

WILLSON TO ENFORCE PARTY DISCIPLINE

President Believes Himself Especially Chosen to Guarantee Pledges.

TARIFF IS ONE EXAMPLE

Harris of Georgia Scheduled for Place at Head of Census Bureau and Dr. Neill's Name Will Be Sent In Again.

WASHINGTON, March 19.—President Wilson will confer frequently with the members of the House and Senate in the President's room at the Capitol in the extra session of Congress. This was announced at the White House late today.

The President intends to make himself as accessible as possible to members of Congress on the days when tariff legislation will have reached its most important development.

The President will go to the Capitol, it was said, at the White House, in a spirit of friendly co-operation, there to consult with Democrats and Republicans alike on the progress of legislation. He believes, however, that he should go to the Capitol as the party leader. He always has said that the President of the United States was the elected leader of his party and that he particularly was charged by the people with the carrying out of party pledges. Mr. Wilson believes that party bills should be treated as party measures.

Unchanged Bill Desired. The announcement today that the finance committee of the Senate and the ways and means committee of the House would work on the tariff bill in joint conference, consisting of the President often, was in line with his idea that the Democratic leaders in Congress should draft a tariff bill which should stand or fall on its merits, both in Congress and before the country. He believes in enforcing party discipline, and after the leaders have approved the tariff bill he will make every effort to secure its passage in both houses without material alteration.

The President, not members of Congress today regarding appointments, received many visitors in the East room and took a bracing automobile ride. Senator Smith of Maryland called to urge the appointment of W. C. Devotion for the vacant judgeship in the Fourth United States District Court, but did not discuss the Senatorial contest in Maryland. Though urged to do so by the Maryland leaders, the President has not said definitely whether he is for or against the re-election of Senator Smith, Democrat.

Neill to Be Named Again. It became known that W. J. Harris, chairman of the Democratic State Committee of Georgia, probably would be chosen director of the census. It also was declared authoritatively that the nomination of Charles F. McNeill to be Commissioner of Labor Statistics would be sent to the Senate again when Congress convenes on April 1.

Mr. Wilson was congratulated formally on his election to the Presidency by a committee of the American Philosophical Society, of which he is the eighth member to become Chief Executive of the Nation.

The President also received a committee from the National Conservation Congress, which told him they wanted to elect him president of the organization, which was affiliated with the National Progressive party or any other political party. They declared their wish was to elect the President of the country's National resources and that they approved his principle that "conservation is not conservation."

FOREST GROVE, Or., March 19.—(Special.)—James H. Sudd, a resident of this county since 1884, died at the home of his son near Thatcher Monday. Burial was made today in Hillside Cemetery.

Thirteen years ago he took up his residence with his youngest son, Charles, who, with a sister, Mrs. Eleanor Bennett, also of this county, and Henry James Sudd, of Oakland, Cal., survive.

Laborers of Hercules Completed. "With Mr. Bryan's soundness of heart goes indomitable energy, courage and persistence. Like another Hercules, he has come from each labor feeling that he has done a day's work, but always ready for another. If he wrestled with a lion yesterday, he is ready to strangle the hydra today. If it were pointed out to him that he had not brought up Cerberus from Hades he stood ready to tackle the job.

"If they witted him with not bringing back the golden apples from the Garden of Hesperides or with not cleaning out the Augean stables, he redoubled his efforts, took off his coat and in the year 1912 he completed both tasks.

I cannot tell you what a comfort it is to me to know that I am to have the aid and counsel of your distinguished fellow townsman. It is a source of genuine pleasure, as well as great advantage to me to be associated with him."

CHINA POLICY IN DOUBT

WILSON CONSIDERS QUESTION OF FORMAL RECOGNITION.

Ministers Now Have Full Power, but Republic Would Appreciate United States' Action.

WASHINGTON, March 19.—President Wilson is giving serious consideration to the question of formal recognition of the Chinese Republic. The President apparently has not settled definitely the question of recognition and it was believed tonight that several conferences on the subject and many meetings of the Cabinet will be necessary before the Administration's attitude is defined.

For many months the United States has dealt with the Chinese Republic as a de facto government and formal recognition is largely a matter of sentiment. The American Minister to China and the Chinese Minister in Washington have had practically all the power they would have possessed if recognition had been given. It is known, however, that China has been most desirous that the United States, the greatest republic, recognize the latest addition to republican ranks.

The President's advisers believe China would be in a better position to carry on her loan negotiations if she had the official approval of her new government from a great power, and her feeling of friendship for the United States would be increased, with the commercial advantages resultant therefrom.

COURT COMPELS HALT

PERUVIAN AMAZON COMPANY AFFAIRS WINDING UP.

British Consul-General at Rio Janeiro Gives Evidence Holding Responsible Arana Brothers.

LONDON, March 19.—The Chancery Court ordered today the compulsory winding up of the Peruvian Amazon Company, the investigation of which by Parliament revealed sensational charges in the treatment of natives employed in the fields. In this connection Sir Roger Casement, British Consul-General at Rio Janeiro, gave evidence as to the charges, for which he held the Arana brothers responsible.

The action taken by the court removes Julius Caesar Arana from the position which he held as liquidator of the company. In an affidavit contesting the application to remove him, Arana, who was in court, declared that the Indians of the Putumayo district were cannibals who resisted the advance of civilization. Neither he nor any member of the firm, he declared, had any suspicion of the real character of the agents who collected the rubber. He denied that the Indians in their employ had ever been valued as assets.

DEALER IS NOT AFRAID

HARVESTER COMPETITION SAID NOT TO MENACE. Witness in Dissolution Suit Admits He Used "Anti-Trust Argument" in Selling His Goods.

OMAHA, March 19.—The International Harvester Company put some of its star witnesses on the stand today in defense of the Government's anti-trust suit against them as competitors and dealers. Christopher Dunkle, representing a competitor, declared he had already made contracts with dealers for the present season which he hoped might result in the sale of to exceed 1000 binders in his territory.

Attorney Grosvenor, for the Government, asked him if the recent entry into the binder field was not due to the Government's suit against the International Harvester Company, but Mr. Dunkle declined to admit such a condition existed, saying at least two of the present competitors were in the field before the suit was brought.

Of the dealers, C. G. Chapman, of Giltner, furnished testimony to show that keen competition existed in his territory for business in binders. He said he was a blacksmith and had taken on a job of implementing last year. He said, according to his testimony, as many binders as the two agents combined who handled International lines. He admitted, however, that he used an argument that he was selling binders not made by the "trust."
