OLD LAW BARS WEDDING

CHILDREN OF INDIAN WOMAN AND WHITE MAN VICTIMS. After Paying for Marriage License Himself, Judge Finds Half-Breeds Cannot Be Legitimized.

After paying out of his own pocket for a marriage license for W. S. Anderson, white, a defendant in his court on a statutory charge, and Mary Tibbets, Indian, with the idea of legitimizing two lads 9 and 7 years of age, pupils of the Indian school at Chewas, Or., Justice of the Peace Jones yesterday found himself barred from performing the marriage ceremony by an Oregon law, adopted in 1866, which forbids the marriage of a man or woman of white blood with anyone more than half Indian.

For more than 10 years Anderson and Mary Tibbets lived together in a little shack at Troutdale. To them were born the two boys now at Chewas. Their relation could not be construed as that of common law husband and wife for the reason that the Oregon statutory enactment referred to overrides the common law rule. With them lived a daughter born to Mary Tibbets years before Anderson took up with her. This girl, who is half white, is now 21 years of age. Judge Jones yesterday discovered her at the County Farm with a two-week-old baby in her arms, the son of a white father, said by the girl to be Willie Nichols.

Endorses Chamberlain's Cough Remedy After Twelve Years Use.

Mrs. L. S. PARK. "From the experience I, and others of my family, have had with Chamberlain's Cough Remedy during the past twelve years, I know that it is safe and reliable. I have used it for children for croup and colds, and have taken it myself and we all have a high opinion of it. Being free from opiates, there is no danger in giving it to the smallest child," writes Mrs. L. S. Park, Waterloo, N. Y.

from which he defrauded the New York branch of the Royal Bank of Canada over thousands of dollars. With the aid of a young woman whom he met in New York he spent all the money in Europe in about a month and returned to New York, where he was arrested.

GALA NIGHT IS PROMISED

SOCIETY WILL TURN OUT TO SEE AUTO SHOW. Outside Visitors Praise Exhibits Northwest Agency of Speedometer Won for Portland.

Two special announcements were made yesterday during the third day of the fourth automobile show, which is being held all this week at the Eckenberger building, East First and East Morrison streets. One was that, instead of closing at 10:30 P. M. on Saturday night, as had been intended and as is the case on other days, the show will remain open until midnight, and it will be made the gala night, and the second was that tomorrow is to be society night.

Among the amusing features of the show were the tire contests waged between the two teams of policemen, and the rivalry between two polishing firms for the right to brighten the instruments of McElroy's Band. The salesmen were in their best clothes, when a designing manager offered a prize for the man who could take his tire off and put it on again in 150 seconds. By the time they were all through and noticed their clothes they decided that it would have been cheaper not to enter.

YOUR PLANT JUICE IS FINE STUFF," SAYS CALIFORNIAN

He Was Merely Expressing His Opinion of the New Tonic That Is Being So Much Discussed. "Your Plant Juice is surely fine stuff," said Mr. W. J. Hopton, of Folsom, Cal., where he has resided for the past twelve years. Mr. Hopton is now identified with the California Dredging Company, Consolidated, of Natoma. It was while he was in Sacramento recently that the following statement was made: "I have suffered severely for a long time with indigestion, stomach and kidney trouble, and had tried everything until I heard of this Plant Juice, and I must say it worked like a charm. My appetite is good, my indigestion is fine shape and I sleep like a baby. It has certainly done me a world of good. I am telling all the boys at Folsom about it, for I believe when you find a good thing pass it along."

Ask the Chalmers Owners Who Have Driven Their Cars Four or Five Years

Almost any car will give satisfactory service for six months—or a year. The differences in quality begin to show after that time. Don't ask only the owners who have driven their Chalmers cars but one season. Ask the men who have used Chalmers cars for 4 or 5 years—the men who still cling to their old Chalmers cars even after they have been driven 50,000 to 100,000 miles.

There are many such. Here are eleven Chalmers cars which have been driven more than 1,000,000 miles—an average of nearly 100,000 miles each.

Table with columns: Owner, Address, Mileage. Lists names like Fred Roberts, Geo. Stump, Frank W. Fiske, Jr., Louis Pacheco, etc., and their respective addresses and mileage.

And at the Chalmers factory are the records of many more cars which have been driven 25,000 to 50,000 miles.

Cars built of poor materials or by slipshod methods don't make such records. Men don't continue to drive, year after year, a car which gives constant trouble or which is expensive to maintain.

Ask the Chalmers owners who have made these records why they continue to drive the Chalmers in preference to other cars. Then decide if the Chalmers isn't worth your careful consideration. If you are looking for real service you will hardly want to select a car, after reading these records, without seeing the Chalmers. Won't you call or write and arrange for a demonstration?
