

ADMIRAL REGARDED AS INSANE BY WIFE

Sick, Helpless, Sad, Old Man Considered Still as "Dangerously Subtle."

OLD LETTER MADE PUBLIC

Woman With Skill of Sherlock Holmes Declared Necessary to Overcome Sentiment in Husband's Favor.

CHICAGO, March 21.—The nature of the relations between Rear Admiral Eaton and his wife, charged with his murder, became known here today in a letter written by Mrs. Eaton March 15, 1911, to Marshall P. Gallion, an attorney who acted for her in her divorce proceedings against her first husband, Daniel Henry Ainsworth, in 1906.

"This poor man is dreadful and I fear to stay here this winter. My leaving him alone with my mother while I was in Chicago made him wild. If I had a doubt of his insanity, which I never had, it would be removed quickly, as he is so much worse."

Admiral Sick, Helpless, Sad. "He is a sick, helpless and sad old man and it goes to my heart. He relies on me entirely. I am his eyes, brains and life, and still how can I stay here alone and let him kill me and poor little innocent Dorothy—and he will do it and then wonder where we are? He is the most dangerous, subtle man I know of, and still I have no way of escape."

"Public opinion, his rank, his age, and his navy are all against me. All doctors are too diplomatic and afraid to attempt to deal with him as he should be dealt with, and it will cost me hundreds of dollars to get evidence and take a year at least to get it in shape, and then I probably will be outwitted by sentiment and pity. He is the most dangerous man you could meet any place."

Practical Advice Asked For. "Please help me; what shall I do? What do you advise me as the most practical? After Friday I shall be here alone with him. Is it wise? He is so subtle and steady. Would you get a common, cheap woman just to have someone with me? Of course, such a person would not be able to detect his trouble, or a person drilled to brain trouble or familiar with insanity. If he is as dangerous as I believe, I must protect my life; so find out whether you can get me a woman who is a Sherlock Holmes in criminal psychology and of highest moral character and high standing; with doctors and alienists, one whose word would go. If she said he was insane, they would do the rest. Please see what you can do for me and advise me."

FAMILY DOCTOR TO TESTIFY

Conversation Will Have Bearing on Further Investigation.

ROCKLAND, Mass., March 21.—The conversation between Rear-Admiral Eaton and his family physician, Dr. Joseph Frame, a few hours before the admiral died, will have an important bearing, it is understood, on the further investigation into the cause of the admiral's death.

"BOMB" SEIZED BY BOY

Elevator Lad, Victim of Jokers, Takes No Chances.

"George the Elevator Boy," who experiences daily ups and downs in the Ainsworth building, demonstrated yesterday that, though badly scared, he can retain his presence of mind. He did it by seizing a blazing bomb, tearing it from the fast diminishing fuse, and then falling into a state of semi-collapse.

CURE PROGRESS REPORTED

he expressions of the opinion of the board of officers of the Public Health Service bearing on the investigation have appeared in newspapers. These officers have expressed no opinion and will not be in position to do so until the work has advanced sufficiently to warrant some knowledge in regard to Dr. Friedmann's treatment.

Thus far Dr. Friedmann's tuberculosis culture has been demonstrated to be a live germ, according to tests made in the Government hygienic laboratory here, sub-cultures having been grown from the original culture submitted to the Public Health Service by the Berlin doctor.

TEMPORARY LICENSE REFUSED

Pennsylvania Will Let Friedmann Act Only as Consulting Physician.

PHILADELPHIA, March 21.—No temporary medical license will be granted by the Pennsylvania State Board of Medical Examiners to Dr. Friedmann, of Berlin, who asserts he has discovered a cure for tuberculosis.

This statement has been made by Dr. J. M. Baldy, president of the board. Dr. Friedmann told four Philadelphia physicians he would not come to this city to perform experimental work unless he received a temporary license giving him permission to practice here. "We will never grant Dr. Friedmann a temporary license," declared Dr. Baldy. "In the first place, the laws of the state do not permit such action, and secondly, the members of the State Board of Medical Examiners do not intend to make themselves responsible for Dr. Friedmann and his cure. If he wishes to come here and treat patients and collect fees for treatment, he will be compelled to take the state board examinations, similar to those taken by any other physician wishing to practice in the state."

"We do not object, however, to his coming here as a consulting physician and demonstrating his vaccine, and I think every physician in the city will welcome him, if he should come under these conditions. We feel, however, that some should take the responsibility whether he is successful or not."

