

# LUMBER BOYCOTT IS TAKEN HIGHER

## Appeal Made by Portland Body to United States Chamber of Commerce.

### INTERVENTION IS SOUGHT

#### Resolutions Adopted Calling Attention to Length of Embargo and Setting Out Damage Retaliation Would Effect.

The United States Chamber of Commerce has been called upon by the Portland Chamber of Commerce to investigate the San Francisco boycott on finished lumber from the mills of the Northwest, and bring about, if possible, a settlement. In a resolution pointing out that the boycott has existed for nearly ten years and that if persisted in it will inevitably lead to retaliatory measures on the part of the Northwest which will extend the evil instead of mending it, the board of trustees of the Portland Chamber has requested that the National body take action upon the matter. This resolution was included in a letter dispatched yesterday.

Under the rules set forth in article 1 of the bylaws of the National body, the Portland Chamber believes the National Chamber in a position to take action on the matter. This article of the bylaws provides that the National organization shall be "to encourage trade and commercial intercourse between the states, secure co-operative action in advancing the purposes of its members, uniformity and equity in business usages and proper consideration and concentration of opinion upon questions affecting the financial, commercial and industrial interests of the country at large."

#### Situation is Reviewed.

Following the text of the resolution of the board of trustees in the letter to Washington, Secretary E. C. Giltner outlined the boycott situation and urged that the National body use every effort to mitigate the evil.

"The San Francisco boycott is a matter of serious import," he says, "to the business interests of Oregon and Washington. The manufacture of lumber is the basic industry of these states, and anything that mitigates against logical and proper expansion of this industry strikes directly at the foundation of our prosperity and well being. The lumber buying markets of San Francisco and other Bay cities constitute our natural nearby outlet and interference with these markets is a serious injustice and a hardship upon the Northwest; a hardship that cannot, in any sense, be justified, because it is absolutely true that the markets of the Northwest are open, without prejudice, to the products and manufactures of California, and the entire country.

#### Basis for Help is Shown.

"In view of the trade embargo brought by the San Francisco boycott it is the opinion of our board that the subject comes properly within the scope and purposes of the Chamber of Commerce of the United States of America for consideration and adjustment, and we sincerely hope that your board will consider and act favorably upon the appeal here made. Surely the question, in its bearing upon inter-state trade relations, and in its bearing, as well, upon the interests of commercial bodies holding membership in the Chamber of Commerce of the United States of America, gives ample basis and justification for the consideration here bespoken."

### MANY SETTLERS EXPECTED

#### Volume of Inquiries Received at Chamber of Commerce Growing.

Every portion of the United States is represented by inquiries from intending immigrants pouring into the office of the Chamber of Commerce in a daily volume which indicates that the number of colonists coming to Oregon this season will exceed the record of any previous year.

The inquiries come largely from smaller communities, from farming people who wish to take advantage of the Oregon soil and climate. The files in the Chamber of Commerce and the register kept in the exhibit department indicate that Oregon is drawing its heaviest additions to population from the Middle West, although British Columbia is also the source of much immigration to Oregon, and even Washington and Southern California are sending new citizens to make homes in this state.

### CONFLICT TO BE ADJUSTED

#### County and Railroad Officials Will Inspect Proposed River Road.

In a private car a party of O. W. R. & N. and county officials will leave the Union Depot at 9 o'clock this morning to visit points along the proposed Portland-Hood River road where the railway right of way and the wagon road would interfere and where concessions are being asked of the railway company. The party will consist of General Manager O'Brien and Chief Engineer Boschke of the railway company, and may include President Farrell, County Commissioners Hart and Lightner, County Judge Cleaton, County Surveyor Holbrook and County Road Superintendent Chapman.

There is one place in particular along the route where, to avoid a 18 per cent grade, a heavy infringement on the railway company's property would be necessary and it is to this point that the visit will be directed chiefly. Though not yet reduced to writing, a satisfactory agreement has been reached with respect to all other places where conflict is foreseen.

#### Dr. Matson to See Dr. Friedmann.

Dr. Ray Matson left last night for New York to gain a conference with Dr. F. F. Friedmann, whose reputed discovery of a tuberculosis cure is attracting world-wide attention. Dr. Matson has been following closely the reports of Dr. Friedmann's treatment and has confidence in his methods. He will endeavor to interest Dr. Friedmann in a trip to the Coast to test his treatment on sufferers here.

