

500,000 FOR ROSE FESTIVAL IS AIM

Royal Rosarians Lay Plans to Help Make 1913 Fete Biggest Demonstration.

CAMPAIGN IS ORGANIZED

W. C. Bristol Calls Attention to What Portland is Doing, With Less Funds, as Compared to Others—Officers Elected.

Co-operating with the Rose Festival Association to the fullest extent, the Royal Rosarians will begin, within the present month, a definite campaign for funds for the \$500,000 Rose Festival of 1913.

Eight of the directors of the Rose Festival Association, officers of the Portland Rose Society, delegates from the Ad. Rotary, and Progressive Business Men's Club, and from the Realty Board, joined the Rosarians at the dinner at the Commercial Club last night, went over the field thoroughly and laid out their preliminary plan of campaign.

The Festival Association will issue for the guidance of subscribers a statement of the Festival of last year, indicating the expense of the various features, and with this will be the budget prepared for the coming festival, showing the added features and the increased scope of the great entertainment, for which they are asking the support of the public.

At the opening address last night, W. C. Bristol outlined the history of the Portland Rose Festival, from 1907, when the first festival was given. He compared the work achieved with that of other festivals, and pointed out that each year the Portland Festival has been given on a larger scale than similar festivals in other cities, although the funds which have been given with which to do the work have at all times been less than those given in other cities. He warmly complimented the work of the Portland association.

Among other festivals he pointed out in comparison those held in Omaha, St. Louis, Kansas City and other places where more than twice the funds Portland has used have been appropriated.

Announcement was made also of the following officers of the Royal Rosarians elected at the recent meeting of the Privy Council: Grand Duke of Rosaria, H. L. Pittcock; Prince of Rosaria, R. W. Hoyt; Prince Regent, W. C. Bristol; Prime Minister, W. J. Hoffmann; Lord High Chancellor, W. E. Coman; Lord Chief Justice, G. L. Hutchins; Lord High Sheriff, Dean Vincent; Secretary of State, C. C. Craig; Chancellor of the Exchequer, Hy Eilers; Master of Ceremonies, J. Fred Larson; Lord High Chamberlain, G. M. Hyland; Lord High Steward, F. C. Riggs; and Royal Master of Jinks, C. C. Chapman.

PIONEER OF 1852 PASSES

Mrs. Elizabeth Kiser Warner Dies Near Oregon City, Aged 83.

Mrs. Elizabeth Kiser Warner, a pioneer of 1852, relict of the late Arthur Warner, a pioneer of 1843, and a member of the lower house of the Legislature in 1845 from Clackamas County, died at the family residence, "Locust Farm," two miles south of Oregon City, yesterday. Mrs. Warner was born in Troy, N. Y., November 22, 1830, and removed with her parents to Pennsylvania when a mere child. In 1843 the family removed to Illinois, crossed the plains with ox teams in 1852, and settled in Clackamas County. Her mother died on July 7, 1874, and her father, a blacksmith and a farmer, on November 17, 1880.

After Mrs. Warner's arrival in Oregon she taught school a few months in Clackamas, Marion and Polk counties and on November 22, 1884, was married to Mr. Warner. To them eight children were born. Three now living are: Mrs. Annie King, Arthur C. Warner and Mrs. Ward Lawton. They all live near the old family home, which prior to 1882 was the residence of Rev. Morton M. McCarver, a pioneer of 1843. Mrs. Warner united with the Congregational Church, of Oregon City, prior to 1880, during the residence of Rev. George H. Atkinson, and at the time of her death was one of the oldest members of that church.

W. H. DALY TO BE SPEAKER

Civic Club Will Hear Address on "How Portland is Governed."

William H. Daly, of the City Council, will speak before the Portland Civic Club tonight at 8 o'clock on the subject, "How Portland is Governed."

The programme for subsequent meetings is as follows: February 25—"Good Roads," illustrated, Sam Hill, president Home Telephone Company. March 11—"Reform in Judicial Procedure," A. R. Clark, chairman Judicial Revision Council. March 25—"Modern Social Service," V. B. Manning, general secretary Associated Charities; "Playgrounds," L. H. Weir, field secretary; "The Panama Canal," illustrated, L. M. Lepper, engineer Panama Canal. April 23—"Currency Reform," Edward C. Chapman, vice-president Ladd & Tilton Bank.

All meetings are held in the auditorium, room 226, of the Medical Building, Park and Alder streets, on the second and fourth Tuesdays of each month, and are open to men and women interested in the subjects discussed.

