# WOMEN IN QUAKER STATE SEEK VOTE

Suffragists Storm Senate in Demand That House Resolution Be Adopted.

OPPONENTS ARE CORNERED

Mary Flinn, Daughter of Pittsburg Leader, One of Party, Rebuffed by Senator McNichol, Who Refuses to Aid Movement,

HARRISBURG, Pa., Feb. 18 .- Women in favor of equal suffrage stormed the Senate chamber and corridors of the State Capitol today in advocacy of "votes for women." Every Senator opposed to the measure was urged to support the suffrage amendment.

Senator McNichol, of Philadelphia Republican leader of the Senate, smilingly told the women, among whom was Miss Mary Flinn, daughter of State Senator Flinn, of Pittsourg, that he was unalterably opposed to votes for women. He hastened to assure, them, however, that he would not influence other members to vote against the equal suffrage resolution, which has been adopted by the lower branch of the Legislature and is expected to be acted upon by the Senate.

National Association to Have Hearing Before Committee of Congress.

WASHINGTON, Feb. 18.—Opening here tomorrow of headquarters of the National Association Opposed to Woman Suffrage will mark the beginning of the most comprehensive and active campaign against the extension of the franchise that the association ever has undertaken. One of the first moves to be made by the association will be a hearing before a Congressional committee, at which it is pro-posed to show why the anti-suffrage movement should prevail.

Miss Minnie Bronson, general secre-tary of the association, reached Wash-ington today and began outlining the campaign. Mrs. Arthur M. Dodge, president of the organization, went to her home in New York today, but will return soon to take personal charge of the campaign.

NEW DRYDOCK IS INSECURE Pearl Harbor Engineers Fear Plans for Opening Are Thwarted.

WASHINGTON, Feb. 18.—Injury sustained by the great drydock at Pearl Harbor yesterday was reported to the Navy Department today in a brief cablegram from Rear-Admiral Cowles, commandant of the station. It is feared the disaster will have the effect of completely thwarting the plans of the engineers to have this dock opened for naval use by the date of completion of the Panama Canal. It is understood that the bottom of the dock has been forced up as the water was pumped out, indicating insecurity of the foundation. So far about \$1,250,000 has been expended on the dock. Senator Stone made the first speech against the re-passage of the bill. Barracks Filled With Young Girls Could Be Maintained on Reve-Yielded by Products, Declare Calculators

BERLIN, Feb. 18 .- (Special.) -All last year German newspapers and publicists discussed busily and, as a rule unfruitfully, the problem of National Service for Women. But this was as a rule implied state compulsory service; and the service which women were to perform varied from full military service to mere systematic training in housekeeping and bringing-up of children. A good deal of levity naturally was

A good deal of levity naturally was displayed; but, on the whole, the idea survived, as is proved by the fact that at present more than one organization is trying to establish something like voluntary national service. The idea, for widely different reasons, has appealed to Germans.

Militarists like the suggestion of stiff discipline; peace enthusiasts imagine that an army of women busy in useful work would be a standing reproach to militarists; and anti-feminists say that if women are compulsorily grounded in domesticity they will forswear the vote and other male vanities. Ingenious calculations have been made to prove that barracks full of young girls could be maintained on the revenue could be maintained on the revenue yielded by sewing, knitting and cook-

Solution for Poverty Offered. Dr. Felix Halm, an ingenious Stuttgart statistician, proves that the whole question of urban poverty can thus be solved; that if only the state insisted on 235,000 girls working hard for a year there would be everywhere enough bread, clothing, and blankets; and a still more ingentous statistician proves that the state could make a surplus of \$16,000,000 out of the female conscripts

The objections raised in some quar-

tempts at voluntary service for women are being made by private organiza-tions. The Union for Women's Eco-nomic Schools is starting three Women's Serving-Places (Frauendienst-plactze), where girls will be taught agriculture, gardening, nursing and other occupations. One is at Saar-bruecken, a second at Pirna in Saxony, and the third in Bayaria. If these and the third in Bavaria. # FRANCE REBUILDING ARMY

PARIS, Feb. 18.—France appears to be facing with a spirit of determination the immense efforts, both financial and personal, which the government's military measures, now in preparation, are likely to demand. That is the essential pote of ties of all parties except the extreme socialists.

It was estimated unofficially today that France will be called upon to provide about \$40,000,000 annually for additions to her army, besides the in-itial expenditures of not less than \$120,000,000.

The young men of the Nation will be obliged, if present plans are carried through, to give another six months and perhaps another full year to serv ice with the colors.