IMPROVEMENT IS REPORTED

Patients Treated in Berlin Said to Show Remarkable Advance.

NEW YORK, March 21.—Sufferers from tuberculosis whom Dr. Friedmann treated with his vaccine before his departure from Berlin to this country are responding remarkably to the treatment, according to a cablegram received today by Dr. George O'Hanlon, superintendent of Bellevue hospital. The cablegram came from Berlin hospital, Dr. O'Hanlon said.

Dr. Friedmann treated 16 patients here today, but was obliged to postpone the treatment of 14 more until tomorrow owing to the fact that his vaccine was exhausted.

GIRL SIGNS TO OBLIGE

COAL LAND APPLICATION IS MADE PERFUNCTORILY.

Witness Against Frost Says She Did Not Know Nature of Papers Until Recently.

CHICAGO, March 21.—Evidence against Albert C. Frost and four others on trial before Federal Judge Landis, for alleged Alaska frauds, was offered today by Miss Florence Capron, formerly of Winnetka, Ill.

Miss Capron testified that she was approached in 1905 by C. W. Mirrelles, former traffic manager of the Chicago Milwaukee Electric Railway, and that he induced her to sign an application for an Alaska coal claim without her gaining any definite understanding of what she was signing.

AUSTRIA ABOUT TO SEND ultimatum

Relations With Montenegro Acute, Even to Breaking Point.

FLEET TO BACK DEMAND

Russia Said to Have Agreed to Proclaim—King Nicholas Insists He Will Take Scutari—Allies Hope for Peace.

LONDON, March 21.—The relations of Austria and Montenegro have become acute, even to the point of breaking, as the result of the curt reply of King Nicholas of Montenegro, to Austria's note concerning Scutari, in which he expresses regret for any injury done the civil population of Scutari, but refuses to concede Vienna's demand that civilians be allowed to leave the beleaguered city or to permit an Austrian official to participate in the inquiry into the alleged murder of the priest, Faize, the forerunner of conversion of Catholics and interference with the Austrian steamer Skodra.

Austria already has decided to send Montenegro a more urgent note, which really will be a thinly veiled ultimatum, and if this does not have the desired effect, to issue a formal ultimatum which would be backed up by the Austrian fleet now off the coast of Albania.

Russia, with which country Austria is reported to have reached a complete agreement, it is argued, will urge Montenegro to show a more conciliatory spirit, but the previous Russian efforts in this direction were fruitless, and it is feared King Nicholas, who believes his crown depends upon the capture of Scutari, will remain stubborn.

Austria has notified the powers that her fleet has gone to the Albanian coast, because of the position of the Catholics, to whom Austria is the protector, and has sent to Cetinje, Baron De Giesel, her minister, who will impress on Montenegro the determination of Austria, that Scutari shall remain Albanian, and that Austria's other demands must be complied with. Serbia, which realizes the fruitlessness of the continued siege at Scutari, is understood to acquiesce in this.

In fact all the allies except Montenegro, which is preparing a general storming attack on Scutari, are anxiously awaiting an excuse to end the war. King Nicholas, however, is said to have declared: "Either I shall return to Cetinje the conqueror of Scutari or not at all."

SCHEDULE IS ARRANGED

TEN ELECTRIC TRAINS DAILY CORVALLIS SERVICE

Two Through Runs to Portland, With Time Fixed at Three Hours, Are Announced.

CORVALLIS, Or., March 21.—(Special)—An official schedule of Oregon Electric Railway service, via the branch from Gray, four miles east of this city, announces 10 trains each way daily. Each main line train north and south will be met at Gray, and two through trains between Corvallis and Portland will be operated, with a running schedule of three hours.

Plans are under way for observing the opening of service on Tuesday, but the great celebration will be delayed until the Oregon Electric comes into Corvallis over its own steel bridge, which is to be completed next Tuesday.

COLOSSUS RAG LATEST

IN NEW DANCE WOMAN DIVES BETWEEN PARTNER'S LEGS.

Only Elect of Society Know "Last Word in Ragging" and Only Few Have Learned to Dance It.

SAN FRANCISCO, March 21.—(Special)—The colossus rag, a dance in which the lady actually dives between the outstretched legs of her gentleman partner, is the latest novelty of local rag dances. Here is how it is done:

Suddenly they stop—the pair in the center. The man stands like a colossus of Pacific Heights, or Burlington, or Piedmont; his partner clutches her skirts, such as she has of them, and dives, darts, glides, twists, dips, swirls, gyrates, slips, dances through the air, the man whirls on his heels, clutches the lady as she rises and then they continue, just as if they were dancing a little old last year's bunny hug.