O'NEIL IS FOUND GUILTY

Wallace Banker Convicted of Making False Reports.

COEUR D'ALENE, Idaho, Feb. 10.—The jury in the case of R. F. O'Neil, of Wallace, charged with signing false reports of the condition of the mines of Commerce, returned a verdict of guilty today. The jury was out 90 minutes. Judge R. M. Dunn, of the District Court, announced that he will sentence O'Neil on Thursday.

VOTE OF LINEMEN TAKEN

Canvass on Renewing Old Scale Is Due Tonight.

A canvass of the vote of the linemen and switchboardmen of the Pacific Telephone & Telegraph Company on the subject of accepting the scale of \$3.75 a day for another year will be made at San Francisco tonight. It is believed that the vote has been decidedly against renewing the scale at that figure.

It is not probable, however, that the

men will go out on strike immediately following the announcement of this vote. An attempt to arbitrate with officers of the company will be made first.

In all negotiations between representatives of the company and committees of the men since the first of the year the men have adhered firmly to their demands for \$4.75 a day, while the company expressed no willingness to advance the rate beyond the present figure of \$3.75.

It is understood that if the canvass tonight shows that the men are willing to continue at work at the present scale negotiations will be at an end for another year.

Officers of the company, both here and at San Francisco, declare that the men have no great grievances. They admit that their linemen and switchboardmen are paid less than similar employees of the electric companies and some of the railroads, but they point to the fact that the occupation of a telephone linemen is much less hazardous than that of an electric linemen.

The scale of \$3.75 covers an eight-hour day. The men are paid double time for overtime, Sundays and holidays. Tomorrow being a legal holiday all linemen who work will be paid \$7.50 instead of the usual \$3.75. Linemen also have a chance to advance to the position of assistant foreman which pays \$4.25 a day. Foremen, who also are recruited from the ranks, receive \$125 a month.

It is improbable that the telephone girls can be induced to go out in sympathy with the men in case of a strike. The girls are not organized and if taken out, it is believed, would cause only a small percentage of them to leave their work.

MUSICIANS NOT PLEASED

AUDITORIUM PLANS CRITICISED AT MEETING.

After Declaring Building, as Now Designed, Adapted for Horse Show, Change Is Suggested.

That the new civic auditorium to be erected at a cost of \$500,000 should have an inclined floor and that the stage should be better adapted for the installation of the pipe organ, and more conveniently arranged for concerts, were the principal suggestions reached yesterday afternoon at a meeting held at the Portland Hotel, of the Professional Music Teachers' Club, of this city.

The plans now before the Auditorium Commission call for arrangements of a building more suited to a horse or auto show than a concert, in the opinion of the musicians.

W. Gifford Nash, president of the club, presided over the deliberations, the other officers being Frederick W. Goodrich, vice-president, Dr. Emil Enns, secretary, and Carl Denton, treasurer. The other members present were: William H. Boyer, William Mansell Wilder, Harold Bayley, William Wallace Graham, John Claire Monteith, John Ross Fargo, F. G. Eichenlaub, H. E. Millard, W. Traylor, M. A. Ballinger, G. L. Garris, Daniel H. Wilson, and others. Hy Eilers was present as an invited guest. Regret was expressed when it became known that the floor of the auditorium must, according to city ordinances, be formed of concrete.

"That will kill our efforts to get an auditorium floor on the inclined plane or tiered, so that audiences can see what is being done on the stage," complained one member.

"The plans now under consideration by the commission provide that the pipe organ shall be located at one end of the stage and a rehearsal room at the other end," said Mr. Nash.

"The pipe organ should be built in the center of the rear part of the stage," said another speaker. "The plans of the auditorium now submitted and before the City Council—which is preparing to issue the first installment of the bonds—are no improvement over the County Armory, for musical purposes."

It was ultimately decided that the club's committee request that the auditorium floor be inclined, "as the principal and most regular income to be derived from a city auditorium is through musical festivals, miscellaneous concerts, organ recitals, and symphony or oratorio concerts, at a minimum price of admission," that the pipe organ ought to be built in the center portion of the stage at the rear, and that the club petition the auditorium commission and the City Council to take these recommendations into consideration before any bonds are issued or money spent. This latter committee is composed of F. W. Goodrich, J. C. Monteith and F. G. Eichenlaub.

MONTENEGRINS WIN HILL AT BIG COST

Bardejoli Taken After 2500 Men Are Slain—Turks Lose 4000 Troops.

FIGHTING IS HAND-TO-HAND

Position Captured From Ottomans Dominates Scutari From Eastern Side and Victors Are Mounting Siege Guns.

