

THIRD PARTY CALL MEETS OBSTACLES

Kent, Lenroot and Anderson Decline to Join Organization in House.

AID PROMISED TO WILSON

Progressives Say It May Be Good Politics, but It Is Not Statesmanship to Divide Forces Seeking Same End.

WASHINGTON, March 25.—Representatives Kent, of California, Lenroot of Wisconsin and Anderson of Minnesota, Progressive Republicans, made a formal announcement today that they would not join the House Progressive in a new third party organization and would not vote for Representative Murdock for speaker.

Each said he believed progressive ends could best be attained at present by supporting the present Administration and he intended to co-operate with the Administration in every way, so long as it continued to carry out progressive policies.

Plans Made for Conference. Steps were taken late today by some of the men named to call a conference of Progressive Republicans to determine upon a plan of action. All of the Representatives who will be asked to attend have already been invited to join the distinct Progressive organization.

Complications Only Hurt Cause. "As far as can now be foreseen, progressives of all political parties will be called upon to assist and co-operate with President Wilson in his policies and new complications relating only to party politics can only injure the progressive cause."

HITCHING POSTS WANTED

Oregon City Improvement Committee to Accommodate Farmers.

OREGON CITY, Or., March 25.—(Special.)—The lack of hitching posts and the consequent disadvantage to Oregon City was emphasized Tuesday, following the luncheon of the Live Wires, when a discussion took place among the members to the importance of providing accommodations to the farmers of Clackamas County that will cause them to warm toward Oregon City as a trading point.

George Randall, a resident of this city, talked straight to the point and insisted that thousands of dollars in trade is being lost to Oregon City annually because of the lack of hitching-post facilities. Mr. Randall was added to the committee.

The civic improvement committee of the Live Wires made a special report, covering the recent work, and explaining that the committee is working in harmony with the Council committee on health and police.

CHARTER IS DISCUSSED

FRAMERS OF BILL EXPLAIN MEASURE TO ADMEN.

Proposed Commission Government Advantageous and Good Men Available, Say Speakers.

The proposed commission charter was discussed at yesterday's luncheon of the Portland Ad Club at the Portland Hotel by Richard W. Montague and William E. Woodward, members of the commission that drafted the charter. Councilman Baker, also a member of the commission, was chairman of the day.

"Responsible Government" was the subject of Mr. Montague's address. He explained the general provisions of the proposed new charter, and laid particular stress on the assertion that commission government, such as is contemplated in Portland, makes someone directly and openly responsible for every detail of the municipal business.

C. M. Clark, of Philadelphia, chairman of the executive board of the Portland Railway, Light & Power Company, said that it had been just a year since he had talked to the Ad Club and that in that time Portland had kept on building, growing bigger and bigger.

"I have always been a lover of Portland," said Mr. Clark, "and have been instrumental in the investment of a great deal of money here. I presume I will keep on coming here every year for some time to come."

Regarding the commission form, Mr. Clark said that it was an experiment yet to be tested in the fires of experience. In some places in the East, he said, it had proved a splendid success, while in other places not as much could be said for it.

NEASE EXAMINES TIMBER

Large Force of Cruisers Soon Will Start Work in Clatsop County.

SEASIDE, Or., March 25.—(Special.)—M. G. Nease, treasurer of the Nease Timber Company of Portland, who has the contract for cruising the timber of Clackamas and Clatsop Counties, passed Saturday and Sunday at the Moore Hotel at Seaside, conferring with several cruisers who are soon to enter the woods here in Clatsop County.

Mr. Nease is under contract by both Clackamas and Clatsop Counties to cruise timber, so that the timber in each of the counties may be reassessed at its approximate valuation. Mr. Nease does not predict how long it will take to complete the cruising of Clatsop County.

His crew of 60 men has been at work for several months in the timber of Clackamas County and he believes the men have several months' work yet before them. The men whom Mr. Nease sent into the timber from Seaside are out to do preliminary work. The active work in Clatsop will not be started in earnest until the crew has finished where they are at work now. The work in this county will take a larger crew than he has at work now. He will have a force of from 80 to 90 men in the timber.

HABIT EDUCATOR'S THEME

Every Boy Should Own an Animal, Says Superintendent.

OREGON CITY, Or., March 25.—(Special.)—"Habit is a great thing in a child's education," declared Superintendent of Public Instruction Alderman, and Superintendent-elect of the Portland schools, at a session of the State Women's Christian Temperance Union here this afternoon. "Industrial education is what we are striving for. Teach habits of honesty, industry and politeness, and interest the children so they will do their work as home boys."

"Our plan is not to fit the child to the system, but to fit the system to the child. The girls should be encouraged in domestic science, domestic art and home decorations. Every boy should have the responsibility of caring for an animal. He should own the animal."

Mrs. Ada Wallace Urub, president of the State Women's Christian Temperance Association, spoke on "Sex Hygiene in the Public Schools."

Sessions of Methodist Workers Open at Grants Pass.

GRANTS PASS, Or., March 25.—(Special.)—The marriage is the result of a short but ardently-pressed college "case," not even the closest friends of the bride and bridegroom being apprised of their intentions to dispense with one set of textbooks. This is the third college romance which has been brought to a similar culmination during the present school year and the second affecting only members of the freshmen class.

It is thought that Harryman may be one of the group rumored to be preparing to bore for oil not far from this city. Nothing authentic can be learned, as Harryman, who is recognized as an authority by other oil men here, refuses to talk about his business.