There is not much dance left in the room while this colossus dip is going on. Everyone has stopped to watch it. For it is, as it has been adequately, picturesquely, pitifully described by those chosen ones who have witnessed it, "the rag superlative—just the last word in ragging."

POPULATION IS 265,000

(Continued From First Page.)

directory contained 114,440 names. This figure multiplied by 2.35 gave an estimated population of 267,490. On the same basis of estimating, this year's directory probably will show the present population to be in excess of 265,000.

These figures include the suburbs of Linton, St. Johns, Lents and Milwaukie, all of which really are parts of the city itself and the residents of which are listed in the directory. Lents has been admitted as a part of the city since the last directory was issued. The other places probably will be admitted before the next Federal census is taken.

By using ditto marks under the surnames it was possible this year to save more than 2 1/2 complete pages. The directory therefore will be smaller than that of last year.

700 DIE A MINUTE 36,792,000 A YEAR

This Mortality Can Be Reduced at Least One-Half—Most Ailments Are Caused From Constipation and Debilitated Stomachs.

The Christian Herald recently published the astounding statistics that 700,000 die every year. A large percentage die from preventable diseases. I want to impress upon every man, woman and child, whether they are sick or well, that constipation and debilitated stomachs are the cause of kidney ailments, liver ailments, rheumatism and many other ailments.

Physicians are learning that when you keep the stomach sweet, the bowels clear and active, the liver and kidneys will perform their functions and will make good rich blood and nourish all parts of the body. That is why I am giving so much attention to my Paw Paw Laxative Pills. They do not irritate the bowels as cathartics do, and they do not purge and without debilitating. Don't be stuck on your doctor. Don't be stuck on old-fashioned medicine. Use my P. P. LAXATIVE PILLS. Don't use a sallow candle when you can have an electric light. Get the best of everything. You are entitled to it.

I want every person who has a sour stomach who has distress after eating, who belches up gas, who is weak and nervous, who cannot digest, who is particularly those who are constipated, to get a bottle of my Paw Paw Laxative Pills from their nearest druggist. Take one or two at night. You cannot have headaches if you keep the bowels clear. You cannot have indigestion, constipation and biliousness, because these little peace-makers take out the poison from the stomach as fast as it comes in. They are the best thing you can get for a bottle. Try them. If you are not satisfied, I will return your money.

NUDE HELD NOT LEWD

ART DEALER MAY CONTINUE TO SHOW PAINTING.

Member of Vice Commission Calls Picture Immodes—Woman Thinks It Proper.

CHICAGO, March 21.—"September Morn," the painting of a well-known artist, depicting a young girl in the nude beside a fountain, is not a lewd picture, according to the finding of a jury in the Municipal Court here today.

Fred D. Jackson, an art dealer, was on trial for displaying in his shop window an alleged indecent picture, which was a copy of the famous original. Among the witnesses called were a priest, several artists, an art critic, probation officers, settlement workers and persons well known in society.

Jackson was acquitted and the picture may be restored to its place in the shop window.

W. W. Hallam, member of the vice commission on the stand, said he believed the picture was indecent, because it showed the girl bathing in a public place.

Jackson tried to make Mr. Hallam say what part of the picture he considered indecent.

EXPLORER IS CAUTIOUS. AMUNDSEN WILL PERMIT NO MOVING PICTURES. Display of American and Norwegian Flags Also Causes Embarrassment at Reception. SANTA BARBARA, Cal., March 21.—Two incidents occurred during the visit here today of Captain Roald Amundsen, discoverer of the South Pole, which were embarrassing to the explorer and those who planned to entertain him. Automobiles draped with American and Norwegian flags and bearing the entertainment committee called to take the explorer for a ride about town, but the guest of honor declined to accompany them until the flags were removed. When the party arrived at the Country Club to partake of refreshments in a wigwam labeled "South Pole," Captain Amundsen dodged behind the "pole" just as a moving-picture operator focused on him. Later he explained that his lecture contract did not permit any public display or posing for moving pictures. MAINE PASSES Public Utilities Bill. AUGUSTA, Me., March 21.—A bill creating a state bureau of public utilities was passed by the Legislature today. The Wisconsin law was used as a model.
