reduction in values.

Manger & Henley—Trade has been quiet the past week, the principal inquiry being the cheaper grades of copper hope.
W. H. and H. Le May—There is some cistness being done where holders are

There are plenty of good oranges still in California not hurt by frost, according to the Fruit Growers' Exchange. An official of the exchange in a statement says:

'There are several thousand cars of good navels in California which will be moved within the next few months. Exchange shippers are now commencing to move some of their best fruit. Most of this stock is going to Western points at the present time, but inter on as the situation clears up in the East, all markets will receive a fair supply. We are not denying that a large propoperition of the citrus crop was seriously damaged by frest, but we most emphatically damaged, stock that will give satisfaction to the trade and consumers; this along with the best fruit, will be moved out gradually as market conditions warrant.'

APPLE JOBBING TRADE SLOWS DOWN

Only three leads of stock arrived at the partial point on the sheep and nothing was offered for sale. Receipts for the week have been light, which accounts for the good prices that have prevailed, especially in the cattle and hop markets. Commenting on the position of the sheep market. Commenting on the position of the sheep market the Livestock Reporter asys:

"Just where the sudden demand for sheep and lambs sprung from this week is a puzzle as the trade was certainly apathetic the close last week. However, receipts contained awme extra cholec, grain-fed, wool with the close last week. However, receipts contained awme extra cholec, grain-fed, wool with the close last week. However, receipts contained awme extra cholec, grain-fed, wool with the close last week. However, receipts contained awm extra cholec, grain-fed, wool with the close last week. FUTURE BUSINESS

Continued Activity in Iron and Steel Industry - February Railway Earnings and Other Statistics

The wheat market is recovering from the slight setback it experienced at the opening of the week. There was no easing off of values at any time, but for several days buyers were cautious about taking hold. Now they are in the market again and willing to pay going prices. The course of the Chicago and Liverpool market is established on a solitor hashes for choice quality. A small lot of the heat grade of bluestern was sold to cally at \$1.09\$ and the country reported some business at better than \$1. Another lot was offered on the market at \$1.00\$ to the market at \$1.00\$ to the country reported some business at better than \$1. Another lot was offered on the market at \$1.00\$ to the country of the country o of Trade building, Portland.

NEARLY SIX MILLION DOLLARS ENGAGED AT NEW YORK.

Strained Monetary Conditions Abroad Affect the Wall - Street Market-Tendency Downward.

NEW YORK March 7.—Engagements of about \$6,000,000 gold for expert expressed in concrete terms today the bearing of strained monetary conditions abroad upon this market. The first engagement of gold for Germany since the Spring of 1908 was announced. The hulk of the gole, nowever, goes to France and Argentine.

Borlin was again bidding 0½ per cent in this market today for 00 and 50-day loans in advance of April settlements. Indications were that the exportation of gold, which has amounted to pearly \$35,000,000 this year, would be carried further, this country having the least protected supply of the metal. The outlook for casy morey rates was not favorable, although the call money rate here is still the lowest of any of the world's great financial centers.

Last week's banks statement showed that the excess reserve had been reduced to a slender margin and forecasts of tomorrow's report, based on known movements of currency, indicated a further loss of \$3,000,000.

The destarbing influence of-monetary conditions abroads was left in this market as and local selling. The close was ready to stand on shown market as the excess reserve had been reduced to a slender margin and forecasts of tomorrow's report, based on known movements of currency, indicated a further loss of \$3,000,000 or \$4,000,000. Reserves Are Estimated as High as 158,000,000 Bushels.

HEAVY RECEIPTS FOR DAY

Later Weaken-Coarse Grains . Are Generally Higher.

CHICAGO. March 7.—Receipts in such volume as to look more suitable for September than for March halted an savance today in wheat. Prices, though steady at the close, were \$5 lower to 1-10c up. The outcome for corn was the same as last night to a shade higher, and for oats unchanged to a rise of \$5c. Pork wound up 24c to 15c dearer, but no material difference was maintained in lard or ribs.

Big reserves of wheat on the farms appeared to be evident and one authority estimated the total as high as 158,000,000 bushels. Stocks in miliers' hands, also, were declared to be larger than a year ago. News of this character, however, did not influence the market until after there had been considerable hardening of prices on account of ocean freight room engaged for 21 bontloads by way of the guil.

Arrivals of wheat at primary points were \$36,000 bushels. Sameler receipts of corn tended to make that cereal advance. The market reacted, though, when wheat turned downward.

Paucify of offerings gave oats an appearance of strength.

New high prices for hogs inted provisions and gave pork a fresh top record for the CHICAGO, March 7.-Receipts in such