LONDON, Feb. 10.—Severe fighting has occurred in the attempt of the Montenegrins to capture Scutari. The Montenegrins are reported to have taken Bardejoli Hill, one of the strategic positions, but at a cost of 2500 men killed and wounded. The same dispatches place the Turkish loss at 4000 men.

The Montenegrin army besieging the Turkish fortress of Scutari carried the great Bardejoli Hill by assault at 10:30 this morning, after several hours of severe fighting.

The infantry came to such close quarters that hand-to-hand fighting was general along the line. Bardejoli Hill dominates Scutari from the eastern side, and the Montenegrins are mounting siege guns on the heights to bombard the principal points of the city.

Fighting continued all day around the city, the Turkish defenders disputing the ground with fierce determination.

A Montenegrin attack on the heights of Tarabosh, which dominates Scutari on the west, has been going on for three days. This onslaught is believed to have been as sanguinary as the engagement at Bardejoli.

Thousands of fresh troops have been arriving at Constantinople from Albania, and in the last few days several troop ships have sailed, but their destination has not been divulged.

There are signs that the Porte realizes the hopelessness of the situation and is preparing the way to leave the fate of Turkey in the hands of Europe to obtain the best possible settlement.

Although it is officially denied that Hakkî Pasha has been sent on a peace mission to London, there is little doubt here that that is his object.

REVOLVER RECORDS MADE

Portland Club Members in Trim and Hansen's Score Is Perfect.

Two season records were broken last night by the members of the Portland Revolver Club in the scheduled shoot of the United States Revolver Association League. In the shoot against the Springfield team Walter Hansen made a perfect score of 50 and in the competition against the same team the five-man squad scored 116, the best mark of the year.

Against the Olympic Club, of California, the Portland shooters made a score of 1023. Captain J. T. Moore proved to be the best shot of the evening, making the highest scores in both matches.

Match 23, Portland vs. Springfield. Captain Moore... 48 47 42 47-226 Hansen... 42 45 30 45-225 Clifford... 49 46 43 40-220 Evans... 42 41 46 43-221 Hubbard... 42 41 49 43-221 Grand total, 1116.

Match 24, Portland vs. Olympic Club. Captain Moore... 45 44 46 43-205 Hubbard... 42 43 46 44-222 Chadwick... 42 43 42 46-218 Clifford... 44 42 44 41-214 Evans... 45 40 43 39-212 Grand total, 1092.

Washington 25; Oregon 10. SEATTLE, Feb. 10.—(Special).—In the first game of a basketball series between the university teams of Washington and Oregon tonight, Washington won, 25 to 10.

DANCING ACT IS ALLURING

Genee, the famous danseuse who comes with her corps de ballet and own orchestra to the Heilig Theater next Friday and Saturday nights, February 14 and 15, brought New York to her feet in homage in a single night. The New York Herald says: "Genee has poetry in her feet. The dancer from the Empire, London, appeared here for the first time last evening in the New York Theater and she danced her way straight into the hearts of her audience." An entirely different programme will be given each evening.

Wanted

Someone to handle Alco Motor Trucks and Alco Motor Cars in This City

We want a good, alert man who has a little money but more ambition and energy and a clean record to handle our line in this city. He need not be an automobile man. He may be a bank man, a wholesale grocer, in the machinery business, sell typewriters, farm machinery, or in some other line of business.

We know the motor truck business offers a greater breadth of opportunity than any of these fields. The man who goes into the business today stands a better chance than the man who enters tomorrow. Tomorrow there will be many where today there are few. It is a good business, interesting in the extreme, a new business with the pioneering element left out, profitable, and with a future as wide as the horizon.

For every four horses in this city some day there will be a motor truck—and not far distant. Today there are over 1000 horses to each motor truck.

Someone is going to sell these trucks, create a handsome business and become a force in the community.

They are being sold more rapidly than any other.

They are being built in larger quantities. And then, remember, that you are dealing with an organization that is capitalized at \$50,000,000, and dates back to 1835 as movers of the world's goods.

Phone or call and learn our proposition.

W. F. Winkelmann, New Washington Hotel, Seattle, Wash.

Special Representative

Builders of Alco Motor Trucks, Alco Motor Cars, Alco Taxicabs.

Movers of the World's Goods Since 1835. Capital \$50,000,000.

SCOTT PERISHES AT POLE

as ever in the past. We took risks; we knew we took them. Things have come out against us and therefore we have no cause for complaint, but bow to the will of providence, determined still to do our best to the last.

