

ROSARIANS ASSESS OWNERS OF LAND

Aid Will Be Asked From All Who Pay Taxes on Valuation of \$10,000 or More.

SOLICITORS ARE PLEASSED

Frank McCrillis, Field Marshal of Campaign to Raise \$100,000 Fund, Has Established Headquarters to Direct His Staff.

Every taxpayer in the City of Portland who pays taxes on more than \$10,000 worth of property will receive a letter from the Royal Rosarians today asking him to give as generously to the Rose Festival fund as he can. His equitable share of contribution will be set out in the message and the request will be made that he indicate on a return postcard how heartily he will respond.

Approximately 6000 of these letters went into the mails last night and it is hoped that a flood of replies before Monday night.

Under the same systematic campaign work the Manufacturers' Association is sending out a circular letter to every one of its members together with a personal appeal from William McMurray, who is chairman of the committee to secure subscriptions from this line of business.

This method of reaching the larger interests of the city has been adopted for the reason that the general finance committee, even with several clerical workers, has found it absolutely impossible to cover the entire city in the thorough manner which was outlined at the start of the enterprise.

Replies to Form Guide. The honor of the replies received will determine in a great measure what emergency recourse will be necessary to secure the full \$100,000 fund which is the mark set. The Rosarians are bending every energy to complete their work by next Monday night, as the organization realizes that the time is getting short.

V. Vincent Jones reported last night that he had secured seven subscriptions in half an hour, not a man on whom he called having turned him down or tried to evade assisting the project.

P. E. Arlett reported that every firm he had solicited from was ready to give something, some raising their subscription of last year and all willing to do as much as they had in the past.

The following special committee will call on the public school principals of the city at their meeting at the Trades School this morning and ask for an endorsement of the plans for holding the "Human Rosebud" parade of school children, W. J. Hill, chairman, W. J. Hofmann, W. E. Coman, Dean Vincent and Judge R. G. Morrow. The support and aid of the principals is regarded as the utmost importance in the leading feature of the Festival week on the East Side, it is to be a success, and it will be strongly urged upon the heads of the schools to co-operate to the fullest extent with the Rosarians and the East Side Business Men's Club in making this event a more brilliant and picturesque affair than in former years.

Headquarters Are Opened. Frank McCrillis, field marshal of the Royal Rosarians in the campaign to raise the Festival fund, established his headquarters in the Lumbermen's building yesterday and from that place the campaign will be directed until the fund has been completed.

Working from these headquarters, all the members of the Rosarian "army" will be enabled to keep in close touch with every phase of the campaign and to direct the energies into the channels where there is any immediate demand for concentrated effort. Complete records will be kept at the headquarters, so that any of the workers may see at a glance how the districts of the city are being covered and what progress the campaign is making.

contracts the largest was for the hard-surfacing of East Forty-third and other streets from Broadway to Sandy boulevard, awarded to the Barbur Asphalt Paving Company for \$28,000. The paving is to be gravel bitulithic.

Other contracts were: Lombard street, from Westman street to the east end of the North Bank bridge, to the Oregon Hoop Company for \$2,000; Taggart street, from East Seventh to East Sixteenth, to the Liden-Kibbe Contracting Company, \$15,500; East Sixth street, from Hawthorne avenue to East Washington, to Montague O'Reilly Company for \$18,855.

For sidewalks the principal contract was for Forty-third street, from Fifty-fifth avenue Southeast to Sixty-fourth avenue Southeast, for \$273.

The committee granted property owners on the West Side the right to make a survey to determine the cost of widening the street from Fifteenth to Nineteenth streets, provided the cost of the survey is borne by the property owners themselves. The committee has refused to make the survey or put through the proposed extension. Some of the owners want to make the investigation of their own accord.

DANCE ACT IS FRAMED

VARIOUS OPPOSING INTERESTS COME TO TERMS.

Safeguards to Be Set Around Public Places of Amusement Under Direction of Inspector.

After nearly six months of bickering, various social workers, dance-hall promoters and fraternal organizations yesterday reached an amicable agreement on the provisions of an ordinance legalizing public dancing under rigid restrictions. The agreement was submitted to the health and police committee of the City Council and was referred in ordinance form to the Council with the recommendation that it "do pass."

The ordinance as it stands will permit the opening of public dances under the regulation of a dance-hall inspector to be a member of the police department. The measure prescribes a license for dance-halls of various sizes and requires all to secure permits to hold dances.

Provision is made against the sale of liquor, either in the hall or in any place adjacent, and prohibits the issuance of return checks. Drastring provisions are made against questionable forms of dancing, such as the "turkey" and "bunny hush" and the "grapevine twist."

The various organizations and persons interested in the measure have been deadlocked on the ordinance subjecting private dances given by clubs or fraternal organizations to the regulations provided for public dances. The measure which originally included all dances now exempts from the regulation dances in private homes, or dances given by the school district, the Park Board or any fraternal or benevolent organization having a regular membership associated primarily for their mutual physical and mental welfare, and organizations conducting dances for the benefit of which accrues to such organization.

The ordinance prohibits Sunday dancing in public halls, but not Sunday dances given by the organizations exempted from the provisions of the measure.

BARTHOLOMEW ACCEPTS PLACE

France's New Premier Feels Sure of Majority of Deputies.

PARIS, March 21.—Jean Barthou, Minister of Justice in the retiring French Cabinet, accepted today the President's invitation to head the new Cabinet. He called on President Poincaré and informed him that he had accepted the post and was sure of an ample majority to support him in the Chamber of Deputies and also in the Senate, at least until the electoral reform bill comes up again for discussion.

It was the lack of support for this measure which brought the fall of the Briand Cabinet.

Remarkable Cataract Cure

Gets Right into the Affected Parts and Stops Gathering in Eyes, Nose, Throat and Lungs.

"Nine-tenths of humanity suffer with cataract but do not know what cataract is," said an expert doctor, a specialist in blood analysis. It is treated locally because nature tries to drive it out of the system. But nature must have help. Naasal cataract is merely an outlet, and it is folly to expect a cure by inhalants or local applications. If a stream is polluted its source it is ridiculous to waste time in purification at its mouth.

By a long series of elaborate experiments at the Swift Laboratory it is definitely known that cataract can be cured by the simple process of inoculating the blood with antitoxic remedies that stop inflammatory conditions throughout the mucous linings of the organs of the body. This is done with the famous Swift's S. S. S. It is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all cataract pollution. S. S. S. cleans out the stomach, mucous accumulations, enables only pure blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

You will soon realize its wonderful influence by the absence of headache, a decided clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely cataract often infests the entire system. You will find S. S. S. on sale at all drug stores at \$1.00 per bottle. It is remarkably remedial for rony and all blood affections, such as eczema, rash, lupus, tetter, psoriasis, boils and all scrofulous conditions. For special advice on any blood disease write in confidence to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga. Do not delay to get a bottle of S. S. S. at your druggist.

PAVING DISPUTE AT END

RESIDENTS OF SANDY DISTRICT AIR GRIEVANCES.

Council Committee Decides to Let Assessments Remain as Levied and Help Those in Need.

After hearing both sides of the problem centering about the proposed enlargement of the district to be assessed for the hard-surfacing of Sandy boulevard, the street committee of the City Council yesterday decided against the enlargement and made arrangements for the city to take care of some of the property owners who would lose their property if the assessment, as made, were enforced. Relief to these persons will be given from the city's general fund.

The original district comprised only property abutting on the streets. When it was found, after the work had been done, that the assessments against each street property owner were excessive, the district was enlarged to include other property benefited by reason of the street being an arterial thoroughfare.
