bahama Islands, November 22, 1911. After the passengers had been removed these "pirates," said Captain Bertholf, became insolent and awares-Bertholf, became insolent and aggressive and at the request of the master of the Prinz Joachim the revenue cut-ter Algonquin with guns manned stood guard over the steamer and armed her

Suit for Damages for Dismissal of Professors Decided by Court.

BOISE, Idaho, Feb. 3.—(Special.)—
The University of Idaho regents, who dismissed from the service of that educational institution Professors R. M. E. Hyslop and J. R. Shinn, are upheld by the Supreme Court of this state, through a decision handed down late last night refusing them a judgment against the state. Professors Hyslop and Shinn asserted they were under contract to teach in the Moscow institution. They were discharged just before the Fall term opened two years ago and brought suit against the factualty and the university regents to recover damages under their alleged contract to teach for the school term. Hyslop was the institution's procontract to teach for the school term. Hyslop was the institution's professor of agronomy and asked for a judgment of \$1400. Shinn was at the head of another important department and asked for the same amount. After the faculty and regents turned down their claims the State Board of Examiners took the same action. The court holds in its opinion that the regents have a right to summarily dismiss any officer or employe of the university.