### MILK SUPPLY INCREASES

#### Dairy Returns for March, This Year, Exceeds That of 1912.

HILLSBORO, Or., March 24.—(Special.)—F. C. Orth, field manager for the Pacific Coast Condensed Milk Company, with factories here and at Forest Grove, March, this year, is much better than for the corresponding period in 1912.

It is found that where people have bought small tracts of five and ten acres along the railway lines the milk supply in those sections has increased largely. Mr. Orth looks for the largest milk production in the history of the county for the present season.

### 5000 JOIN IN HUNT

#### Parks Thronged With Joyous Egg Searchers.

One genuine misanthropist was found in the park. He deplored the egg hunting. "Children will break their arms and their legs their mothers will have work to do cleaning them after they all over, the whole park is in an awful mess, and I think it's a cruel shame to allow this idiosyncy," he muttered, but his opinion did not seem to be shared by anyone else.

### PRIZE IS LOST TO TRADER

George Williams was the lucky winner at the Brooklyn Park and Leonard Wilmont at the Mount Tabor Park. The returns from the other parks had not been reported at a late hour last night.

### VIRTUES OF NEGRO TOLD

#### Final Address of Dr. Washington Here Before Unitarian Club.

Booker T. Washington dwelt upon the virtues of the negro race in his address before the members of the Unitarian Club at a luncheon in the Commercial Club yesterday.

The vice of the negro race, he declared, have been and are still being held up so strongly before the people of the United States that they are inclined to overshadow their virtues and with each year, it is more and more a good features about the negro character and to be over-harsh in their judgment. Pointing out the charitableness of the negroes, he said that the poor of the colored race are always well cared for by their own people and since their emancipation and the stresses of the reconstruction days the negroes have never called upon the state or Government to help them in caring for their own poor.

W. F. Woodward was toastmaster at the luncheon and R. W. Montague gave a short talk in behalf of the club. Dr. Washington left last night for Hood River, where he will deliver two addresses today, after which he will leave for a series of engagements in Utah.

#### Family Has Reunion and 26 Are Seated in Handsomely Decorated Dining-Room While Eleven Grandchildren Play Around.

The occasion of the 73d birthday of Phil Metschan, Sr., and the 37th birthday of Phil Metschan, Jr., was made notable last night by a family gathering which was virtually a reunion of the entire family in its three generations.

The anniversary was celebrated with a dinner in the handsome Elizabethan room of the Imperial Hotel, owned by the Metschans. Here a long table was laid, with plates for 28. The table was decorated with red roses. Playing about the room were 11 grandchildren, one of them being Phil Metschan III, son of Dr. E. L. Metschan, of Grants Pass. The 12th grandchild, Miss Marie Metschan, daughter of Frank Metschan, of Grants Pass, was at the table with the grown-ups.

#### Huge Cake Carries Tapers.

The feature of the dinner was a huge birthday cake. Round its rim were 37 lighted candles, in honor of the 37 years of Phil Metschan, Jr. There was not room for 73 of the little tapers, so Phil Metschan, Sr.'s part in the celebration was signified by 73 sugarplums, placed outside the candles.

A surprise element was introduced when a 24-inch silver loving cup was presented to Phil Metschan, Jr., and a mahogany cello, with cut-glass equipment, to Phil Metschan, Sr., by employees of the Imperial Hotel. A silver loving cup was also presented to Phil Metschan, Sr., by his wife and children. The younger Phil received an automobile clock, the gift of his brothers and sisters.

A number of telegrams of congratulation, many of them from hotel men throughout the West, and one from Chicago, were received.

Mr. Clarke probably will be on the stand two or three days. The plaintiffs finished putting in their side of the case yesterday, about a month after

### ONE LOAFER ORDERED OUT

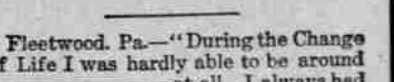

#### George O'Connor, Charged With Forgery, Must Leave City.

One of the pillars of the Sixth and Washington-street corner congregation of loafers, muffers and sidewalk-dancers, was removed yesterday, when George O'Connor, one of those involved in the forgery scandals in connection with the University of Oregon referendum petition, was ordered out of the city, under penalty of a year at the reformatory. Since the time of his arrest on the forgery charge O'Connor, the police declare, has done little but decorate the busy street corner, where, with a score or more of his kind, he has helped to obstruct traffic and annoy women.

O'Connor was arrested by Patrolmen Buratow and Glace, principally on account of his relations with a young woman, who, however, refused to tell her story.