Appeal Made to Countrymen. "But if we have been willing to give our lives to this enterprise, which is for the honor of our country, I appeal to our countrymen to see that those who depend on us are properly cared for. Had we lived, I should have had a tale to tell of the hardihood, endurance and courage of my companions which would have stirred the heart of every Englishman."

These rough notes and our bodies must tell the tale, but surely, surely, a great rich country like ours will see that those who are dependent on us are properly provided for. (Signed) R. Scott, March 25, 1912.

Surgeon Atkinson and his party gathered the records and effects of the dead and read burial services over their bodies and erected a cairn and cross to their memory over the inner tent in which they were buried. A record of the finding of the bodies was left attached to the cross.

The party then searched 20 miles south endeavoring to discover the body of Captain Oates. It was not found, but another cairn and record were left in the vicinity to his memory. It should be noted that the Southern party nobly stood by their sick companions to the end, and in spite of their distressing condition they had retained every record and 35 pounds of geological specimens which proved to be of the greatest scientific value. This emphasizes the nature of their journey. The search party then turned northward, having decided to direct their efforts next to the relief of Lieutenant Campbell and the Northern party.

STARVATION DEEMED CAUSE

Friend of Scott Believes Blizzard Merely Incidental.

LIVERPOOL, Feb. 10.—Dr. Louis Charles Bernacchi, who was with Captain Scott in the discovery Antarctic expedition, said tonight regarding the death of his chief: "It is improbable that a blizzard was the real cause of the disaster to Scott's expedition. It seems probable that Captain Scott, in his endeavor to reach the Pole before Amundsen, cut things too fine in the matter of food. My opinion is that the party died from starvation, but that the blizzard proved the crowning catastrophe."

PHOTOGRAPHER BELIEVED SAFE

BERKELEY, Cal., Feb. 10.—H. G. Ponting, photographer of the Captain Scott party, may have escaped the fate of the commander and others owing to the fact that the apparatus he took with him was too cumbersome to transport on the final dash to the pole. Ponting's wife, who lives here, said tonight she believed him to be safe.

MRS. SCOTT NOT APPRISED

Wife of Explorer, on Ship, Does Not Know Husband's Fate.

SAN FRANCISCO, Feb. 10.—(Special).—Repeated efforts of wireless stations in and around San Francisco to communicate with Mrs. Robert Scott word of her husband's fate have been futile. Mrs. Scott is a passenger of the steamship Aurang, bound for New Zealand. She departed February 5 from this city for the purpose of greeting

her husband when he arrived from the Antarctic zone. The Aurang is approximately 1000 miles from this port. Her wireless has a radius of only about 200 miles, and if the messages sent from here reached her no answer has been obtainable. It is believed possibly that before morning she may be in communication with Honolulu, although she does not touch at that port, her first port of call being Papeete, Tahiti, where there is neither cable nor wireless.

There are a number of messages here for Mrs. Scott, and late tonight an attempt was made to relay them to her by way of Honolulu. Just before her departure she said that she had not heard from her husband in 14 months, but was confident that Captain Amundsen was extremely cautious in his comments on the reported tragedy. Scores of the telegrams from London and throughout this country asking for comment on the Scott expedition and its fate remained unanswered by Captain Amundsen.

The Amundsen and Scott ships were in communication in the Southern Sea, said Secretary of State. He said that the Scott party had been at the Norwegian explorer's base of supplies, but had not sought to meet the rival expedition.

DISCOVERER IS SHOCKED

Captain Amundsen Grieves Over Tragedy, but Talks Little.

MADISON, Wis., Feb. 10.—Captain Roald Amundsen forgot his own distinction as discoverer of the South Pole tonight in expressing his profound grief over the tragic fate of Captain Robert F. Scott in Antarctica.

"Yes, every day except today," said Amundsen, "I am extremely cautious in his comments on the reported tragedy. Scores of the telegrams from London and throughout this country asking for comment on the Scott expedition and its fate remained unanswered by Captain Amundsen.

The Amundsen and Scott ships were in communication in the Southern Sea, said Secretary of State. He said that the Scott party had been at the Norwegian explorer's base of supplies, but had not sought to meet the rival expedition.

SOCIAL HYGIENE SUBJECT

Dr. W. T. Foster Opens Series of Reed College Extension Lectures.

President William T. Foster of Reed College gave the first lecture of the new Reed Extension Course of social hygiene and morals at the Portland Hotel last night.

The subject of the first lecture was "General Aspects of a Social Emergency." In this lecture, Dr. Foster outlined the work to be covered by the whole course. He showed the relation of the subject to various phases of social hygiene and morals at the conditions that cause the existence of the social evil. The social evil, he declared, to be the result of ignorance, the part of parents, teachers and young people regarding the fundamental facts of sex life.

In discussing the economic aspects of the question, Dr. Foster blamed employers for the low wages paid to women.

VICKSBURG DOCKED TODAY

Inspectors Will Investigate Collision With Naval Tug.

SEATTLE, Feb. 10.—The gunboat Vicksburg, which was rammed and almost sank at the Puget Sound Navy Yard today by the naval tug Fortune, will be placed in drydock tomorrow. The steel prow of the tug cut a gash 15 feet long and more than a foot wide in the Vicksburg's starboard quarter and it was necessary to use collision mats to keep the gunboat from going to the bottom. A board of inspection will investigate the accident, which happened in a thick fog.

OREGON SALES 'ABSENT'

NO MEMBERS OF FIRM OR EMPLOYEES CAN BE FOUND.

Seattle Mystery Unsolved Because "Firm" Is Missing and Others Don't Want to Talk.

Why everyone connected with the Oregon Sales Company, on whose letterhead paper was written a letter which was found on the person of the dead girl, should be mysteriously absent from the place of business yesterday, while others refused to divulge the most commonplace facts regarding them, is a question which Captain Baty set Detectives Tichenor and Abbott to answer yesterday.

Inquiry at the office of the Oregon Police, 443 Alder street, was instituted upon a report from Seattle that the young woman carried a letter addressed to herself and written in a feminine hand on stationery of the company. The letter was addressed to "Old Pal" and was signed "Pal."

No one was found at the place of business, which dealt in electrical automobile supplies, nor were persons having establishments in the same building willing to talk.

"No one was found at the place of business, which dealt in electrical automobile supplies, nor were persons having establishments in the same building willing to talk.

"I don't want to tell; I don't want to be mixed up in it," was the answer when the presence of some representative of the company was requested.

"Are they not usually here?" "Yes, every day except today," said Amundsen, "I am extremely cautious in his comments on the reported tragedy. Scores of the telegrams from London and throughout this country asking for comment on the Scott expedition and its fate remained unanswered by Captain Amundsen.

BRAIN LESION DEATH CAUSE

To Form of Hemorrhage Is Laid De-mise of Miss Setford.

SEATTLE, Wash., Feb. 10.—(Special).—That Miss Claudia Setford, 310 Nineteenth avenue North, died in Providence Hospital Saturday of the indirect result of a brain lesion, a form of brain hemorrhage, and not from injuries sustained in an automobile crash, was the conclusion reached by Doctors H. J. Davidson and H. D. Dudley, following an autopsy today.

The lesion, the physicians declare, made an operation necessary, and while this was successful, Miss Setford succumbed later to a lung affection. The result of the autopsy bears out the story told at police headquarters yesterday by Yamamura, a Japanese, who declared he had seen Miss Setford walking at Nineteenth and East Madison streets, and suddenly throw up her hands and fall to the pavement. The woman was found on the car tracks, and it was believed she had been struck by an automobile.

PREACHERS SCORE SOLONS

Legislators Criticised for Defeat of Home Rule Amendment.

At the regular meeting of the Methodist Ministers' Association in the First Methodist Episcopal Church yesterday, the pastors expressed contempt for the action of the Legislature in pocketing the home rule amendment bill, and agreed to voice their protest by telegraph and through the Northwest Christian advocate.

Dr. Harry E. Ward, of Chicago, general secretary of the Methodist Federation for Social Service, spoke on "The Social Task of the Church, With Special Reference to the Function of the

Pulpit." He deplored the lax state in some of the departments of the churches.

PARALYZED NEGRO IS HANGED

JACKSON Miss., Feb. 10.—Unable to walk or stand because of a bullet that had paralyzed his spinal cord, Seymour Arnold, negro, was carried today on a stretcher to the gallows at Collins, Miss., and hanged. Arnold was executed for the murder of William Lowry, a tobacco merchant of Ora, Miss., last Fall.

UPSET, BILIOUS, SICK? "CASCARETS"

No Headache, Bilioousness, Bad Taste or Constipation by Morning.

Are you keeping your bowels, liver and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway through these alimentary or drainage organs every few days with Salts, Cathartics Pills, Castor Oil or Purgative Waters. Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels. A Cascaret tonight will make you feel great by morning. They work while you sleep—never grip, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bilioousness, constipation, indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.
